Conway, 1997 Conway presents a landmark text on the history of German churches during the Nazi era *Nazi Concentration Camp Commandants, 1933-1945* Ian Baxter, 2014-11-30 Using many rare and unpublished images, this book identifies and delves into the characters of the notorious men who were instrumental in one of the greatest crimes against humanity in World history. Through words and pictures, the chilling truth emerges. In many respects, these monsters were all too normal. Rudolf Hess, the Commandant of Auschwitz, was a family man and hospitable host, and yet while there is no record of his committing acts of violence personally, he presided over a regime that accounted for over a million deaths. Others such as Amon Goeth and Josef Kramer personally promoted violence and terror and took pleasure from ever more brutal practices. They were competitive in obtaining results. While following orders from above, they did not hesitate to use their own initiative in pursuit of their barbaric objectives. Every occupied country in Europe was touched by the Final Solution, and despite the capture, trials and punishment of these leading perpetrators, the stain of man's inhumanity to man, woman and child remains ineradicable. Justice came too late for millions, but the lessons learnt must never be forgotten, and this book throws new light on the managers of the murderous Holocaust process *Anatomy of the Auschwitz Death Camp* Yisrael Gutman, Michael Berenbaum, 1998 An authoritative account of the operation of the Auschwitz death camp, a comprehensive work that is unlikely to be overtaken for many years.

This learned volume is about as chilling as historiography gets. Walter Laqueur, *The New Republic*, a vital contribution to Holocaust studies and a bulwark against forgetting. Publishers Weekly: Rigorously documented, brilliantly written, organized and edited, the most authoritative book about a place of unsurpassed importance in human history. John K. Roth: Never before has knowledge concerning every aspect of Auschwitz been made available in such authority, depth and comprehensiveness. Richard L. Rubenstein: Leading scholars from the United States, Israel, Poland and other European countries provide the first comprehensive account of what took place at the Auschwitz death camp. Principal sections of the book address the institutional history of the camp, the technology and dimensions of the genocide carried out there, the profiles of the perpetrators and the lives of the inmates, underground resistance and escapes, and what the outside world knew about Auschwitz and when. Published in association with the United States Holocaust Memorial Museum, Washington, D.C.

Nazism and German Society, 1933-1945 David Crew, 2013-05-13 The image of the Third Reich as a monolithic state presiding over the brainwashed fanatical masses retains a tenacious grip on the general public's imagination. However, a growing body of research on the social history of the Nazi years has revealed the variety and complexity of the relationships between the Nazi regime and the German people. This volume makes this new research accessible to undergraduate and graduate students alike.

The United States Holocaust Memorial Museum Encyclopedia of Camps and Ghettos, 1933-1945: Volume I Geoffrey P. Megargee, 2009-05-22 Winner of the National Jewish Book Award. This valuable resource covers an aspect of the Holocaust rarely addressed and never in such detail. *Library Journal*: This is the first volume in a monumental seven-volume encyclopedia reflecting years of work by the Jack Joseph and Morton Mandel Center for Advanced Holocaust Studies at the United States Holocaust Memorial Museum, which will describe the universe of camps and ghettos, many thousands more than previously known, that the Nazis and their allies operated from Norway to North Africa and from France to Russia. For the first time, a single reference work will provide detailed information on each individual site. This first volume covers three groups of camps: the early camps that the Nazis established in the first year of Hitler's rule; the major SS concentration camps with their constellations of subcamps; and the special camps for Polish and German children and adolescents. Overview essays provide context for each category, while each camp entry provides basic information about the site's purpose, prisoners, guards, working and living conditions, and key events in the camp's history. Material from personal testimonies helps convey the character of the site, while source citations provide a path to additional information.

American Refugee Policy and European Jewry, 1933-1945 Richard Bretman, Alan M. Kraut, 1987 How does one explain America's failure to take bold action to resist the Nazi persecution and murder of European Jews In contrast to recent writers who place the blame on anti-Semitism in American society at large and within the Roosevelt administration in particular Richard Breitman and Alan M. Kraut seek the answer in a detailed analysis of American political realities and bureaucratic processes Drawing on exhaustive archival research the authors describe and analyze American immigration policy as well as rescue and relief efforts directed toward European Jewry between 1933 and 1945 They contend that U.S. policy was the product of preexisting restrictive immigration laws an entrenched State Department bureaucracy committed to a narrow defense of American interests public opposition to any increase in immigration and the reluctance of Franklin D. Roosevelt to accept the political risks of humanitarian measures to benefit the European Jews The authors find that the bureaucrats who made and implemented refugee policy were motivated by institutional priorities and reluctance to take risks rather than by moral or humanitarian concerns
