United Nations Sanctions and International Law Vera Gowlland-Debbas,2021-11-15 The reactivation of the Security Council at the beginning of the last decade has resulted since the invasion of Kuwait by Iraq on August 2 1990 in increasing use of its powers under Chapter VII of the Charter and the adoption of measures against a number of state and non state entities The notion of a threat to the peace has now come to encompass violations of

fundamental norms of international law such as human rights and humanitarian law and the wide ranging measures adopted have included such innovations as the establishment of the UN Compensation Commission or that of the two international criminal tribunals for Former Yugoslavia and Rwanda These measures have not only infringed on the legal rights of the targeted state sometimes with irreversible effects where they have remained in force over a long period of time and its population but also on those of implementing states and of private rights within these states The current debate over the legitimacy and long term effects of economic sanctions on states and their populations makes it imperative to re evaluate this instrument and the broader peace maintenance function of the Security Council in the light of current community concerns Part One of this book addresses the theoretical issues by focussing on 1 The place of sanctions in the international legal system 2 the limits to the powers of the Security Council and the question of accountability and 3 an assessment of the alternatives to collective economic sanctions Part Two looks at the relationship between sanctions and humanitarian issues examining the relationship between 1 Sanctions and human rights law 2 sanctions humanitarian issues and mandates and 3 sanctions and humanitarian law Part Three focuses on implementation by states of Security Council sanctions resolutions by examining 1 Sanctions and private rights and 2 special problems for implementing states Part Four addresses the future in reassessing the place and ethics of sanctions in an international legal system which is giving increased importance to the individual This work is based on papers presented at a colloquium of the Graduate Institute of International Studies in Geneva

1945 les Européens de l'ouest sont sortis de l'Histoire grâce aux Etats-Unis. Poutine qui se comporte comme les Etats-Unis fait pendant des siècles leur prouve qu'ils doivent aujourd'hui se rappeler d'habiter vivre une tragédie et non un drame bourgeois. Le moment occidental arrive son terme et l'on voit apparaître un monde de grandes puissances qui ont définitivement fini un équilibre fondé sur les rapports de force similaires à ceux que connaissait l'Europe jusqu'en 1914. Or les Etats-Unis appellent à coexister aujourd'hui non pas ni langage ni tradition ni vision du monde en commun. Tout est donc à inventer. Gérard Araud propose ici de nourrir le réarmement intellectuel de l'opinion publique française à partir d'exemples tirés de son histoire pour mettre en lumière toute la gamme des obstacles inhérents aux relations internationales. Il nous livre un véritable manuel de diplomatie avec chaque fois un rappel historique des faits mais aussi l'explication des choix diplomatiques et leurs conséquences. Ce livre audacieux dans sa forme dresse des parallèles entre histoire et actualité. La guerre de succession d'Espagne et le conflit israélo-palestinien lui permettent d'interroger la meilleure manière de terminer une guerre. La paix d'Amiens de 1803 et le Brexit illustrent l'art de conclure des traités. Le Congrès de Vienne clarifie la distinction entre politique étrangère et diplomatie. La défaite d'Emden de 1870 interroge la pression des opinions publiques indignées à l'heure des réseaux sociaux. L'Entente cordiale voit l'idée d'équilibre des puissances incarnée aujourd'hui par les Etats-Unis. La Première Guerre mondiale montre comment les alliances comme l'OTAN peuvent diviser leurs causes initiales. Le Traité de Versailles permet de comprendre que la question allemande est aussi une question française. Le désastre de mai 1940 se pose comme matrice de la relation de la France aux Etats-Unis. L'expédition de Suez de 1956 témoigne sur la militarisation d'une politique étrangère informée par l'engagement de la France au Mali. Enfin le refus français à l'invasion de l'Irak en 2003 montre que la stature d'un pays ne suffit pas à son PIB ou à sa force de frappe. Cet essai brillant manifeste le réalisme en politique étrangère à travers comme un livre d'histoire. [Irak Encyclopædia Universalis](#), Les Grands Articles, 2015-10-28.

Alors que l'Egypte a cartographié des trajectoires hostiles n'a été menacée somme toute qu'à l'embouchure du Nil et aux portes du Sinaï, l'Irak s'est trouvé immédiatement visé sur toute la tendue de son territoire, tant donnant sa position idéale entre la Méditerranée et le golfe Persique.

1997 : L'année stratégique Institut de relations internationales et stratégiques, 1997-01-01T00:00:00+01:00

Ouvrage de référence, l'année stratégique accueille comme chaque année les contributions des meilleurs spécialistes français sous la direction de Pascal Boniface. Ils présentent une analyse complète de la situation mondiale, clarifiant tous les grands enjeux du moment et mettant en évidence la révolution par rapport aux revolutions géopolitiques présentes et futures. L'année stratégique 1997 s'enrichit de nouvelles annexes statistiques qui, au-delà des traditionnelles mais indispensables données militaires, largissent la démonstration et l'économie. Sous forme de fiches pays et de classements des pays, elles offrent au lecteur les informations les plus récentes et les plus pertinentes pour valuer les facteurs de puissance de chaque état de la planète.

L'Irak Pierre Pinta, 2003-01-01

Voilà maintenant plus de vingt ans que la question irakienne est au centre d'une actualité dramatique. Soumis depuis 1990 à un embargo sans précédent, les Irakiens n'en finissent pas de payer la très lourde facture de la défaite d'un Etat nation vouée à la glorification d'un passé mythique Babylone et son rôle.
