practical morality for everyday life by the author of *The Roots of Evil* Notre Dame Philosophical Reviews For centuries moral philosophers have sought a single overriding ideal that should guide everyone always everywhere And after centuries of debate we re no closer to arriving at one In *How Should We Live* philosopher John Kekes offers a refreshing alternative eschewing absolute ideals and considering our lives as they really are day by day subject to countless vicissitudes and unforeseen obstacles Kekes argues that ideal theories are abstractions from the realities of everyday life The well known arenas where absolute ideals conflict such as abortion euthanasia plea bargaining privacy and other hotly debated topics should not be the primary concerns of moral thinking Instead Kekes focuses on quotidian dilemmas such as how we should use our limited time energy or money how we balance short and long term satisfactions how we deal with conflicting loyalties how we control our emotions how we deal with people we dislike and so on Along the way Kekes engages some of our most important theorists including Donald Davidson Thomas Nagel Christine Korsgaard Harry Frankfurt Charles Taylor Alasdair MacIntyre and Bernard Williams to demonstrate that no single ideal whether autonomy love duty happiness or truthfulness

trumps any other. Instead, *How Should We Live* offers a way of balancing them using a practical and pluralistic approach.

Mediation Law and Practice David Spencer, Michael Brogan, 2007-02-08. *Mediation Law and Practice* gives a thorough account of the practice of mediation from the perspective of the student and practitioner. Divided into two parts, it deals with both the practice of mediation and the law surrounding mediation. Touching on the theory and philosophy behind the practice, it further describes in a theoretical and practical sense the difference between the emerging models of mediation. Mediator qualities are discussed in terms of issues of gender, culture, and power. This book examines the important issue of mediation ethics and, taking into account the developing law surrounding the practice, proposes a code of ethics. It looks at the future of mediation in light of the decline in litigation, the rise in regulatory constraints on mediation, and the popularity of online mediation. *Mediation Law and Practice* provides students and practitioners with the complete text on the practice and law surrounding mediation.

Database Management System (DBMS) A Practical Approach Rajiv Chopra, 2010. Many books on Database Management Systems (DBMS) are available in the market; they are incomplete, very formal, and dry. My attempt is to make DBMS very simple so that a student feels as if the teacher is sitting behind him and guiding him. This text is bolstered with many examples and Case Studies. In this book, the experiments are also included, which are to be performed in the DBMS lab. Every effort has been made to alleviate the treatment of the book for easy flow of understanding of the students as well as the professors alike. This textbook of DBMS is for all graduate and post graduate programmes of Delhi University, GGSIPU, Rajiv Gandhi Technical University, UPTU, WBTU, BPUT, PTU, and so on. The salient features of this book are: 1. Multiple Choice Questions, 2. Conceptual Short Questions, 3. Important Points are highlighted in bold-faced type, 4. Very lucid and simplified approach, 5. Bolstered with numerous examples and CASE Studies, 6. Experiments based on SQL incorporated, 7. DBMS Projects added. Question Papers of various universities are also included.
