Israeli-Palestinian Conflict Yaacov Bar Siman Tov, 2014-09-19 In this book the late Prof Yaacov Bar Siman Tov argues that the failure of the Israeli Palestinian peace process so far has been mainly the result of the inability of both sides to reach an agreed formula for linking justice to peace The issues of justice and injustice are focused mainly on the outcomes of the 1947 1949 first Arab Israeli War and specifically in the creation of the Palestinian refugee problem The conflicting historical narratives of the two sides regarding the question of responsibility for the injustice done to the Palestinians turn the Israeli Palestinian conflict into a classic case of linking the issues of justice and peace Yaacov Bar Siman Tov maintains that the narratives of justice and injustice in the Israeli Palestinian conflict have proved to be formidable barriers to peace Hence he recommends that justice should be compromised for the sake of peace The link between justice and peace is an important issue requiring both sides attention but given the wide and currently unbridgeable gap separating the two sides it should be postponed to the phase of reconciliation rather than being included in the process of conflict resolution The two state solution is endorsed as the best and practical solution and as a first step for a just peace in this conflict to be followed by reconciliation Highly topical this book is essential reading for scholars and researchers of International Relations Peace Studies and the Arab Israeli conflict *Justice and Peace* Caroline Feh, Dirk Peters, Simone Wisotzki, Jonas Wolff, 2019-07-05 This book studies the justice concerns of political actors in important international regimes and international and domestic conflicts and traces their effects on peace and conflict The book demonstrates that such justice concerns play an ambivalent role for the resolution of conflicts and maintenance of order While arrangements that actors perceive as just will provide a good basis for peaceful relations the pursuit of justice can create conflicts or make existing ones more difficult to resolve The Chapter Justice from an Interdisciplinary Perspective The Impact of the Revolution in Human Sciences on Peace Research and International Relations by Harald Müller is available open access under a CC BY 4.0 license at link.springer.com

Justice in Conflict Mark Kersten, 2016-08-04 What happens when the international community simultaneously pursues peace and justice in response to ongoing conflicts What are the effects of interventions by the International Criminal Court ICC on the wars in which the institution intervenes Is holding perpetrators of mass atrocities accountable a help or hindrance to conflict resolution This book offers an in depth examination of the effects of interventions by the ICC on peace justice and conflict processes The peace versus justice debate wherein it is argued that the ICC has either positive or negative effects on peace has spawned in response to the Court s propensity to intervene in conflicts as they still rage This book is a response to and a critical engagement with this debate Building on theoretical and analytical insights from the fields of conflict and peace studies conflict resolution and negotiation theory the book develops a novel analytical framework to study the Court s effects on peace justice and conflict processes This framework is applied to two cases Libya and northern Uganda Drawing on extensive fieldwork the core of the book examines the empirical effects of the

ICC on each case The book also examines why the ICC has the effects that it does delineating the relationship between the interests of states that refer situations to the Court and the ICC's institutional interests arguing that the negotiation of these interests determines which side of a conflict the ICC targets and thus its effects on peace justice and conflict processes While the effects of the ICC's interventions are ultimately and inevitably mixed the book makes a unique contribution to the empirical record on ICC interventions and presents a novel and sophisticated means of studying analyzing and understanding the effects of the Court's interventions in Libya northern Uganda and beyond

Peace and Justice Rachel Kerr, Eirin Mobekk, 2013-04-26 In recent years there has been a tendency to intervene in the military political and economic affairs of failed and failing states and those emerging from violent conflict In many cases this has been accompanied by some form of international judicial intervention to address serious and widespread abuses of international humanitarian law and human rights in recognition of an explicit link between peace and justice A range of judicial and non judicial approaches has been adopted in recognition of the fact that there is no one size fits all model through which to seek accountability This book considers the merits and drawbacks of these different responses and sets out an original framework for analysing transitional societies and transitional justice mechanisms Taking as its starting point the post Second World War tribunals at Nuremburg and Tokyo the book goes on to discuss the creation of ad hoc international tribunals in the 1990s hybrid mixed courts the International Criminal Court domestic trials truth commissions and traditional justice mechanisms With examples drawn from across the world including the former Yugoslavia Rwanda Cambodia Timor Leste Sierra Leone Uganda and the DRC it presents a compelling and comprehensive study of the key responses to war crimes

Social Justice, Peace, and Environmental Education Julie Andrzejewski, Marta Baltodano, Linda Symcox, 2009-04-01 The concept of standards seems antithetical to the ways critical educators are dedicated to teaching but what would standards look like if they were generated from social justice perspectives and through collaborative and inclusive processes Such is the central question posed by the contributors of this groundbreaking collection on the interconnectivity of social justice peace and environmental preservation Challenging education that promotes consumerism careerism and corporate profiteering they boldly offer examples of a new paradigm for practicing a transformative critical pedagogy Rather than just talking about coalition building within and across educational communities they demonstrate how we might communicate from different vantage points and disciplinary boundaries to create a broader picture of social and eco justice Social Justice Peace and Environmental Education will be required reading for educators and students who want to envision and practice living acting and teaching for a better world *Negotiating justice ? : human rights and peace agreements*, 2006 *More Justice, More Peace* Susanne Terry, 2020-03-31 *More Justice More Peace* When Peacemakers Are Advocates gives voice to the conundrum of how mediators and other impartial third party intervenors can revisit their roles in turbulent times Designed to be used by conflict practitioners mediators facilitators negotiators and those in other professions where dealing with injustice is a constant struggle the book s contributions show that impartial parties can be advocates for justice In this engaging collection of personal stories seasoned mediators show how they have worked to help justice emerge in or as a result of conflicts in families institutions organizations and communities and across geographic boundaries From the streets of
