Resolving Deep-Rooted Conflicts Herbert C. Kelman, 2016-07-15 This book is a collection of articles and essays by Professor Herbert C. Kelman, a leading figure in the conflict resolution community and one of the most influential peace researchers. Professor Kelman, a social psychologist, has been a pioneer of conflict resolution and peace research, and his work in conflict resolution has included a decades-long action research program on the Arab-Israeli conflict, which has seen the development of Interactive Problem Solving Workshops, an approach which has had a deep impact not only on research but also on the practice of conflict resolution around the world and especially in the Middle East. Focusing on Kelman's conflict resolution-related work, this volume comprises an important collection of articles written by Kelman across his career as academic and practitioner. By bringing together these carefully selected articles, the book offers a concise overview of the body of Kelman's work and his intellectual biography. It traces the origins of the field of conflict resolution, the development of the study and practice of Interactive Problem Solving Workshops, and the wider challenges faced by conflict resolution research and practice. This book will be of much interest to students of peace and conflict studies, conflict resolution psychology, and IR in general.

The Handbook of Conflict Resolution Morton Deutsch, Peter T. Coleman, Eric C. Marcus, 2011-03-04 The Handbook of Conflict Resolution, Second Edition, is written for both the seasoned professional and the student who wants to deepen their understanding of the processes involved in conflicts and their knowledge of how to manage them constructively. It provides the theoretical underpinnings that throw light on the fundamental social psychological processes involved in understanding and managing conflicts at all levels: interpersonal, intergroup, organizational, and international. The Handbook covers a broad range of topics, including information on cooperation and competition, justice, trust, development, and repair, resolving intractable conflict, and working with culture and conflict. Comprehensive in scope, this new edition includes chapters that deal with language, emotion, gender, and personal implicit theories as they relate to conflict.

Adaptive Collaborative Approaches in Natural Resource Governance Hemant R. Ojha, Andy Hall, Rasheed Sulaiman V., 2013 The contexts range from farmer field schools to floodplain management and community forestry.

Handbook of Ethnic Conflict Dan Landis, Rosita D. Albert, 2012-02-14 Although group conflict is hardly new, the last decade has seen a proliferation of conflicts engaging intrastate ethnic groups. It is estimated that two thirds of violent conflicts being fought each year in every part of the globe, including North America, are ethnic conflicts. Unlike traditional warfare, civilians comprise more than 80 percent of the casualties, and the economic and psychological impact on survivors is often so devastating that some experts believe that ethnic conflict is the most destabilizing force in the post-Cold War world. Although these conflicts also have political, economic, and other causes, the purpose of this volume is to develop a psychological understanding of ethnic warfare.

More specifically Handbook of Ethnopolitical Conflict explores the function of ethnic religious and national identities in intergroup conflict In addition it features recommendations for policy makers with the intention to reduce or ameliorate the occurrences and consequences of these conflicts worldwide The Social Psychology of Intergroup and International Conflict Resolution Ronald J. Uwazie,2019-01-15 This publication is the product of the 25th Annual Africa and Diaspora Conference in 2016 organized by

the Center for African Peace and Conflict Resolution at California State University Sacramento on the theme of Peace and Conflict Resolution in Africa 25 Years Later Lessons Best Practices and Opportunities It brings together reflections on both historical and contemporary or recurring conflicts in Africa especially on issues of ethno religious conflicts corruption land and leadership The chapters include case studies and some theoretical perspectives on the persistent search for the right size and scope of visioning and programming on peace and conflict resolution in Africa Understandably this collection of ideas thoughts and proposals will resonate with the field of Peace and Conflict Studies Arguably Africa is rising in the 21st century with declining violent conflicts and an increase in stable democracies and economies However there are still the significant challenges of extremism climate change poor governance ineffective leadership widening wealth gaps and weak institutions of moderation The essays collected here also document areas of progress in legitimizing democracy and conceptualizing social justice and suggest the need for building the next generation of peace leaders in Africa

Introduction to Conflict Resolution Sara Cobb, Sarah Federman, Alison Castel, 2019-07-02 The field of conflict resolution has evolved dramatically during the relatively short duration of the discipline's existence Each generation of scholars has struggled with the major puzzles of their era providing theories and solutions that meet the needs of the time only to be pushed forward by new insights and at times totally upended by a changing world This introductory course text explores the genealogy of the field of conflict resolution by examining three different epochs of the field each one tied to the historical context and events of the day In each of these epochs scholars and practitioners worked to understand and address the conflicts that the world was facing at that time This book provides a framework that students will carry with them far into their careers enriching their contributions and strengthening their voices Rather than a didactic approach to the field students will develop their critical analytical skills through an inductive inquiry Students will broaden their vocabulary grapple with argumentation and develop critical reading skills
