Latino Language and Literacy in Ethnolinguistic Chicago Marcia Farr, 2005-01-03 This volume along with its companion Ethnolinguistic Chicago Language and Literacy in the City s Neighborhoods fills an important gap in research on Chicago and more generally on language use in globalized metropolitan areas Often cited as a quintessential American city Chicago is and always has been a city of immigrants It is one of the most linguistically diverse cities in the United States and home to one of the largest and most diverse Latino communities Although language is unquestionably central to social identity and Chicago has been well studied by scholars interested in ethnicity until now no one has focused as do the contributors to these volumes on the related issues of language and ethnicity Latino Language and Literacy in Ethnolinguistic Chicago includes ethnographic studies based in home settings that focus on ways of speaking and literacy practices studies that explore oral language use and literacy practices in school contexts and studies based in community spaces in various neighborhoods It offers a rich set of portraits emphasizing language use as centrally related to ethnic class or gender identities As such it is relevant for anthropologists sociologists linguists historians educators and

educational researchers and others whose concerns require an understanding of ground level phenomena relevant to contemporary social issues and as a text for courses in these areas **Constructing Us** Miguel A. Aijón Oliva, 2019-07-08

Developments in the analysis of linguistic variation show the need for a theoretical model whereby variants are viewed as cognitively based communicative choices In this book the analysis of the first and second grammatical persons in Spanish media discourse illustrates an approach to linguistic structure and usage as motivated by the need to create meaning at all semiotic levels Rather than mere sets of deictic forms persons constitute arrays of functional strategies used by speakers to develop certain representations of themselves and others The degree of salience attributed to some participant through grammatical configuration including features like person way of formulation and syntactic function strongly conditions the discursive role of that participant as well as the communicative situation at large Methodologically the demonstration conjugates the analysis of quantitative usage patterns with that of specific instances of choice in order to elucidate the stylistic potential of syntactic forms in media contexts Understanding variation as the construction of meaning is essential to the scientific advancement of linguistics as an inherently social and cognitive discipline **Latinos in Israel** Alejandro I. Paz, 2018-10-25

Latinos in Israel charts the unexpected ways that non citizen immigrants become potential citizens In the late 1980s Latin Americans of Christian background started arriving in Israel as labor migrants Alejandro Paz examines the ways they perceived themselves and were perceived as potential citizens during an unexpected campaign for citizenship in the mid 2000s This ethnographic account describes the problem of citizenship as it unfolds through language and language use among these Latinos both at home and in public life and considers the different ways by which Latinos were recognized as having some of the qualities of citizens Paz explains how unauthorized labor migrants quickly gained certain limited rights such as the right to attend public schools or the right to work Ultimately engaging Israelis across many such contexts Latinos especially youth gained recognition as citizens to Israeli public opinion and governing politics Paz illustrates how language use and mediatized interaction are under appreciated aspects of the politics of immigration citizenship and national belonging **Elementary Spanish Prose Book** Lawrence Augustus Wilkins, 1918 Dictionary of Spoken Spanish U.
