Responsabilidad Social De Las Empresas En Un Mundo Global:

La responsabilidad social de la empresa a debate Rafael A. Araque Padilla,2006 Reflexión a la luz de un marco teórico sobre la Responsabilidad Social de la Empresa para contribuir a impulsar un debate social **La responsabilidad social de las empresas y los nuevos desafíos de la gestión empresarial** Tomás G. Perdiguero,2005 Los textos que han sido recogidos en esta obra constituyen una valiosa aportación al debate sobre la Responsabilidad Social de las Empresas RSE En ellos se refleja la rica pluralidad de voces y posiciones que suscitan los nuevos valores de responsabilidad tanto en el ámbito del pensamiento y la investigación académica como en el de las políticas públicas las organizaciones empresariales y sindicales y de los propios dirigentes de las empresas Sin embargo esta pluralidad de lecturas y de posiciones es compatible con dos tipos de acuerdos esenciales El primero es la aceptación de la necesidad de un enfoque más responsable de la gestión firmemente comprometido con el cuidado del impacto económico social y ambiental de las decisiones y actividades empresariales El segundo se refiere al desarrollo de una nueva visión de la empresa como una institución mucho más abierta a otras necesidades intereses y expectativas diferentes a las de los propios gestores y accionistas lo que exige la búsqueda de un equilibrio más equitativo entre los distintos grupos participantes en la actividad económica stakeholders Tomás G. Perdiguero es profesor titular de Comunicación Audiovisual y Publicidad en la Universidad Rey Juan Carlos de Madrid Ha participado activamente en el debate europeo sobre la Responsabilidad Social de las Empresas Entre sus principales contribuciones al desarrollo de la investigación en España sobre la RSE debe destacarse el libro La responsabilidad social de las empresas en un mundo global finalista del Premio Anagrama de Ensayo en 2003 Es miembro del Grupo de Investigación sobre la RSE de la Universitat de Valencia La responsabilidad social corporativa interna Manuel Carneiro Caneda,2004 La responsabilidad social un concepto empresarial de actualidad La responsabilidad social interna Las nuevas orientaciones que aglutina la responsabilidad social interna Derechos Humanos, Empresas Transnacionales y Responsabilidad Social Empresarial López-Francos de Busturia, Andrea A,2015-09-01 Esta obra pone en valor los efectos y las consecuencias que se derivan del hecho de admitir como válido un sistema en el que se permite y consiente que las empresas perciban el cumplimiento de los Derechos Humanos como una opción voluntaria A través del análisis de informes estudios jurisprudencia convenios internacionales principios reglas y directrices emanadas de Estados y organizaciones internacionales este libro presenta una sólida y coherente narrativa sobre la realidad actual de las empresas y sus políticas internas que fomentan el respeto y promoción de los Derechos Humanos A pesar del desarrollo reciente y compromiso por parte de las empresas en la protección de Derechos Humanos en sus ámbitos de actuación las empresas deben asumir la responsabilidad derivada de los impactos nocivos que el desarrollo de su actividad puede provocar en la sociedad y aprender a gestionar la Responsabilidad Social Empresarial que se presenta como una herramienta adecuada para contribuir a la mejora del modelo productivo y en definitiva a la consecución de un mundo sostenible gracias a su compromiso veraz con el respeto de los Derechos Humanos

de sus trabajadores de su entorno geográfico y de las sociedades humanas en las que interactúan. El análisis contenido en este libro muestra la evolución de los Derechos Humanos en la empresa y las respuestas que se deben dar a la problemática correspondiente. Se enriquece gracias a varios artículos relacionados con la obra principal a la exposición de ejemplos empresariales y con entrevistas a expertos en la materia por su desempeño profesional.

Responsabilidad social de la empresa Luis de Sebastián, 2007. En este número de Documentación Social se ha reunido a un conjunto de especialistas provenientes del campus universitario y de escuelas de negocios con experiencia en consultorías a empresas que preguntan sobre su RSE y vinculados con centros internacionales donde se discuten estos temas. El objetivo de esta publicación es dar a conocer diversos aspectos de la RSE que están en la boca de todos aquellos relacionados con el mundo empresarial y el público en general. También se pretende influir en la movilización de los ciudadanos como consumidores y clientes de las empresas sugiriendo al mismo tiempo de qué manera las acciones colectivas pueden servir para reforzar los estímulos que llevan hoy en día a las empresas a aceptar sus responsabilidades sociales y actuar en consonancia.

Responsabilidad Social Corporativa Fernando Navarro García, 2008-02-06. El consumidor y las empresas están cada vez más concienciados de sus respectivas responsabilidades sociales en calidad de stakeholders del proceso de producción, distribución y venta consumo. La empresa debe obtener beneficios pero no a cualquier costo y para ello tendrá que considerar el impacto inmediato y futuro de sus actuaciones. La forma en cómo lo hace y en qué campos de actuación es lo que

La responsabilidad social de las empresas en un mundo global Tom s G.

Perdiguero,2003-01-01 Se analizan las causas que contribuyen al poder e influencia de las grandes empresas aportando evidencias emp ricas sobre el final de la fascinaci n que el mundo de los negocios ha ejercido sobre una sociedad adormecida y encerrada en lo estrictamente privado Para el autor la fundamentaci n del concepto de Responsabilidad Social de la Empresa como enfoque cr tico a los modelos de crecimiento de las grandes empresas adquiere sentido en el marco de las nuevas ambiciones de racionalidad asociadas al debate europeo sobre ese concepto

Sagrado/profano Jose txo Beriain,Ignacio S nchez de la Yncera,2010 Hasta muy recientemente la teor a general de la secularizaci n originada en Europa a finales del siglo XVIII ha proyectado la imagen de un progreso inevitable sustentado en una concepc i n finalista de la evoluci n de las sociedades que conduc a inexorablemente de lo sagrado a lo secular Se cre a que cuanto m s moderna fuera una sociedad m s secular ten a que ser y por ello tambi n menos religiosa Sin embargo los trabajos que presentamos en este libro exponen que lo que la realidad exhibe es un proceso que avanza entre lo sagrado y lo secular siempre que estas

categorías se consideren en constante tensión dinámica. No vivimos en un mundo donde quepa hacer tabula rasa de la vieja distinción trascendencia/inmanencia como ingenuamente se pensó en una primera oleada secularizadora que consideraba a la sociedad moderna asentada de forma irreversible en la pura inmanencia de un mundo secular. Con el fin de ofrecer indicadores sociológicos de esta reorientación conceptual se analizan los conceptos de modernidad, progreso, diferenciación funcional y aceleración social así como los nuevos estilos de vida, las prácticas de consumo, las nuevas identidades narrativas y sus portadores sociales. Por último, analizamos el conjunto de metamorfosis que experimenta la violencia así como la emergencia de nuevos miedos colectivos. **Los derechos humanos en las sociedades contemporáneas**, 2008.

Multinacionales españolas en un mundo global y multipolar Ramón Casilda Béjar, 2011. Bancos y empresas españolas durante la última década del siglo XX tras su expansión vertiginosa en América Latina se convirtieron en multinacionales para posteriormente transformarse en globales, ganando tamaño y poder, influencia y presencia internacional. Nuevamente se podía decir en verdad: «sol mihi semper lucet, el sol brilla siempre sobre mí». Con la llegada de la crisis de extrema dureza y consecuencias insospechadas para las economías desarrolladas, se ha hecho más evidente la irrupción de los países emergentes que con sus empresas multinacionales como punta de lanza han transfigurado la economía mundial en latitud y longitud. España y sus multinacionales ante esta gravísima sacudida que depara unas realidades inditas en el sistema económico y financiero mundial deben estratégicamente hacerle frente desde la colaboración, cooperación y política privada si no quieren perder tamaño y poder, influencia y presencia internacional. En tanto la globalización avanza y se hace multipolar, los países incrementan sus interrelaciones en todas las direcciones y las multinacionales adquieren nuevas dimensiones en el renovado tablero del ajedrez económico mundial. Esto provoca que economías desarrolladas como la española cambien de modelo productivo y reconfiguren su economía en sintonía con la nueva era de la información y el conocimiento, haciendo que sus empresas intensifiquen su eficiencia, imagen y competitividad en un mundo amplificado por los países emergentes que continúan ganando protagonismo a lo largo del siglo XXI. El autor analiza las

consecuencias y alcance de este Zeitgeist o nuevo espíritu de los tiempos a la vez que propone un amplio y riguroso debate abierto a las ideas que surjan de la interacción con los lectores y con todos aquellos interesados en recuperar y potenciar el papel y lugar que verdaderamente le corresponde a España y sus multinacionales en este nuevo mundo global y multipolar del presente siglo. El CD incluye lecturas complementarias documentos de interés y estadísticas de economía internacional y empresas multinacionales españolas. Ramón Casilda Barberá es economista y master en Administración y Dirección de Empresas por ICADE Universidad de Comillas. Actualmente ejerce su actividad profesional en calidad de asesor de la presidencia de BT Global Services para América Latina. Conceptos fundamentales en la Planificación Estratégica de las Relaciones Públicas Kathy Matilla i Serrano, 2011-07. El objetivo de estas páginas se ha centrado en asentar las bases que permitan comprender la naturaleza de los elementos constructivos con los que debe edificarse un Plan Estratégico de Relaciones Públicas. Valores para una gestión socialmente responsable Anna Bajo Sanjuán, Nuria Villagra García, 2009-01-01. *Compliance y ley de pliegos tipo innovaciones jurídicas para combatir la corrupción*. Varios Autores, 2020-01-01. Los temas que se discuten en esta obra no giran en torno a las buenas o malas prácticas aunque en ocasiones nos refiramos a ellas. Este texto propone una alternativa a la empresa privada y a las organizaciones públicas evitar al máximo las incontables luchas jurídicas por los efectos de una práctica errónea. El costo de las equivocaciones o de las malas actuaciones acarrea a largo plazo más daño económico e incluso puede terminar por acabar con la institución pública o privada para muestra el reciente caso de Bioenergy donde la mala gestión la lleva a la liquidación. Gestionar la reputación en un mundo hyperconectado también se constituye en un activo básico. Frente a este orden problemático se hace pertinente revisar un concepto no tan nuevo como compliance. Hoy se discute sobre la efectividad de la norma en entornos complejos violentos y con Estados tardío modernos donde el contrato social vive atrapado en el pasillo estrecho donde es necesario que el Estado logre la fuerza de las instituciones y las movilizaciones colectivas en torno al edificio normativo para poder propiciar el orden social y ofrecer de manera legítima y legal los derechos políticos y los derechos sociales. **Responsabilidad social y balance social en organizaciones colombianas** Yaeline Román Castaño, 2008.
