Responses To Crime Vol 4 Dispensing Justice:

Managing Modernity Matt Matravers, 2013-09-13 In the last thirty years the USA and the UK have witnessed a profound change in the way in which we think about and respond to crime and social control Crime has become part of everyday life as for many citizens has imprisonment *Managing Modernity* brings together criminologists social theorists and philosophers to consider what explains these changes and what they tell us about ourselves and the way in which we live The authors consider the pervasive the obvious and the covert ways in which crime and social order have come to structure social discourses and social life from mass imprisonment to zero tolerance to on the spot fines This volume was previously published as a special issue of the Critical Review of International Social and Political Philosophy CRISPP *The Criminological Foundations of Penal Policy* Lucia Zedner, Andrew Ashworth, 2003 The Criminological Foundations of Penal Policy brings together leading international criminologists to examine the link between the fruits of criminological research and the development of criminal justice policy This volume includes comparative discussions of the United States Germany Australia England and Wales It is divided into four parts Part 1 discusses the theoretical issues surrounding the relationship between public policy and the discipline of criminology Part 2 consists of three essays exploring historical aspects of that relationship Part 3 then examines three distinct areas of penal policy sentencing policing and parole as case studies of the influence of research upon the development of policy Finally in Part 4 which is explicitly devoted to international comparisons there is a consideration of the factors that distinguish research projects that do influence criminal justice policy from those that appear not to *The Criminological Foundations of Penal Policy* is a volume in honour of Roger Hood Professor of Criminology and Director of the Centre for Criminological Research in the University of Oxford [The Oxford Handbook of Criminology](#) Mike Maguire, Rodney Morgan, Robert Reiner, 2007 teachers and students of criminology and is a sourcebook for professionals **Transforming Probation** Philip Whitehead, 2016-11-09 This book explores the politics of modernisation and transformation of probation in the criminal justice system It draws upon innovative social theories and moral perspectives to analyse changes in the probation service and makes a timely contribution to criminal justice and probation theory *Handbook on Prisons* Yvonne Jewkes, 2012-08-21 Focusing on prisons this title is a useful reference for practitioners working in prisons and other parts of the criminal justice system It explores a range of historical and contemporary issues relating to prisons imprisonment and prison management **The Official History of Criminal Justice in England and Wales** David Downes, 2021-04-22 Volume III of *The Official History of Criminal Justice in England and Wales* draws on archival sources and individual accounts to offer a history of penal policymaking in England and Wales between 1959 and 1997 The book studies the changes underlying penal policymaking in the period from a belief in the rehabilitative potential of imprisonment to a reaffirmation in 1993 that Prison Works as a deterrent to crime A need to curb the rising prison population initially focussed on developing alternatives to prison and a new system of parole however their

relative ineffectiveness led to sentencing becoming the key to penal reform A slackening of faith in rehabilitation led to pressure for greater emphasis on humane containment and the rebalancing of security order and justice in prison regimes Thus 1991 was the climactic year for what became largely unfulfilled hopes for lasting penal reform Escapes riots and prison occupations were prime catalysts for changes often highly contentious in penal policymaking Notably there was no simple equation between political party minister and policy choice Both Labour and Conservative governments had distinctly liberal Home Secretaries and after 1992 both parties took a more punitive approach This book will be of much interest to students of criminology and British history politics and law Reconceptualising the Moral Economy of Criminal Justice Philip

Whitehead, 2015-07-29 This book reconceptualises the concept of moral economy in its relevance for and application to the criminal justice system in England and Wales It advances the argument that criminal justice cannot be reduced to an instrumentally driven operation to achieve fiscal efficiencies or provide investment opportunities to the commercial sector

The Intensification of Surveillance Kirstie Ball, Frank Webster, 2003-09-20 Our public and private lives are under surveillance as never before Whether we are shopping with a credit card walking down the street or emailing a colleague at work our activities are closely monitored Since September 11th 2001 surveillance has intensified further Yet although individuals groups governments and states are more closely monitored our security is not assured This book explores the vast range of issues related to increased surveillance What is going on in an area clouded by secrecy from the state and complacent reassurances from corporations How do we track suspects and combat crime without also eroding our civil liberties and sacrificing our rights to privacy Does electronic tagging of prisoners work What are retailers up to with lifestyle profiling Focusing on these and other issues such as paedophilia money laundering information warfare cybercrime and related legislation this book spotlights benefits and costs of surveillance and suggests how it is likely to develop in the future

Policing and the Condition of England Ian Loader, Aogán Mulcahy, 2003 Citizens it is said have lost faith in the English police Opinion polls repeatedly show that trust in and respect for the police have declined precipitously from the historically high levels achieved during the golden age of the 1950s Successive decades of rising crime political violence and urban disorder miscarriages of justice and declining effectiveness have left the police in what seems like a permanent crisis of legitimation A once revered national institution has become thoroughly profane In this major new work on the relationship between English policing and culture Ian Loader and Aogán Mulcahy reassess and revise this received sociological and popular wisdom on the fate that has befallen the English police Paying close attention to the symbolic and cultural significance of the police Loader and Mulcahy document the mix of profane and sacred sensibilities that struggle with one another to determine the contours of what they call English policing culture They draw on documentary analysis of official representations of policing and oral historical research with citizens police officers former government ministers and civil servants to show that far from being demystified policing is a cultural institution that remains deeply entangled with

questions of subjectivity recognition belonging and collective identity This cultural sociology of English policing sheds new light on the social changes and conflicts that have called police authority into question in the decades since 1945 and offers an important appraisal of what is at stake in the contemporary cultural politics of policing *Exploring Modern Probation* Philip Whitehead, 2010 Since 1997 the probation service an integral component of criminal justice for over 100 years has been subject to a politically driven process of modernisation and cultural transformation This innovative book explores this probation modernisation by using social theories associated with Durkheim Weber Marx and Foucault The book combines this theoretical analysis with empirical research from interviews which highlights challenges to as well as support of the politics of modernisation This research is unique in providing insights into what representatives of other organisations think about probation from the outside looking in This up to date text will be essential reading for undergraduate and postgraduate students of probation criminology criminal and social justice and allied disciplines *EBOOK: Policy Transfer and Criminal Justice* Trevor Jones, Tim Newburn, 2006-11-16 PTCJ shines on empirical detail and an illuminating account of how policy transfer works in criminal justice highly recommended for readers interested in understanding the current state of criminal justice policy Political Studies Review A very interesting book and excellent at setting the context of criminal justice policies in the UK Thoroughly researched and written in an engaging style Tina Eadie Senior Lecturer De Montfort University Since the late 1980s it seems that policy makers and politicians in the UK have increasingly looked West across the Atlantic for inspiration in the field of crime control More broadly recent years have seen a growing focus upon the extent to which and ways in which policy ideas and practices travel within and across national boundaries Scholars from a number of disciplines have become increasingly interested in the concepts of policy transfer and related ideas This book contains the first major empirical study of policy transfer in the field of criminal justice and crime control It focuses upon policy transfer from the USA to the UK and undertakes a detailed examination of the processes of policy change in three key areas that have been widely perceived as imports from the USA the privatization of corrections two and three strikes sentencing and zero tolerance policing Drawing upon a wealth of documentary evidence and interviews with leading politicians policy makers and other key players in policy developments the authors explore the complex processes involved in policy transfer and analyse the nature and degree of US influence in these areas **Youth Offending and Restorative Justice** Adam Crawford, Tim Newburn, 2013-05-13 This book provides an empirically grounded theoretically informed account of recent changes to the youth justice system in England and Wales focusing on the introduction of elements of restorative justice into the heart of the criminal justice system and the implementation of referral orders and youth offender panels Taken together this amounts to the most radical overhaul of the youth justice system in the last half century fundamentally changing the underlying values of the system away from an exclusionary punitive justice and towards an inclusionary restorative justice The book explores the implications of these changes by using the lens of a detailed study of the implementation of referral orders and youth

offender panels to explore wider issues about youth justice policy and the integration of restorative justice principles It draws upon the findings of an in depth study of the pilots established prior to the national rollout of referral orders in April 2002 The book will be essential reading not only for those involved in the task of implementing the new youth justice but others with an interest in the criminal justice system and in restorative justice who need to know about the far reaching reforms to the youth justice system and their impact **Social Work** Vivienne E.
