Responses To Sexism:

Responses to Sexism Ouida H. Clapp, 1976 *Between Men and Feminism (RLE Feminist Theory)* David Porter, 2013-05-20 *Between Men and Feminism* had its origins in a lively colloquium at St John's College Cambridge in 1990. It discusses how two decades of feminism have affected the ways men define their own masculinities and how they have responded in their own social, sexual and political lives to the challenges posed by the evolving feminist critiques of patriarchy and maleness itself. The collection contains a great diversity of approaches from Britain and North America. It includes viewpoints from academics, a poet, an educational researcher and the members of an active men's group. Gay issues feature prominently, as do psychoanalytical views, and a number of the pieces provide a refreshingly personal and practical outlook. *Between Men and Feminism* shows men finding their own way within the spaces feminism has opened to them, rediscovering their own gendered voices and participating in the transformation of controlling ideologies in their daily lives. These very readable accounts will appeal not only to students in the social sciences and gender studies but to all men who find themselves responding to the feminist challenge. **Handbook of Diversity in Feminist Psychology** Hope Landrine, Nancy Felipe Russo, 2009-12-17

With the publication of the *Handbook of Diversity in Feminist Psychology*, the field of feminist psychology has achieved a new depth: the volume is a sophisticated and cutting-edge compendium that not only describes the state of the field but also pushes its boundaries in important ways. *Sex Roles: A Journal of Research* Critical for all those who are in the field of psychology to own, refer to and use. No longer are diversity and gender issues considered to be on the periphery as they once were; one would be remiss in not considering these factors in psychology. Florence L. Denmark PhD From the Foreword. Author: *Psychology of Women: FINALLY* A collection of work that is built on decades, if not centuries, of hard work from many feminists of color and our allies. This is one of the few books that delves deeply into the complex world of considering the human condition in cultural context; something psychology is only relatively recently trying to do. This book is a must-have for anyone interested in feminism OR diversity issues. It is a great example of feminist multiculturalism, and both fields, i.e. feminism and multicultural psychology, should consider it an example of how to merge theoretical orientations in a way that is fitting for real people. I LOVE this book. Geneva Reynaga Abiko Psy D This handbook presents a multicultural approach to diversity in feminist psychology. Provocative and timely, the text comprehensively discusses the cutting edge of feminist discourse, covering major topics such as multicultural feminist theory, gender discrimination, aging, health and therapy, violence and harassment, politics and policy, and much more. The unique quality of this book is that each contributor brings her own cultural perspective, values and concerns to her chapter. Special emphasis is also given to the intersectionality of minority identities such as race, ethnicity, social class, sexual preference, and other socially constructed status differences among women. Key Topics Discussed: Intimate partner violence, perspectives from ethnic groups in the United States, Gender transgressive sexual minorities, HIV/AIDS among women of color and sexual minority

 Mallett, Margo J. Monteith, 2019-03-09 *Confronting Prejudice and Discrimination The Science of Changing Minds and
 Behaviors* focuses on confrontation as a strategy for reducing bias and discrimination The volume tackles questions that
 people face when they wish to confront bias What factors influence people's decisions to confront or ignore bias in its various
 forms What are the motives and consequences of confrontation How can confrontation be approached individually through
 education and empowerment and in specific contexts e.g. health care to yield favourable outcomes These questions are
 paramount in contemporary society where confrontation of bias is increasingly evident Moreover great strides in the
 scientific study of confrontation in the past 20 years has yielded valuable insights and answers This volume is an essential
 resource for students and researchers with an interest in prejudice and prejudice reduction and will also be valuable to non
 academics who wish to stand up to bias through confrontation Addresses factors that determine individuals' decisions to
 confront stereotyping prejudice and discrimination Analyzes how personal and collective motives shape responses in
 confrontation relevant situations Examines the consequences of confrontation from the perspectives of targets perpetrators
 and bystanders Provides a roadmap for how to prepare for and engage in successful confrontations at the individual level
