Responsibility Of The Pariah:

Hannah Arendt Simon Swift,2008-10-06 Hannah Arendt's work offers a powerful critical engagement with the cultural and philosophical crises of mid twentieth century Europe Her idea of the banality of evil made famous after her report on the trial of the Nazi war criminal Adolf Eichmann remains controversial to this day In the face of 9 11 and the war on terror Arendt's work on the politics of freedom and the rights of man in a democratic state are especially relevant Her impassioned plea for the creation of a public sphere through free critical thinking and dialogue provides a significant resource for contemporary thought Covering her key ideas from The Origins of Totalitarianism and The Human Condition as well as some of her less well known texts and focussing in detail on Arendt's idea of storytelling this guide brings Arendt's work into the twenty first century while helping students to understand its urgent relevance for the contemporary world Action and Appearance Anna Yeatman,Charles Barbour,Phillip Hansen,Magdalena Zolkos,2011-04-21 Action and Appearance is a collection of essays that look into the crucial and complex link between action and appearance in Hannah Arendt's political thought Contributed by respected scholars the essays articulate around the following themes the emergence of political action when questioning the nature of law subjectivity and individuality the relationship between ethics and politics the nexus of co appearance thinking and truth and Arendt's writing as action and appearance For Arendt action is a worldly public phenomenon that requires the presence of others to have any effect Therefore to act is more than to decide as it is also to appear Much has been said about Arendt's theory of action but little attention has been paid to her approach to appearance as is done in this volume Action and Appearance explores both Arendt's familiar texts and previously unpublished or recently rediscovered texts to challenge the established readings of her work Adding to established debates it will be a unique resource to anyone interested in Hannah Arendt political thought political theory and political philosophy

Justifying the Obligation to Die Ilan Zvi Baron,2009-06-16 One of the state's key features is its ability to oblige its citizens to risk their lives on its behalf by being sent into war However what is it about the state or its equivalent that makes this obligation justifiable Justifying the Obligation to Die is the first monograph to explore systematically how this obligation has been justified Using key texts from political philosophy and just war theory it provides a critical survey of how this obligation has been justified and using illustrations from Zionist thought and practice demonstrates how the various arguments for the obligation have functioned The obligation to risk one's life for the state is often presumed by theorists and practitioners who take the state for granted but for the Zionists a people without a state but in search of one and who have little history of state based political thought it became necessary to explain this obligation As such this book examines Zionism as a Jewish political theory reading it alongside the tradition of Western political thought and critiques how Zionist thought and practice sought to justify this obligation to risk one's life in war_what Michael Walzer termed the obligation to die Finally turning to the political thought of Hannah Arendt the author suggests how the obligation could become justifiable

although never entirely justified For the obligation to become at all justifiable the type of politics that the state enables must respect human diversity and individuality and restrict violence so that violence is not a continuation of politics

Crisis and Renewal in the History of European Political Thought, 2021-08-30 Listen to the podcast here Read Crisis as a trigger for new ways of thinking about politics here This volume explores the complex theme of crisis in European political thought from antiquity to the twenty first century It investigates the innovations in political thought that sprang from crisis as well as the conceptual challenges thinkers faced when dealing with the devastation wrought by spiritual economic and political crises In so doing Crisis and Renewal also examines the ways in which crisis often became the site of renewal As an object of theoretical reflection and as a pivotal element of our vocabulary the notion of crisis is often applied indiscriminately and without clarity to a huge variety of domains This volume provides a historically informed analysis of what it means to reflect on and theorise about crisis Contributors are Erica Benner Niall Bond Nathaniel Boyd Andrea Catanzaro Patricia Chiantera Stutte Alberto Clerici Cesare Cuttica Annalisa Furia George Gallwey Kai Gr f Ferenc H rcher Paschalis M Kitromilides L szl Kontler Adriana Luna Fabritius Clara Maier Janine Murphy Adrian O Connor and Mark Somos

The Judge and the Spectator Joke Johannetta Hermsen, Dana Richard Villa, 1999 Since early texts as Thinking and Politics Arendt had highlighted the contrast between philosophical and political thinking and compelled herself to find a satisfactory answer to the question how do philosophy and politics relate In her last work Lectures on Kant s Political Philosophy 1982 Arendt analyses the political dimensions of Kant s critical thinking To think critically implies taking the viewpoints of others into account one has to enlarge one s own mind by comparing our judgement with the possible judgements of others While thinking remains a solitary activity it does not cut itself off from all others The essays in this book address the philosophical and moral questions raised by Arendt s attempt to draw out the political implications of critical thinking in Kant s sense In one way or another they all address the place of judgment in Arendt s thought Arendt s turn to Kant and The Critique of Judgment was motivated by her desire to find a form of philosophizing that was not hostile to politics and the public realm But did she really think that Kant s characterization of the judging spectator pointed the way out of the opposition between the universal and the particular between looking at things sub specie aeternitatis and looking at things from a political point of view To what extent did she think that Kant was successful in revealing a mode of thought oriented towards public persuasion yet one which retained its critical independence Each of the essays wrestles with the complexities of a complex thinker They remind us that critical thinking or Selbstdenken is among the most difficult and rare arts even though it is an art potentially accessible to everyone They also remind us that Hannah Arendt was a virtuoso of this art and of how her example points the way toward a renewal of judgment as the political faculty par excellence

The Attack of the Blob Hanna Fenichel Pitkin, 2021-02-16 The European intellectual Hannah Arendt worried about the tendency of social structures to take on a life of their own and paralyze individual action Pitkin is determined to trace our problems to the actions of

individuals This book is thus a battle of wits A vivid sketch of the conflict between two basic outlooks Library Journal One leaves this book feeling enriched and challenged Pitkin prompts us to rethink our understanding of Arendt and to demythologize the pervasive sense of political helplessness Arendt herself sought so hard to articulate A cause for celebration Peter Baehr Times Literary Supplement Arendt is certainly among the most original and outstanding political theorists of the twentieth century It is difficult to imagine a hostile critic examining more effectively than Pitkin Arendt's concept of the social for hostility would inhibit the acquisition of the mastery of Arendt's texts that Pitkin displays at every turn Peter Berkowitz New Republic *The Ethics of Reading According to Emmanuel Levinas* Roland A.

Champagne, 2023-06-05 Reading a text is an ethical activity for Emmanuel Levinas His moral philosophy considers written texts to be natural places to discover relations of responsibility in Western philosophical systems which are marked by extreme violence and totalizing hatred While ethics is understood to mean a relationship with the other and reading is the appropriation of the other to the self readings according to Levinas naturally entail relationships with the other Levinas's own writings are often fraught with the struggle between his own maleness the concerns of feminism and the Judaism that marks his contributions to the debates of the Talmud This book uses male feminism as its perspective in presenting the applications of Levinas's ethical vision to texts whose readings have presented moral dilemmas for women readers Levinas's philosophical theories can provide keys to unlock the difficulties of these texts whose readings will provide models of reading as ethical acts beginning with the ethical contract in Song of Songs where the assumption of a woman writer begins the elaboration of issues that sets a male reader as her other From the reader's vantage point of seeing the self as other other issues of male feminism become increasingly poignant ranging from the solicitude of listening to Celine Chapter 2 the responsibility for noise in Nizan Chapter 3 the asymmetrical pattern of face to face relationships in Maupassant Chapter 4 the sovereignty of laughter in Bataille and Zola Chapter 5 the call of the other in Italo Svevo Chapter 6 the Woman as Other in Breton Chapter 7 the ethical self in Drieu la Rochelle Chapter 8 the response to Hannah Arendt Chapter 9 and the vulnerability of Bernard Henri Levy Chapter 10 The male feminist reader is thus the incarnation of the struggle at the core of the issues outlined by Levinas for the act of reading as an ethical endeavor **The Responsibility to Protect in Darfur**

David Lanz, 2019-10-28 This book analyzes the Responsibility to Protect R2P in the context of the conflict in Darfur using detailed empirical evidence The volume traces Darfur's evolution from forgotten conflict to a major global cause and back to obscurity The emergence of a far reaching international response to the war in Darfur began in 2004 and included the most influential international advocacy movement since the anti apartheid campaign and one of the world's largest peacekeeping missions The book analyzes how Darfur slid back into international obscurity after 2011 despite ongoing violence against civilians and the continued risk of conflict escalation following Omar al Bashir's ousting in April 2019 Based on an analysis of more than 100 interviews and over 1 000 media reports the book examines one of the most pressing questions related to the

R2P why do some situations of mass atrocities cause an international outcry while others are met with complacency and silence It argues that the presence or absence of a compelling narrative which frames a situation in moral terms and unambiguously conveys who is responsible who suffers and what should be done facilitates whether or not sufficient traction will be gained to beget a robust R2P response This book will be of much interest to students of the Responsibility to Protect human rights peacekeeping conflict resolution African politics and International Relations in general **Jews in an Illusion of Paradise** Norman Simms, 2017-03-07 The focus of this volume is on essential themes images and generic patterns beginning with a Talmudic legend about four scholars They by means of daring mystical interpretations of Scripture entered a Paradise representing different means of imaginative reading perception memory and application of the law One of them died one went mad another became a heretic and the other came back as a traditional exegete and teacher Based on that legend this book examines a small group of late 19th and early 20th century European Jewish intellectuals and artists in the light of their dreams writings and moments of crisis These men and women comedians in both the sense of stage actors and clowns or witty performers believed they had entered a new secular and tolerant society but discovered that there was no escape from their Jewish heritage and way of seeing the world This monograph looks into the imperfect mirror of cultural experience discovers a hazy world of illusions dreams and nightmares on the other side of the looking glass and sometimes constructs a midrashic conceit of the comical and grotesque screen between them The Hidden Philosophy of Hannah Arendt Margaret Betz Hull, 2003-08-29 The central argument of this book is that Hannah Arendt s deserved place in the history of Western philosophy has been overlooked and recognition of her contribution is long overdue In part a result of Arendt s own insistence on calling herself a political thinker throughout her career this is also due to a common tendency in philosophy to denigrate the political This book explores the indisputable philosophical dimensions of her work In particular it examines Arendt s theoretical commitment to recognizing humanity as a plurality which avoids the common mistake in Western philosophy of theoretically overemphasizing the self in isolation Arendt s own personal dealings with aspects of her identity namely her Jewishness and her womanhood work to inform us of this position against solipsism The Rhetoric of Antisemitism Amos Kiewe, 2020-10-28 The Rhetoric of Antisemitism focuses on the initial struggle Christianity experienced with Judaism intensifying a hatred thereof and settling on a religious dogma of eternal guilt meant to perpetuate antisemitism for eternity Kiewe tackles the similar approach Islam has taken in its tension with Judaism and how it was turned centuries later into the Arab Israeli conflict significantly with the help of Nazi antisemitism and propaganda This book discusses the significant rise of antisemitism in the 19th and 20th centuries including the forgery pamphlet The Protocols of the Elders of Zion that promoted the charge of Jewish world domination and the more recent Durban Conference 2001 as a major turning point in conflating antisemitism and anti Zionism including the linguistic games used to merge antisemitism with anti Israelism Scholars of religious studies history and rhetorical studies will find this book particularly useful

Politics of the Lesser Evil Anton Pelinka, According to Pelinka Jaruzelski's politics of democratization in Poland in the 1980s which led to the first free and competitive elections in a communist system illustrate personal leadership hampered by democracy Jaruzelski initiated the roundtable process that transformed Poland into a democracy yet this process ultimately ended with his abdication

Hannah Arendt and the Jewish Question Richard J. Bernstein, 2013-05-28 Hannah Arendt is increasingly recognised as one of the most original social and political thinkers of the twentieth century In this important book Richard Bernstein sets out to show that many of the most significant themes in Arendt's thinking have their origins in their confrontation with the Jewish Question By approaching her mature work from this perspective we can gain a richer and more subtle grasp of her main ideas Bernstein discusses some of the key experiences and events in Arendt's life story in order to show how they shaped her thinking He examines her distinction between the Jewish parvenu and the pariah and shows how the conscious pariah becomes a basis for understanding the independent thinker Arendt's deepest insights about politics emerged from her reflections on statelessness which were based on her own experiences as a stateless person By confronting the horrors of totalitarianism and the concentration camps Arendt developed her own distinctive understanding of authentic politics the politics required to express our humanity and which totalitarianism sought to destroy Finally Bernstein takes up Arendt's concern with the phenomenon of the banality of evil He follows her use of Eichmann in order to explore how the failure to think and to judge is the key for grasping this new phenomenon

Hannah Arendt and the Jewish Question offers a new interpretation of Arendt and her work one which situates her in her historical context as an engaged Jewish intellectual

Speaking the Unspeakable in Postwar Germany Sonja Boos, 2015-03-10 Speaking the Unspeakable in Postwar Germany is an interdisciplinary study of a diverse set of public speeches given by major literary and cultural figures in the 1950s and 1960s Through close readings of canonical speeches by Hannah Arendt Theodor W Adorno Ingeborg Bachmann Martin Buber Paul Celan Uwe Johnson Peter Szondi and Peter Weiss Sonja Boos demonstrates that these speakers both facilitated and subverted the construction of a public discourse about the Holocaust in postwar West Germany The author's analysis of original audio recordings of the speech events several of which will be available on a companion website improves our understanding of the spoken performative dimension of public speeches While emphasizing the social constructedness of discourse experience and identity Boos does not neglect the pragmatic conditions of aesthetic and intellectual production most notably the felt need to respond to the breach in tradition caused by the Holocaust The book thereby illuminates the process by which a set of writers and intellectuals instead of trying to mend what they perceived as a radical break in historical continuity or corroborating the myth of a new beginning searched for ways to make this historical rupture rhetorically and semantically discernible and literally audible
