Responsibility Trap A Blueprint For Treating The Alcoholic Family:

The Responsibility Trap Claudia Bepko, 2002-01-15 Bepko and Krestan integrate theory and practice in describing the treatment of families with alcohol problems This book is the outgrowth of seven years of work in which we have made an attempt to integrate our own understanding of alcoholic dynamics within the framework of systemic family therapy Since we share both a commitment to the principles of Alcoholics Anonymous as well as a commitment to approaching problems from a systemic viewpoint it has always been a source of concern for us that the fields of alcoholism treatment and family therapy seem so polarized in their respective views on the nature of alcoholism as a symptomatic process Our hope is that this book can provide a bridge between those two viewpoints as well as some new ways of looking at alcoholism that can be clinically useful and relevant to other practitioners from **The Responsibility Trap**

Gender and Addictions Shulamith Lala Ashenberg Straussner, Elizabeth Zelvin, 1997 Recognizing that men and women have different patterns and different needs the book emphasizes the relational model of female psychological development formulated by such theorists as Miller Chodorow and Gilligan which illuminates women s functional focus on connection and relationship as opposed to men s on separation and individuation

Feminism and Addiction Claudia Bepko, 2014-02-25 Feminism is a beneficial force in addictions therapy as they have the same goals mending imbalances of power A variety of important topics related to addictions treatment are addressed in this timely volume accompanied by concrete clinical solutions for therapists and counselors to use in their own practice Feminism and Addiction demonstrates the positive impact feminism can have on addictions treatment Addictions treatment methods that have been developed primarily based on research with men are examined and questioned to determine what changes need to be made to meet the needs of women The applicability of twelve step treatment programs for example is investigated as to whether its required adoption of belief in powerlessness is

concurrent with feminism's battle with female subjugation. This thought-provoking volume contains the most current theoretical, social, and clinical issues enmeshed in the debates between men's experiences and women's experiences of addiction. Critical issues addressed include advice for how to deal with issues of codependency, how to treat clients faced with physical or sexual abuse in addition to addiction, how to integrate cultural differences into treatment, and how to face the particular difficulties of gay and lesbian clients in addiction's treatment. This valuable book will help you apply constructivist approaches to build therapy methods which are collaborative, internal, and organic, thus more appropriate to treating women's experience with addiction. *Feminism and Addiction* helps family therapists who work with women and their families strike a unique balance between the principles of feminism and family therapy's goal of repairing and healing relationships between men and women. Addiction Counseling Competencies, 2004 **Social Work Treatment** Francis J. Turner, 2011-03-15

First published in 1974, *Social Work Treatment* remains the most popular and trusted compendium of theories available to social work students and practitioners. It explores the full range of theoretical approaches that drive social work treatment and knowledge development from psychoanalysis to crisis intervention. This treasure trove of practice knowledge equips professionals with a broad array of theoretical approaches, each of which shines a spotlight on a different aspect of the human condition. Emphasizing the importance of a broad-based theoretical approach to practice, it helps the reader avoid the pitfalls of becoming overly identified with a narrow focus that limits their understanding of clients and their contexts. This sweeping overview of the field untangles the increasingly complex problems, ideologies, and value sets that define contemporary social work practice. The result is an essential A to Z reference that charts the full range of theoretical approaches available to social workers regardless of their setting or specialty. *Essence of Healing* Dr. Arthur Mones, 2021-11-30

Dr. Arthur Mones reflects on a 45-year career in psychotherapy and points out what has worked and what mistakes he's made to provide guidance for new and seasoned practitioners. Dr. Mones traces his own career development in parallel with the historical changes in psychotherapy. The reader is introduced to the Internal Family Systems (IFS) orientation that guides Dr. Mones' practice and learns how this system can be applied to conceptualize client symptomology from an adaptive, strength-based framework to help clients experience improved mental health. Case examples illustrate the use of IFS as a practical treatment for a variety of psychiatric disorders. Callout text, illustrated notation, guided exercises, and questions, and defined terms make the text interactive and engaging, making the book suitable for use as a teaching aid in a class for practitioners to learn a new approach to family therapy for those interested in learning more about their own mental health and useful strategies to improve functioning or for clinicians to find companionship in the wisdom, wit, and insightful reflections of Dr. Mones on his academic, clinical, and personal growth in the field of psychotherapy. The book traces the history of family therapy. It starts with its multidisciplinary origins in systems theory as a non-pathologizing treatment meant to effect lasting change by addressing the immediate causes of individual dysfunction, the family, and surrounding systems. The colorful and dedicated

early pioneers in the field and their specific contributions to the field are reviewed Dr Mones weaves in his own personal experiences working with these individuals and what he has taken as valuable therapeutic knowledge to form his own integrated practice Dr Mones describes his career long quest to find the essence of healing what are the essential elements that makes psychotherapy effective and brings relief to individuals suffering a wide range of disorder from trauma and dysfunctional systems Readers will benefit from Dr Mones decades long experience as a supervisor and teacher through his writing and learn how they too can find the meaningful parts of therapy that work to inform their own practice to create lasting change in their clients

Sourcebook of Family Theories and Methods Pauline Boss, William J. Doherty, Ralph LaRossa, Walter R. Schumm, Suzanne K. Steinmetz, 2008-11-19 Origins We call this book on theoretical orientations and methodological strategies in family studies a sourcebook because it details the social and personal roots i.e. sources from which these orientations and strategies flow Thus an appropriate way to preface this book is to talk first of its roots its beginnings In the mid 1980s there emerged in some quarters the sense that it was time for family studies to take stock of itself A goal was thus set to write a book that like Janus would face both backward and forward a book that would give readers both a perspective on the past and a map for the future There were precedents for such a project *The Handbook of Marriage and the Family* edited by Harold Christensen and published in 1964 the two *Contemporary Theories about the Family* volumes edited by

Wesley Burr Reuben Hill F Ivan Nye and Ira Reiss published in 1979 and the Handbook of Marriage and the Family edited by Marvin Sussman and Suzanne Steinmetz then in production
