Responsible Self:

The Responsible Self Helmut Richard Niebuhr, 1999-01-01 The Responsible Self was H Richard Niebuhr's most important work in Christian ethics. In it, he probes the most fundamental character of the moral life and it stands today as a landmark contribution to the field. The Library of Theological Ethics series focuses on what it means to think theologically and ethically. It presents a selection of important and otherwise unavailable texts in easily accessible form. Volumes in this series will enable sustained dialogue with predecessors through reflection on classic works in the field. *Responsibilisation at the Margins of Welfare Services* Kirsi Juhila, Suvi Raitakari, Christopher Hall, 2016-11-10 The impetus for this book is the shift in welfare policy in Western Europe from state responsibilities to individual and community responsibilities. The book examines the ways in which policies associated with advanced liberalism and New Public Management can be identified as influencing professional practices to promote personalisation, participation, empowerment, recovery, and resilience. In examining the concept of responsibilisation from the point of view of both the responsibilised client and welfare worker, the book breaks from the traditional literature to demonstrate how responsibilities are negotiated during multi-professional care planning meetings, home visits, staff meetings, focus groups, and interviews with different stakeholders. The settings examined in the book can be described as on the margins of welfare, mental health, substance abuse, homelessness services, and probation work, where the rights and responsibilities of clients and workers are uncertain and constantly under review. Each chapter approaches the management of responsibilities from a particular angle by combining responsibilisation theory and discourse analysis to examine everyday encounters. Taken together, the chapters paint a comprehensive picture of the responsibilisation practices at the margins of welfare services and provide an extensive discussion of the implications for policy and practice. Drawing upon both the governmentality literature and everyday encounters, the book provides a broad approach to a key topic. It will therefore be a valuable resource for social policy, public administration, social work, and human service researchers and students and social and health care professionals. **Position and Responsibility** Ilsup Ahn, 2009-06-08 What is the moral criterion for those who hold power positions and authority in governments, corporations, and institutions? Ahn answers this question by presenting the concept of the positional imperative. The positional imperative is an executive moral norm for those who hold power positions in political and economic organizations. By critically integrating the Neo-Kantian reconstructionism of Jürgen Habermas with the Neo-Augustinian reconstructionism of Reinhold Niebuhr through the method of co-reconstruction, Ahn identifies the positional imperative as an executive moral norm embedded in all power positions. Act in such a way not only to abide by laws but also to come by the approvals of those affected by your positional actions. By uncovering this executive moral norm, Ahn argues that a position holder is not just a professional working for the system but a moral executive who is willing to take the responsibility of his or her positional actions. *Phenomenology, Transversality, and World Philosophy* Hwa Yol Jung, 2021-03-12 Phenomenology, Transversality, and World Philosophy

explores the concept of world philosophy Weltphilosophie to take into account the reality of today's multicultural and globalizing world. It challenges the assumption that the particular in the West is universalizable but the particular in the non-West is particular forever using the concept of transversality to construct an intercontinental philosophy. In the tradition of Johann Wolfgang von Goethe's world literature Weltliteratur and in dialogue with work in ethics and political philosophy, Hwa Yol Jung examines the roles that phenomenology and transversality play in constructing world philosophy. **Sanctify them in the Truth** Stanley Hauerwas, 2016-01-28 In *Sanctify them in the Truth* Stanley Hauerwas provides an overview of the development of theology and ethics. He considers how the two disciplines interrelate, discusses the nature of sin, how any account of sin requires a more determinative account of moral law, the nature of sanctification, the body as a subject for Christian holiness, and the relationship between sanctification and truthfulness. The volume ends with sermons. Hauerwas emphasizes the freedom the sermons create as they remind us that the words we use are not our words. The inclusion of sermons also underlines Hauerwas' point that the truth of the gospel cannot be discovered apart from its embodiment in specific communities of faith. The Christian life, he argues, is not about being in possession of the truth defined as a set of timeless and universal principles of belief and action. Rather, it is about learning and living the life of truthfulness toward God and one another. For this Cornerstones edition, Hauerwas has provided a new preface that places the work in the present debate and brings this remarkable work to a new audience. The Gift of the Other Lisa Guenther, 2012-02-01 Winner of the 2007 Symposium Book Award presented by the Canadian Journal of Continental Philosophy. *The Gift of the Other* brings together a philosophical analysis of time, embodiment, and ethical responsibility with a feminist critique of the way women's reproductive capacity has been theorized and represented in Western culture. Author Lisa Guenther develops the ethical and temporal implications of understanding birth as the gift of the Other, a gift which makes existence possible and already orients this existence toward a radical responsibility for Others. Through an engagement with the work of Levinas, Beauvoir, Arendt, Irigaray, and Kristeva, the author outlines an ethics of maternity based on the givenness of existence and a feminist politics of motherhood which critiques the exploitation of maternal generosity. Who Knew? George Sher, 2009-08-07 Unlike most other discussions of responsibility which focus on the idea that to be responsible agents must in some sense act voluntarily, this book focuses on the relatively neglected idea that they must in some sense know what they are doing. Because it integrates first and third personal elements, this account is well suited to capture the complexity of responsible agents who at once have their own private perspectives and live in a public world. Repudiating Feminism Christina Scharff, 2016-04-08 Gender equality is a widely shared value in many Western societies, and yet the mention of the term feminism frequently provokes unease, bewilderment, or overt hostility. *Repudiating Feminism* sheds light on why this is the case. Grounded in rich empirical research and providing a timely contribution to debates on engagements with feminism, *Repudiating Feminism* explores how young German and British women think, talk, and feel about feminism. Drawing on in

depth interviews with women from different racial and class backgrounds and with different sexual orientations Repudiating Feminism reveals how young women s diverse positionings intersect with their views of feminism This critical and reflexive analysis of the interplay between subjective accounts and broader cultural configurations shows how postfeminism neoliberalism and heteronormativity mediate young women s negotiations of feminism revealing the manner in which heterosexual norms structure engagements with feminism and its consequent association with man hating and lesbian women Speaking to a range of contemporary cultural trends including the construction of essentialist notions of cultural difference and the neoliberal imperative to take responsibility for the management of one s own life this book will be of interest to anyone studying sociology gender and cultural studies **Philip Selznick** Martin Krygier,2012-05-23 Philip Selznick s wide ranging writings engaged with fundamental questions concerning society politics institutions law and morals Never confined by a single discipline or approach he proved himself a major figure across a range of fields including sociology organizations and institutions leadership political science sociology of law political theory and social philosophy This volume the first book length treatment of Selznick s ideas discusses Selznick s various intellectual contributions Reading across Selznick s work one appreciates the coherence of his fundamental preoccupations with the social conditions for frustration and the vindication of values and ideas Exploring Selznick s insights into the nature and quality of institutional legal and social life the book also examines his particular ways of thinking concerns values and sensibility Martin Krygier brings to light the coherence of Selznick s fundamental preoccupations allowing readers to fully engage with his unique insights and distinctive moral intellectual sensibility Reformed Theology in America David F. The Maintenance of Peace, Or, The Foundations of Domestic and International Peace as Deduced from a Study of the History of Nations Samuel Curtis Vestal, 1920

In Between Espen Dahl, 2011-04-06 Thanks to the recent return to religion the holy has become a relevant issue in public debate as is suggested by concepts such as re sacralization and re enchantment Holy war and religiously motivated terrorist attacks the fascination in popular culture for subjects such as the Holy Grail as in Dan Brown s Da Vinci Code new spiritual longings both within and outside institutional religion all testify to the new religious climate This situation calls for a reassessment of both classical and new theories about the holy Espen Dahl offers a theoretical account of the holy Central to its approach is the idea that the holy cannot be reduced to one stable essence but is fundamentally composite and takes place in between This means that the typical modern dichotomies between the holy and the profane the pure and the impure the pious and the violent cannot be drawn as sharply as scholars once did Instead the manifestation of the holy takes place in the interstice between those spheres Such a position is not strong it attests to the weakness of the holy Through a critical dialogue with the most influential recent contributions various theories and responses to them are presented on the basis of the book s overall perspective Espen Dahl deals with various theoretical perspectives corresponding to the numerous dimensions of the holy Phenomenology plays the principal role because it offers the best means to preserve the experiential dimensions which are essential to the holy From this perspective the book discusses theories from religious science theology philosophy and psychology

Constitutional Pluralism in the European Union and Beyond Matej Avbel, Jan Komárek, 2012-02-29 Constitutional pluralism has become immensely popular among scholars who study European integration and issues of global governance Some of them believe that constitutionalism traditionally thought to be bound to a nation state can emerge beyond state borders most importantly in the process of European integration but also beyond that for example in international regulatory regimes such as the WTO or international systems of fundamental rights protection such as the European Convention At the same time the idea of constitutional pluralism has not gone unchallenged Some have questioned its compatibility with the very nature of law and the values which law brings to constitutionalism The critiques have come from both sides from those who believe in the traditional European constitutionalism based on a hierarchically superior authority of the European Union as well as from scholars focusing on constitutions of particular states The book collects contributions taking opposing perspectives on constitutional pluralism some defending and promoting the concept of constitutional pluralism some criticising and opposing it While some authors can be called the founding fathers of constitutional pluralism others are young academics who have recently entered the field Together they offer fresh perspectives on both theoretical and practical aspects of constitutional pluralism enriching our existing understanding of the concept in current scholarship
