21st century the axiom that the dissolution of the USSR has reopened the Great Game Moreover The Caspian Region thoughtfully re examines the questions of democracy of fundamentalist Islam and of the complex ambivalent relationship between Islam and nationalism in the region **New States, New Politics** Ian Bremmer, Ray Taras, 1996-12-28 Since its publication in 1993 Nations and Politics in the Soviet Successor States edited by Ian Bremmer and Ray Taras has established itself internationally as the genuinely comprehensive systematic and rigorous analysis of the nation and state building processes of the fifteen states that grew out of the 1991 collapse of the Soviet Union New States New Politics Building the Post Soviet Nations was first published in 1997 and succeeds and replaces the editors earlier book with a fresh collection of specially commissioned studies from the world s foremost specialists Far from eradicating tensions among the former Soviet peoples the disintegration of empire saw national minorities rediscovering long suppressed identities The contributors to New States New Politics bring together historical and ethnic backgrounds with penetrating political analysis to offer an intriguing record of the different roads to self assertion and independence being pursued by these young nations

Historical Dictionary of Tajikistan Kamoludin Abdullaev, 2018-08-10 Tajikistan is the poorest and only Persian speaking country among the post Soviet independent states Historically the Tajiks of Central Asia and Afghanistan along with the Persians of modern Iran came from a related ethnic group When the Tajik Autonomous Soviet Socialist Republic was established in late 1924 it became the first modern Tajik state that remained one of the 15 union republics of the Soviet Union until 1991 Almost immediately after the collapse of the USSR Tajikistan became a scene of brutal civil war taking place in one of the global hubs of religiously motivated political struggle militancy mass cross border refugee flows insurgency and drug trafficking During the first decade of the 21st century the country was making modest progress toward stability However the heavy burden of socio economic problems in addition to continuing conflict in the neighboring Afghanistan Pakistan presented even bigger challenges for Tajikistan In addition Western economic sanctions against Russia in 2014 coinciding with continuing lower oil prices have negatively affected one million of Tajik labor migrants in Russia Yet Tajikistan has become neither weaker nor less important as a player in world politics This third edition of Historical Dictionary of Tajikistan contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 800 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about Tajikistan

The Faceless Terrorist Sophie Roche, 2019-05-31 How could a person portrayed as a terrorist by the Tajik state also be seen as a mujahid fighter in Islam and be a cousin all at the same time Is this just a matter of perspective and conceptualization To believe in the protection of concepts to safeguard groups and individuals from the uncertain character of the world is to deny the existence of chance and the contradictions in life This book uses approaches from existential anthropology to enquire into the question of how concepts and experiences relate The focus is on the way the notions jihad

mujahid and terrorism were used during a military intervention in Tajikistan in 2010 The book includes long term ethnographic material popular pamphlets on Islam and an internet analysis of the conflict offering new insights into how concepts and experiences relate Since the end of the Soviet Union the people from the republic Tajikistan have struggled to find a place in the larger Muslim world a painful process unfolding in relation to global events discourses and politics The primary readership for the book will come from academia and policy makers The book presents novel material on a fascinating and highly important topic the nature of ostensibly Islamist political violence against the state in Tajikistan John Heathershaw

IRAN AND TURKMENISTAN RELATIONS, 1991-2010, 2024-09-25 Cordial relations with neighboring countries are important to any country and are considered a strategic policy in international arena Any country as a member of the international community has common land or sea borders with other countries and of course no country actually chooses its neighbors As a result it is situated in unwanted surroundings in which it cannot eliminate neighboring states Therefore it has to engage in suitable and constructive interaction with its neighbors Of course it should be noted that having good and constructive relations with neighbors is a strategic element of foreign policies of all countries Those neighbors can potentially offer opportunities or pose threats to any given country Moreover diplomatic relations between countries are divided in two totally different types The first type of relationship is a one sided relationship in which priority is given to the interests of a powerful and hegemonic country On the other side the interests of the other country which is under domination of the powerful one are not usually met This kind of relation is usually unstable and as the power of the dominated country increases the relations do not continue in the past form and may even be severed The second type of relations is a bilateral one in which equal attention is paid to the interests of both countries Of course the benefits of two countries may not be really equal in such a relationship but relations are generally to the benefit of both sides and are usually more lasting and sustainable than the first type It should be noted that no country restricts its diplomacy to establishment of relations with neighboring countries alone In addition to neighbors it will also establish relations with other countries which sway influence in international arena Foreign policy of every country revolves around two main pivots The first pivot is having good relations with the neighboring countries with the second one being establishment of cordial ties with powerful and influential international players or those which can help the country meet its national interests Focus on one of these groups will never obviate the need for a country s foreign policy to pay due attention to the other group Iran has shared more common grounds with the Middle Eastern and Persian Gulf countries and therefore relations with those countries have been important to Iran and a matter of high attention Here we will focus on Iran s foreign policy approaches toward its northern neighbors Iran s relations with its northern neighbors including Turkmenistan Azerbaijan and Armenia have been of the second type This means that Iran s relations with these countries have been two way In this type of relationship common interests should be defined first before relations can be formed around them so that both countries will be benefited by these relations and

mutual benefit will help relations to be sustained This is a general picture of diplomatic relations between Iran and these countries Central Asian Republics emerged as self governing sovereign countries in December 1991 as a consequence of Soviet dissolution Central Asia lies at the heart of Eurasian continent and utterly land locked and geographically encircled by Russia in the north the Eastern Europe in the west Turkey Iran Afghanistan in the south and China in the east Any power which has a foothold or deep influence in Central Asia can have close watch to the important neighboring areas Therefore the region bears great geo strategic importance Its geo economic importance is mainly because of the presence of vast oil and natural gas resources Iran perceives the Central Asian region as an arena for reducing its own isolation Hoping to make itself an attractive partner to these states Iran has been cautious in supporting radical Islamic opposition movements in the region Several Central Asian States CAS are proceeding with or contemplating energy projects that transit Iran Prior to the disintegration of Soviet Union the Caspian Sea was under the combined ownership of Soviet Union and Iran but the emergence of three new states Azerbaijan Turkmenistan and Kazakhstan bordering the Caspian Sea has made the situation complex The exclusive rights of Russia and Iran have come to be challenged The largest oil and gas reserves are situated within the territory of these three former Soviet Republics Iran and Turkmenistan enjoy a common cosmology and mythology through the concept of Turan o Iran a traditional mode of spatial sub division Actually Turan is a Persian term to designate north eastern Iran The Iranian and Turkmen people share a great deal of traditions like the Navruz Availability of ethnic minorities on both of the border is one of the factors facilitating close contacts between Turkmenistan and Iran Iran has gained invaluable geopolitical advantages that may lead it to increase in its power as major player in the Turkmenistan region in the near future Iran shares a common border with Turkmenistan The Caspian dimension is also an important factor of the relations between Iran and Turkmenistan They have a lengthy border they share historic religious and civilization commonalty stretching back for centuries Advancing relations with Turkmenistan Iran is being quite pragmatic It is after strengthening of its positions in the region and benefiting from availability of hydrocarbons in the neighboring countries and from its convenient geopolitical site at the crossroads of transit ways Turkmen population of the northern provinces of Iran is a factor that facilitates neighborly relations Geographically Iran and Turkmenistan play a vital role in linking Caspian Sea to the Persian Gulf It is the only country which has access to Persian Gulf and Arabian Sea ports since the mid 1990s Turkmenistan is also aware about Iran which has a very sensitive political relationship with the West more particularly with the United States which has alleged that Iran provides extensive support to terrorist groups There is also a dispute about its nuclear program which allegedly violates the terms of Non Proliferation Treaty Despite several difficulties and hurdles Turkmenistan also sees the Iranian policy in relation to this region has proved durable In the first place Iranian policy has vastly improved its relations with Russia despite the potential contradictions in the Iranian and Russian policy towards Central Asia and the Caspian region Both countries have evolved a strategic partnership with significant military and nuclear

components Secondly they share increasing aspiration to influence the development of oil and gas resources in the Caspian Sea Iran has signed agreements with Turkmenistan Russia Ukraine and China and trying to develop relations with Iran in this respect However due to the limited capacity of gas pipelines and the lack of any alternative export routes for natural gas Turkmenistan requires to develop socio economic and political relations with Iran Iran sees Turkmenistan as transit route to rest of the Central Asian region The construction of a 200 kilometer pipeline between the Turkmenistan town of Korpedzhe and Kord Kuy in Iran assured the export of 8 billion cubic meters of gas each year into Iran s network With Iranian financing this pipeline is expected to become part of a larger system for exporting Turkmen gas to Turkey The steady improvement of Turkmenistan s relations with Iran in the sphere of gas transport was symbolized by the joint decision in the summer of 2006 to increase Turkmenistan s annual export to the Iranian grid to 14 billion cubic meters As we know that Turkmen population of the northern provinces of Iran is also an important factor that facilitates neighborly socio economic and political relations between Turkmenistan and Iran The attraction both countries experience towards each other stems from the lack of choice which is a distinct feature of the Iranian and Turkmen relations Both countries are having active bilateral contacts because they have a lengthy border they share historic religious and civilizational commonalty stretching back to centuries Iran and Turkmenistan have interest to develop their relations for three reasons firstly to build ties with the neighbouring states for social economic and political reasons in order to leave the area free for its rivals Secondly to break its isolation from the Gulf and the Near Eastern areas and thirdly to become active in their region by launching its foreign policy and by reinvigorating its regional diplomacy To achieve these objectives Turkmenistan and Iran have been intensely active in their bilateral relations

Turkey's Relations with the West and the Turkic Republics Idris Bal,2017-11-22 This title was first published in 2000 An analysis of the relations between Turkey the West and the newly independent Turkic Republics in the context of the Turkish Model proposed and supported by the West as a possible model for development in the Turkic Republics It summarizes the Turkish Model of development as applied in Turkey including its shortcomings and discusses the role of Turkey in the area after the collapse of the Soviet Union from the point of view of both the West and Turkey itself It also analyzes the possible reasons why the Turkish Model was proposed and how the Turkic Republics received it and why it declined from favour in a short period of time

Why Do Uzbeks Have to be Muslims? work Hilgers deploys her rich ethnographic materials to shed fresh light on major debates concerning secularization and the nature of Soviet and post Soviet modernity
