Retailing Today An Introduction:

Retailing Today Don L. James, Bruce J. Walker, Michael J. Etzel, 1981 *Introduction to Retailing*, 2005 This book identifies the key elements and components in starting a retail business. It is a known fact that there are a number of aspects that require attention in order to enhance the chances of success of the business. These issues deemed to be essential in the running of a retail business include the following: focusing on the customer, being in the right merchandise, selecting suppliers, stock control, pricing for profit, management of price changes, promoting sales, blending store activities for success. The book places the relevance and importance of these issues in perspective and in a practical way illustrates the application of the theory. Activities are used to explain certain concepts and a number of South African examples can be found in the book to illustrate certain principles. *Introduction to Retailing* is an easy to read book and offers students and business people alike a hands on approach to fundamental retail issues.

Retailing Denise T. Ogden, James R. Ogden, Robert Paul Jones, 2017-08-02 Light on the fluff solid on the basics the fourth edition of *Retailing* is a concise text that covers strategic issues with an eye on financial considerations and operations management issues illustrated through retail cases and exercises New co author Robert Paul Jones is Department Chair of Hospitality and Retail Management in the College of Human Sciences at Texas Tech In addition to his extensive academic work Dr Jones has over 25 years of executive leadership and consulting experience in retail and hospitality He uses an Integrated Retail Management flow chart to depict retail functions Most retail texts present students with a series of chapters that provide useful information but fail to explain how the various activities involved in retailing affect each other The 4th edition offers the student an overview of the retail process through the use of an integrated retail management IRM plan The steps involved in retailing as presented in the text are tied together through the IRM plan Expanded coverage of Mobile and e Tailing and included throughout the text and not treated as a stand alone chapter This helps emphasize that e tailing is a form of retailing that uses many of the same models as other forms Includes updated cases and real world examples And omni channel retailing incorporated throughout text **Lean Retail. Can lean production help retailers**

to address global challenges? Simon G Fauser, 2012-02-27 Saturated markets a decreasing valuation of fashion by a part of consumers paired with missing impulses by some companies has brought along a crisis in retail especially in Europe Changing consumer demand customer sophistication customer empowerment via the internet and rapid industry change are just a few challenges global retailers are facing today The consequence is big pressure on prices and margins and a need for process excellence As in the 1990s the American and European automotive industry struggled with similar challenges a concept named lean production was imported from Japan It helped some Western automotive companies like Porsche and big parts of industry to find their way back on the path of success Is the route to success via lean production exclusive to industry Or might retailers today benefit from lean production philosophy In this book Simon Fauser approaches these questions by analysing lean production philosophy extracting lean principles and applying these to retail and its challenges
