and culture *Critical Social Work* June Allan, Linda Briskman, 2020-07-16 Another important contribution to the growing literature on critical social work. It is on the cutting edge of thinking about social work and its goal of social change. Kate van Heugten, Social Work Review. *Critical Social Work* starts from the premise that a central goal of social work practice is social change to redress social inequality. Taking a critical theoretical approach, the authors explore the links between personal and social change. They confront the challenges for critical social work in the context of pressures to separate the personal from the political and in responding to the impact of changes in the socio-political, statutory and global contexts of practice. *Critical Social Work* has been thoroughly revised to take into account recent social, economic and political developments. Coverage of theoretical frameworks has been substantially expanded and reflects current concerns such as evidence-based practice and human rights. The causes of people's marginalisation and oppression are examined in relation to class, race, ethnicity, gender and other forms of social inequality. Case study chapters in the earlier edition on working with immigrants, Indigenous people, women, men, families, people with psychiatric disabilities and those experiencing loss and grief have been updated and revised. The second edition includes new case study chapters on disability, older people, children, rurality and violence and abuse. *Critical Social Work* is an essential resource to inform progressive social work practice.
