*Rethinking Marx* Sakari Hänninen, Leena Paldán, 1984      **Dissident Marxism** David Renton, 2008-02-29 We are witnessing the birth of a new politics anti capitalist libertarian and anti war But where do today s dissidents come from Dissident Marxism argues that their roots can be found in the life and work of an earlier generation of socialist revolutionaries including such inspiring figures as the Soviet poet Mayakovsky the Marxist philosopher Karl Korsch Communist historians Edward Thompson and Dona Torr the Egyptian surrealist Georges Henein American New Left economists Paul Baran and Paul Sweezy advocates of Third World liberation including Walter Rodney and Samir Amin Harry Braverman the author of *Labor and Monopoly Capital* and David Widgery the journalist of the May 68 revolts What these writers shared was a commitment to the values of socialism from below the idea that change must be driven by the mass movements of the oppressed In a world dominated by slump fascism and war they retained a commitment to total democracy Dissident Marxism describes the left in history Some readers will enjoy it as a history of revolutionary socialism in the years between Stalin s rise and the fall of the Berlin Wall Others will find here a challenging thesis that the most enduring of left wing traditions and highly relevant to the times we live in today were located in a space between the New Left and Trotskyism Dissident Marxism explores the lives and thinking of some of the most creative and striking members of the twentieth century left and asks if the new anti capitalist movement might provide an opportunity for just such another left wing generation to emerge      **Resisting Citizenship** Martha A. Ackelsberg, 2013-01-11 Political participation in America supposedly the world s strongest democracy is startlingly low and many of the civil rights and economic equity initiatives that were instituted in the 1960s and 70s have been abandoned as significant proportions of the populace seem to believe that the civil rights battle has been won However rates of collective engagement like community activism are surprisingly high In *Resisting Citizenship* renowned feminist political scientist Martha Ackelsberg argues that community activism may hold important clues to reviving democracy in this time of growing bureaucratization and inequality This book brings together many of Ackelsberg s writings over the past 25 years combining her own field work and interviews with cutting edge research and theory on democracy and activism She explores these efforts in order to draw lessons and attempt to incorporate knowledge about current notions of democracy from those who engage in non traditional participation those who have in many respects been relegated to the margins of political life in the United States      *Transactions of the Westermarck Society* Westermarck Society, 1947      **Ghostly Demarcations** Michael Sprinker, 2020-05-05 With the publication of *Specters of Marx* in 1993 Jacques Derrida redeemed a longstanding pledge to confront Marx s texts directly and in detail His characteristically bravura presentation provided a provocative re reading of the classics in the Western tradition and posed a series of challenges to Marxism In a timely intervention in one of today s most vital theoretical debates the contributors to *Ghostly Demarcations* respond to the distinctive program projected by *Specters of Marx* The volume

features sympathetic meditations on the relationship between Marxism and deconstruction by Fredric Jameson Werner Hamacher Antonio Negri Warren Montag and Rastko Mcnik brief polemical reviews by Terry Eagleton and Pierre Macherey and sustained political critiques by Tom Lewis and Aijaz Ahmad The volume concludes with Derrida s reply to his critics in which he sharpens his views about the vexed relationship between Marxism and deconstruction     *Whither Marxism?* Bernd Magnus, Stephen Cullenberg, 2013-10-28 This is the companion volume to *Spectres of Marx* and tackles the central theme of the fate of Marxism after the global collapse of communism     *Decoloniality in the Break of Global Blackness* Michaeline A. Crichlow, Patricia M. Northover, 2025-05-21 This book contextualized by the violence of globalization investigates the fungible fugitive and untenable experiences of Black being and time through a decolonial poethics of global Blackness In so doing it introduces innovative readings of coloniality decoloniality by threading its meaning and movement through the problem of Blackness It argues that global Blackness is the complexly entangled other side of decoloniality as movement method and poethics for radical new worlds The essays explore this through inter transdisciplinary creative and decolonial standpoints whether from prison abolitionist demands to Afrofuturist imaginaries or by seeing through Black mirrors It emphasizes the paradoxical characteristics of global Blackness its spectral quality of being in and out of modernity s self narrative to provide a way of dwelling with global Blackness as a force that is neither properly constituted by corporeality nor thinkable in ontological terms determined by modern power The book will be of interest to academics researchers and students in the fields of social sciences cultural studies postcolonial studies as well as cultural practitioners art educators artists cultural activists and those institutions that seek to decolonize imaginaries thought practices and methods Given its diverse offerings it will also be of interest to upper level undergraduates graduate students and academics     *Marx on Gender and the Family* Heather Brown, 2012-07-25 This the first book length study devoted exclusively to Marx s perspectives on gender and the family offers a fresh look at this topic in light of twenty first century concerns     *Marxist Phoenix* Murray E.G. Smith, 2014-05-05 Looking to an increasingly perilous and inequitable future many progressive activists and scholars are seriously questioning the capacity of global capitalism to guarantee the conditions for human well being and sustainability in the 21st century This development inspires the central inquiry of *Marxist Phoenix* Will the intensifying contradictions and multiple crises of contemporary capitalism incite the emergence of a mass socialist workers movement committed not merely to the reform of capitalism but to its overthrow This collection of new and previously published essays articles and book chapters written over the last two decades makes the case for the indispensability of the Marxist socialist project to the emancipation of humanity from material insecurity and ever worsening social antagonism Only a global workers movement committed to the fundamental tenets of Marxism a triumphant Marxist Phoenix rising from the ashes of the multiple defeats of the 20th century can open the road to real social progress Interdisciplinary rigorous and critically engaged with many currents in contemporary academic discourse this volume is a timely contribution to the rebirth of a Marxist socialism that is

at once scientific emancipatory and internationalist in its commitments      Totalitarian Capitalism and Beyond Giōrgos K. Liodakēs, 2010 Anchored in contemporary debates on capitalism and political economy this study reconsiders the major trends which are shaping a new stage of capitalism It constructs a politico economic approach on contemporary capitalism from within a classical Marxist framework of political economy      Revisiting Marx's Critique of Liberalism Igor Shoikhet, 2019-12-26 Revisiting Marx's Critique of Liberalism offers a theoretical reconstruction of Karl Marx's new materialist understanding of justice legality and rights through the vantage point of his widely invoked but generally misunderstood critique of liberalism The book begins by reconstructing Marx's conception of justice and rights through close textual interpretation and extrapolation The central thesis of the book is firstly that Marx regards justice as an essential feature of any society including the emancipated society of the future and secondly that standards of justice and right undergo transformation throughout history The book then tracks the enduring legacy of Marx's critique of liberal justice by examining how leading contemporary political theorists such as John Rawls Jürgen Habermas Axel Honneth and Nancy Fraser have responded to Marx's critique of liberalism in the face of global financial capitalism and the hollowing out of democratically enacted law The Marx that emerges from this book is therefore a thoroughly modern thinker whose insights shed valuable light on some of the most pressing challenges confronting liberal democracies today      *Wars of Position? Marxism Today, Cultural Politics and the Remaking of the Left Press, 1979-90* H.F. Pimlott, 2021-12-20 Inspired by Raymond Williams cultural materialism H F Pimlott explores the connections between political practice and cultural form through Marxism Today's transformation from a Communist Party theoretical journal into a glossy left magazine Marxism Today's successes and failures during the 1980s are analysed through its political and cultural critiques of Thatcherism and the left especially by Stuart Hall and Eric Hobsbawm innovative publicity and marketplace distribution relationships with the national UK press cultural coverage design and format and writing style Wars of Position offers insights for contemporary media activists and challenges the neglect of the left press by media scholars      **Critical Education Against Global Capitalism** Paula Allman, 2019-04-09 In today's vernacular Marx outed capitalism well over a century ago however his explanation has been both ignored and misinterpreted by not only his detractors but also by many socialists and even a considerable number of Marxists as well Today we are experiencing the full impact and suffering the repercussions of capitalism's inherent need to grow and become more than ever before a fully internationalized and integrated system of socioeconomic control and domination the global system that many commentators have suddenly remembered Marx and Engels 1848 presciently forecasted in the Communist Manifesto When the Berlin Wall fell in 1989 the victory of capitalism and liberal democracy was triumphantly proclaimed The Cold War was over and we were promised a lasting peace As we entered the third millennium the promise of peace was brutally dashed and humanity now appears to have entered a state of permanent war We have just witnessed the near total collapse of the global financial system and are continuing to experience

as we will for years to come the collateral damage this crisis has caused Problems we were facing before the current crisis will be exacerbated escalating social and economic divisions jobless growth injustice and oppression together with an environment in varying stages of degradation Daily on television news we are bombarded by the schizoid media images of capitalism s extremes the ravaged faces and wasted bodies of some of the thousands suffering famine or the millions living in the world s slums followed within a blink of the eye by the gleaming yet vacuous smile and sumptuously adorned figure of some extravagant wealthy individual who is one of the select members of the global upper class Are we becoming conditioned to accept such contrasts and regard them as normal and inevitable at a time when we have the potential to eliminate scarcity and eradicate human deprivation The author argues that revolutionary critical education is needed to inform and form a social movement capable of challenging and then transforming capitalism She also offers an accessible account of Marx s dialectical critique and expos of capitalism clearly demonstrating the real enemy that should be the focus of anti capitalist and anti globalization struggles This is an account that explains why our focus should not be on greedy individual capitalists Wall Street financial institutions particular multinational corporations national governments or even their handmaiden institutions such as the World Bank IMF WTO etc but instead the global network of capitalist socioeconomic relations and consequent habituated human practices in which we are all involved These together with the historically specific form of capitalist wealth are the real enemy the essence of capitalism that must be abolished in order for humanity to have any hope of social and economic justice in the future

**Totalitarian Capitalism and Beyond** George Liodakis, 2016-02-24 Anchored in contemporary debates on capitalism and political economy this study reconsiders the major trends which are currently shaping a new stage of capitalism With chapters examining globalization the role of technology and environmental degradation George Liodakis constructs a politico economic approach on contemporary capitalism from within a classical Marxist framework of political economy The volume provides a fitting balance between theory and empirical evidence and significantly enriches the existing scholarship on contemporary capitalism and the potential for social change This is an important contribution to those interested in international political economy in particular with developing a new political strategy for going beyond capitalism a reinvention of a communist perspective

*Global Economy, Global Justice* George DeMartino, 2002-09-11 This text presents a devastating critique of the currently fashionable idea of globalisation Using comprehensive and non technical language this book looks at the world s cultural and value diversity and questions whether it is possible to impose a global policy given these differences Topics covered include theories of distribution and welfare what leads to a good economic outcome Egalitarian theories of welfarism global neoliberalism and the free market culture

**The Origin of Capitalism** Ellen Meiksins Wood,2017-05-02 An expanded edition of the classic study on the history of capitalism a must read for students of political theory and anyone interested in economic thought Choice How did the dynamic economic system we know as capitalism develop among the peasants and lords of feudal Europe In The Origin of Capitalism a now classic work of history Ellen Meiksins Wood offers readers a clear and accessible introduction to the theories and debates concerning the birth of capitalism imperialism and the modern nation state Capitalism is not a natural and inevitable consequence of human nature nor simply an extension of age old practices of trade and commerce Rather it is

a late and localized product of very specific historical conditions which required great transformations in social relations and in the relationship between humans and nature This new edition is substantially revised and expanded with extensive new material on imperialism anti Eurocentric history capitalism and the nation state and the differences between capitalism and non capitalist commerce The author traces links between the origin of capitalism and contemporary conditions such as globalization ecological degradation and the current agricultural crisis     The Revolutionary Ideas of Karl Marx Alex Callinicos, 2011 Few thinkers have been declared irrelevant and out of date with such frequency as Karl Marx Hardly a decade since his death has gone by in which establishment critics have not announced the death of his theory Whole forests have been felled to produce the paper necessary to fuel this effort to marginalize the coauthor of The Communist Manifesto And yet despite their best efforts to bury him again and again Marx s specter continues to haunt his detractors more than a century after his passing As another international economic collapse pushes ever growing numbers out of work and a renewed wave of popular revolt sweeps across the globe a new generation is learning to ignore all the taboos and scorn piled upon Marx s ideas and rediscovering that the problems he addressed in his time are remarkably similar to those of our own In this engaging and accessible introduction Alex Callinicos demonstrates that Marx s ideas hold an enduring relevance for today s activists fighting against poverty inequality oppression environmental destruction and the numerous other injustices of the capitalist system
