Rethinking Power:

Rethinking Power Thomas E. Wartenberg, 1992-01-01 A collection of 14 essays seven previously published analyzing the nature of power in society and personal lives The different perspectives and divergent conclusions share assumptions that power is important that previous analyses are inadequate and that the only reason to talk about it is in order to improve people's lives No index Paper edition unseen 16 95 Annotation c by Book News Inc Portland Or **Demeaned But**

Empowered Obika Gray, 2004 Gray's central thesis asserts that the Jamaican state is a form of predatory state that incorporates contradictory social forces into an arrangement that is hierarchical often brutal and ultimately debilitating to democracy He introduces a series of constructs to support this argument but the more interesting and novel theses are to be found in his vivid description of the social forces that resist the predatory state and how they have carved out a modicum of autonomy based on what he describes as an elaborate value system of badness honour **The Power of Feminist Theory**

Amy Allen, 2025-06-17 In this new second edition of *The Power of Feminist Theory Domination Resistance Solidarity* Amy Allen diagnoses the inadequacies of previous feminist conceptions of power and draws on the work of a diverse group of theorists of power including Michel Foucault Judith Butler bell hooks and Hannah Arendt in order to construct a new feminist conception of power The conception of power developed in this book enables readers to theorize domination resistance and solidarity and perhaps more importantly to do so in a way that illuminates the interrelatedness of these three modalities of power The new edition of this foundational text includes substantial new material on intersectionality and power transnational feminism and power in relation to homonationalism and neo imperialism and empowerment feminism It addresses important criticisms of Foucault Arendt and Butler that have been raised by Black feminists critical philosophers of race postcolonial theorists and Marxists *The Power of Feminist Theory Domination Resistance Solidarity* is an essential text for students engaging with feminist analyses of power feminist theory and feminist political thought **Power** Raymond

Angelo Belliotti, 2016-03-14 Frequently understood in simplistic and often highly negative terms the concept of power has proven to be both uncommonly intriguing and maddeningly elusive In *Power* Raymond Angelo Belliotti begins by fashioning a general definition of power that is refined enough to capture the numerous types of power in all their multifaceted complexity He then proceeds in a series of discrete yet thematically connected meditations to explore the meaning of power in ancient modern and contemporary thought In grappling with the critical questions surrounding the accumulation distribution and exercise of personal and social power this work allows us to confront fundamental questions of who we are and how we might live better lives **Power and Parenting** K. Bonner, 1998-09-14 The power to act is two sided in that it refers to the parent's ability to initiate having children or responding to their actions and to the ability to suffer consequences irreversibility and unpredictability The book argues that the best way of responding to these essential limits is for the parent to develop the interrelation between wisdom ethicality and self mastery that is practical wisdom **Power in**

Peter Triantafyllou, 2017-05-15 This book examines the links between major contemporary public sector reforms and neoliberal thinking The key contribution of the book is to enhance our understanding of contemporary neoliberalism as it plays out in the public administration and to provide a critical analysis of generally overlooked aspects of administrative power The book examines the quest for accountability credibility and evidence in the public sector It asks whether this quest may be understood in terms of neoliberal thinking and if so how The book makes the argument that while current administrative reforms are informed by several distinct political rationalities they evolve above all around a particular form of neoliberalism constructivist neoliberalism The book analyses the dangers of the kinds of administrative power seeking to invoke the self steering capacities of society and administration itself

Soft Power and Heritage Rodrigo Christofolletti, 2023-11-15 This book encourages a critical dialogue between interdisciplinary fields that border heritage boundaries and seeks to contribute a wide range of scholarly perspectives and case studies both national and international The widespread use of the concept of soft power is sometimes grossly misused as a synonym for anything other than military force While the concept is one of the most popular and influential in progressive foreign policy circles and is noted for being the ability of a country to convince others that its cause is the best without having to resort to economic or military threats the your ability to accurately describe the world we live in needs repair lenses The power of example the power of attraction through culture or in other words the ability of a country to attract others because of its culture and political values in its foreign policy that is soft power is something that emerges in partly because of government and partly in spite of governments To have soft power you need to be connected and the interaction

management and dissemination of assets can be seen as exercises in soft power action This book seeks to detail in examples how the concept of soft power encompasses and problematizes the multiplicity of themes on the contemporary international agenda focusing on one of its least discussed elements the universe of international cultural heritage and the relationship between actors and society preservationist actions in the globalized world While cultural heritage embodies different values and can serve different economic social and political objectives in development contexts the past becomes a cultural currency when it becomes essential to the human experience *Power, luck and freedom* Keith Dowding, 2016-10-28 This book

presents thirteen essays from a leading contemporary political scientist with a substantial introduction bringing together the themes The topics covered include political and social power freedom choice rights responsibility the author's unique account of luck and systematic luck and the nature of leadership There are also discussions of conceptual analysis the structure agency debate luck egalitarianism Sen's liberal paradox problems in the measurement of freedom and choice and the differences between instrumental and intrinsic accounts of the value of freedom and related concepts The wide ranging material will provide an excellent text for students at all levels It is appropriate reading for a host of courses in the fields of political science political sociology and political theory at both undergraduate and graduate level Whilst addressing some philosophically difficult and advanced subjects the accessible writing makes the subject matter comprehensible for all levels of students **Shadows of Power** Jean Hillier, 2003-09-02

Shadows of Power examines public policy and in particular the communicative processes of policy and decision making It explores the important who how and why issues of policy decisions Who really takes the decisions How are they arrived at and why were such processes used What relations of power may be revealed between the various participants Using stories from planning practices this book shows that local planning decisions particularly those which involve consideration of issues of public space cannot be understood separately from the socially constructed subjective territorial identities meanings and values of the local people and the planners concerned Nor can it be fully represented as a linear planning process concentrating on traditional planning policy making and decision making ideas of survey analysis plan or officer recommendation council decision implementation Such notions assume that policy and decision making proceed in a relatively technocratic and value neutral unidirectional step wise process towards a finite end point In this book Jean Hillier explores ways in which different values and mind sets may affect planning outcomes and relate to systemic power structures By unpacking these and bring them together as influences on participants communication she reveals influences at work in decision making processes that were previously invisible If planning theory is to be of real use to practitioners it needs to address practice as it is actually encountered in the worlds of planning officers and elected representatives Hillier sheds light on the shadows so that practitioners may be better able to understand the circumstances in which they find themselves and act more effectively in what is in reality a messy highly politicised decision making process **Power, Postcolonialism and International Relations** Chowdhry Geeta, Sheila Nair, 2013-10-15

Boricua Power José Ramón Sánchez, 2007-03-01 Where does power come from Why does it sometimes disappear How do groups like the Puerto Rican community become impoverished lose social influence and become marginal to the rest of society How do they turn things around increase their wealth and become better able to successfully influence and defend themselves *Boricua Power* explains the creation and loss of power as a product of human efforts to enter keep or end relationships with others in an attempt to satisfy passions and interests using a theoretical and historical case study of one community Puerto Ricans in the United States Using archival historical and empirical data *Boricua Power* demonstrates that power rose and fell for this community with fluctuations in the passions and interests that defined the relationship between Puerto Ricans and the larger U S society
