Sokolik, 1999 RETHINKING AMERICA is a three level reading series that gets students to work with thought provoking and illuminating issues drawn from authentic cultural readings and CNN Videos based on everyday American life *The British National Bibliography* Arthur James Wells, 2009 **Subject Guide to Books in Print** ,1996 **The New Latino Studies Reader** Ramon A. Gutierrez, 2016-08-23 The New Latino Studies Reader is designed as a contemporary updated multifaceted collection of writings that bring to force the exciting necessary scholarship of the last decades Its aim is to introduce a new generation of students to a wide ranging set of essays that helps them gain a truer understanding of what it s like to be a Latino in the United States With the reader students explore the sociohistorical formation of Latinos as a distinct panethnic group in the United States delving into issues of class formation social stratification racial gender and sexual identities and politics and cultural production And while other readers now in print may discuss Mexican Americans Puerto Ricans Cubans and Central Americans as distinct groups with unique experiences this text explores both the commonalities and the differences that structure the experiences of Latino Americans Timely thorough and thought provoking The New Latino Studies Reader provides a genuine view of the Latino experience as a whole **American Book Publishing Record** ,1998 *Intermediate Elites in Pre-Columbian States and Empires* Christina M. Elson, R. Alan Covey, 2022-06-21 From the Mesoamerican highlands to the Colca Valley in Peru pre Columbian civilizations were bastions of power that have largely been viewed through the lens of rulership or occasionally through bottom up perspectives of resistance Rather than focusing on rulers or peasants this book examines how intermediate elites both men and women helped to develop sustain and resist state policies and institutions Employing new archaeological and ethnohistorical data its contributors trace a 2 000 year trajectory of elite social evolution in the Zapotec Wari Aztec Inka and Maya civilizations This is the first volume to consider how individuals subordinate to imperial rulers helped to shape specific forms of state and imperial organization Taking a broader scope than previous studies it is one of the few works to systematically address these issues in both Mesoamerica and the Central Andes It considers how these individuals influenced the long term development of the largest civilizations of the ancient Americas opening a new window on the role of intermediate elites in the rise and fall of ancient states and empires worldwide The authors demonstrate how such evidence as settlement patterns architecture decorative items and

burial patterns reflect the roles of intermediate elites in their respective societies arguing that they were influential actors whose interests were highly significant in shaping the specific forms of state and imperial organization Their emphasis on provincial elites particularly shifts examination of early states away from royal capitals and imperial courts explaining how local elites and royal bureaucrats had significant impact on the development and organization of premodern states Together these papers demonstrate that intricate networks of intermediate elites bound these ancient societies together and that competition between individuals and groups contributed to their decline and eventual collapse By addressing current theoretical concerns with agency resistance to state domination and the co option of local leadership by imperial administrators it offers valuable new insight into the utility of studying intermediate elites

A novel interdisciplinary exploration of the relative contributions of rigidity and flexibility in the adoption maintenance and evolution of technical traditions Techniques can either be used in rigid stereotypical ways or in flexibly adaptive ways or in some combination of the two The Evolution of Techniques edited by Mathieu Charbonneau addresses the impacts of both flexibility and rigidity on how techniques are used transformed and reconstructed at varying social and temporal scales The multidisciplinary contributors demonstrate the important role of the varied learning contexts and social configurations involved in the transmission use and evolution of techniques They explore the diversity of cognitive behavioral sociocultural and ecological mechanisms that promote and constrain technical flexibility and rigidity proposing a deeper picture of the enablers of and obstacles to technical transmission and change In line with the extended evolutionary synthesis the book proposes a more inclusive and materially grounded conception of technical evolution in terms of promiscuous dynamic and multidirectional causal processes Offering new evidence and novel theoretical perspectives the contributors deploy a diversity of methods including ethnographies field and laboratory experiments cladistics and phylogenetic tree building historiography and philosophical analysis Examples of the wide range of topics covered include field experiments with potters from five cultures stability and change in Paleolithic toolmaking why children lack flexibility when making tools and cultural techniques in nonhuman animals The volume s three thematic sections are Timescales of technical rigidity and flexibility Rigid copying to flexible reconstruction Exogenous factors of technical rigidity and flexibility The volume closes with a discussion by philosopher Kim Sterelny Contributors Rita Astuti Adam Howell Boyette Blandine Bril Josep Call Mathieu Charbonneau Arianna Curioni Nicola Cutting Bert De Munck Gy rgy Gergely Anne Lise Goujon Ildik Kir ly Catherine Lara S bastien Manem Luke McEllin Helena Miton Giulio Ongaro Sarah Pope Caldwell Valentine Roux Manon Schweinfurth Dan Sperber Kim Sterelny Dietrich Stout James W A Strachan Sadie Tenpas **Cold War Ruins** Lisa Yoneyama,2016-09-15 In Cold War Ruins Lisa Yoneyama argues that the efforts intensifying since the 1990s to bring justice to the victims of Japanese military and colonial violence have generated what she calls a transborder redress culture A product of failed post World War II transitional justice that left many colonial legacies intact this culture both contests and reiterates the complex transwar and transpacific entanglements that have sustained the Cold War unredressability and illegibility of certain violences By linking justice to the effects of American geopolitical hegemony and by deploying a conjunctive cultural critique of comfort women redress efforts state sponsored apologies and amnesties Asian American involvement in redress cases the ongoing effects of the U S occupation of Japan and Okinawa Japanese atrocities in China and battles over WWII memories

Yoneyama helps illuminate how redress culture across Asia and the Pacific has the potential to bring powerful new and challenging perspectives on American exceptionalism militarized security justice sovereignty forgiveness and decolonization

Latinx Revolutionary Horizons Renee Hudson, 2024-05-07 A necessary reconceptualization of Latinx identity literature and politics In *Latinx Revolutionary Horizons* Renee Hudson theorizes a liberatory latinidad that is not yet here and conceptualizes a hemispheric project in which contemporary Latinx authors return to earlier moments of revolution Rather than viewing Latinx as solely a category of identification she argues for an expansive historicized sense of the term that illuminates its political potential Claiming the x in Latinx as marking the suspension and tension between how Latin American descended people identify and the future politics the x points us toward Hudson contends that latinidad can signal a politics grounded in shared struggles and histories rather than merely a mode of identification In this way *Latinx Revolutionary Horizons* reads against current calls for cancelling latinidad based on its presumed anti Black and anti Indigenous framework Instead she examines the not yet here of latinidad to investigate the connection between the revolutionary history of the Americas and the creation of new genres in the hemisphere from conversion narratives and dictator novels to neoslave narratives and testimonios By comparing colonialisms she charts a revolutionary genealogy across a range of movements such as the Mexican Revolution the Filipino People Power Revolution resistance to Trujillo in the Dominican Republic and the Cuban Revolution In pairing nineteenth century authors alongside contemporary Latinx ones Hudson examines a longer genealogy of Latinx resistance while expanding its literary canon from the works of Jos Rizal and Martin Delany to those of Julia Alvarez Jessica Hagedorn and Leslie Marmon Silko In imagining a truly transnational latinidad *Latinx Revolutionary Horizons* thus rewrites our understanding of the nationalist formations that continue to characterize Latinx Studies
