

Rethinking Borders Beyond the State¹

William Walters

Department of Political Science, Carleton University, Ottawa, Ontario, Canada K1S 5B6.
E-mail: wwalters@ocs.carleton.ca

This paper explores three ways of imagining borders in Europe. The first is the most common. It sees borders in relation to an emergent European region-state or polity. The second looks beyond conventional political figures and uses the gated community to think about the complex political affects and social identities that invest the border. The third also breaks with standard political images, but this time by drawing upon the realm of information technology. Here I thematize the firewall — a non-geographical, non-territorial figure, and non-linear form of border. My second and third images are closer to Foucault's idea of a diagram. The point of the exercise is not to establish which is the most accurate. If borders are multiplicities then we need a plurality of concepts to think their different dimensions and changing functions.

Comparative European Politics (2006) 4, 141–159. doi:10.1057/palgrave.cep.6110076

Keywords: borders; frontiers; power; European Union; political imagination; spatiality

If the fortified town is an immobile machine, the military engineer's specific task is to fight against its inertia. 'The goal of fortification is not to stop armies, to contain them, *but to dominate, even facilitate their movements*'.²

On the Borders of Europe

For a long while the study of state borders and border regions was quite marginal to the discipline of political science. Largely confined to specialist sub-disciplines like political geography (Prescott, 1965) and the realm of diplomatic know-how (Curzon, 1908), when questions of borders did arise within political science it was typically in relation to nationalist projects of territorial acquisition and interstate conflict.

This is clearly no longer the case. If political science has begun to confront what Agnew has called the 'territorial trap' (Agnew, 1994) — the set of geographical assumptions that have combined to obscure the historicity and mutability of political space and territory within international relations and comparative politics — then one consequence has been to move the border from the periphery of the study of politics and international relations and to accord it a more prominent location within research agendas (Ruggie, 1993;

Rethinking Constitutionalism Beyond The State

Michel Rosenfeld, András Sajó

Rethinking Constitutionalism Beyond The State:

European Constitutionalism Beyond the State J. H. H. Weiler, Marlene Wind, 2003-09-04 Some of the most innovative scholars in the field of European constitutionalism come together in this book to highlight different facets of the new constitutional discussion Provoking deep analysis of the different ideas of constitution and constitutionalism it delineates new ways of thinking about the future of Europe In particular it aims to challenge the idea of the European Union as an evolving federal polity This book will appeal to anyone interested in the timely subject of constitutionalism including student and practitioners of law politics and philosophy *European Constitutional Imaginaries* Jan Komárek, 2023 What does it mean to say that the European Union has a constitution theoretically but more importantly practically What sort of possibilities such assertion opens for various actors politicians legal professionals or the general public And what is the role of constitutional thinkers in establishing constitutional discourse as the dominant way in which European law is or was conceived after 1989 This volume seeks to answer such questions with a special emphasis on the last one European Constitutional Imaginaries are the central focus of the book These are sets of ideas and beliefs that help to motivate and at the same time justify the practice of government and collective self rule established by the constitution written or unwritten Such imaginaries are as important as institutions and office holders They provide political action with an overarching sense and purpose recognized by those governed as legitimate The book brings together reflections by lawyers philosophers sociologists or political economists who shed light on various constitutional imaginaries of Europe They provide critical intellectual histories of particular legal approaches to European integration and look behind the language of law to reach deeper insights into the contested history and political economy of Europe They ask us to think about European law differently **Law Beyond the State** Carmen E. Pavel, 2021-03-30 The twenty first century has revealed a deep seated ambivalence toward the value and benefits of international law This ambivalence is the result of states two conflicting impulses on the one hand the recognition that their own interests and autonomy are better protected by entering agreements which set limits on how other states behave on the other hand the resolve to jealously guard their sovereign capacity to act unencumbered by constraints The book argues that we should support international law as a system of rules and institutions which make a critical irreplaceable and defining contribution to an international order characterized by peace and justice Law Beyond the State Rainer Hofmann, Stefan Kadelbach, 2016-11-10 Dieser Band versammelt Aufsätze renommierter Völker und Europarechtler über Vergangenheit und Zukunft des internationalen Rechts die aus Anlass des 100 jährigen Gründungsjubiläums der Frankfurter Universität entstanden sind Es geht um die Geschichte von Völker und Europarecht die zentrale Bedeutung der spirituellen Dimension der europäischen Rechtsordnung und um das Internet als Chance alle von globaler Rechtsetzung betroffenen Personen am Entscheidungsprozess zu beteiligen Mit Beiträgen von Michael Bothe Stefan Kadelbach Martti Koskeniemi Joseph H H Weiler und Ingolf Pernice **Constituent Power Beyond the State** Geneviève

Nootens,2021-12-30 The concept of constituent power plays a major part in modern political and legal theory in how we think about the political This book tackles the twofold issue of public authority and public autonomy in the modern conception of the political by analysing the notion of constituent power its function in the modern political apparatus and debates about its meaning and function in our own context Focusing on contemporary debates on constitutionalism beyond the state Genevi ve Nootens assesses the prospects for recasting the notion of constituent power in a polycentric setting that challenges state sovereignty as embodying the autonomy of the political She argues that constituent power belongs with the conceptual apparatus of a theory of government peculiar to a statist way of knowing and being into the world and that it is too much dependent upon the statist framework for it to have critical purchase on the new mappings of public authority Nootens stresses the critical need to frame public authority appropriately if we are to conceptualize a conception of collective political agency that can sustain public autonomy in the current era Constituent Power Beyond the State will be of interest to students and scholars of political theory democratic theory law and constitutionalism

Global Technology and Legal Theory

Guilherme Cintra Guimarães,2019-06-05 The rise and spread of the Internet has accelerated the global flows of money technology and information that are increasingly perceived as a challenge to the traditional regulatory powers of nation states and the effectiveness of their constitutions The acceleration of these flows poses new legal and political problems to their regulation and control as shown by recent conflicts between Google and the European Union EU This book investigates the transnational constitutional dimension of recent conflicts between Google and the EU in the areas of competition taxation and human rights More than a simple case study it explores how the new conflicts originating from the worldwide expansion of the Internet economy are being dealt with by the institutional mechanisms available at the European level The analysis of these conflicts exposes the tensions and contradictions between on the one hand legal and political systems that are limited by territory and on the other hand the inherently global functioning of the Internet The EU s promising initiatives to extend the protection of privacy in cyberspace set the stage for a broader dialogue on constitutional problems related to the enforcement of fundamental rights and the legitimate exercise of power that are common to different legal orders of world society Nevertheless the different ways of dealing with the competition and fiscal aspects of the conflicts with Google also indicate the same limits that are generally attributed to the very project of European integration showing that the constitutionalization of the economy tends to outpace the constitutionalization of politics Providing a detailed account of the unfolding of these conflicts and their wider consequences to the future of the Internet this book will appeal to scholars working in EU law international law and constitutional law as well as those in the fields of political science and sociology

Reconsidering EU Citizenship Sandra Seubert,Oliver Eberl,Frans van Waarden,2018-04-27 25 years after the introduction of EU citizenship this book reconsiders its contradictions and constraints as well as promises and prospects Analyzing a disputed concept and evaluating its implementation and social effects Reconsidering EU Citizenship contributes

to the lively debate on European and transnational citizenship It offers new insights for the ongoing theoretical debates on the future of EU citizenship a future that will be determined by the transformative path the EU is going to take vis vis the centrifugal forces of the current economic and political crisis *Postnational Constitutionalism* Paul

Linden-Retek,2023-03-29 At a time when the integration of the European Union s peoples through the rule of law is faltering this book develops a critical theory of postnational constitutionalism Today widely held conceptions of EU law continue to mislead citizens about the nature of political identity sovereignty and agency They lose sight of a critical idea on which post nationalism depends that constitutional self authorship is narrative and the polity is a subject whose identity history and legacy are still in formation Absent this vision EU law reproduces crises of legitimacy the depoliticization of public life emergency rule by executive decree a collapse of solidarity and the rise of nativist movements The book diagnoses this impasse as the product of a problem familiar to modernity reification a process in which social and historical relationships are misattributed as timeless relations among things Reification s shrinking of social dilemmas moral principles and political action to narrow perceptions of the present explains law s role in perpetuating crisis But this diagnosis also points to a remedy It suggests that to sustain the emancipatory potential of EU constitutionalism we must recover law s relationship to time *Postnational Constitutionalism Europe and the Time of Law* proposes a temporally attuned constitutional theory with principles of anti reification narrative interpretation and non sovereign agency at its centre These principles reimagine essential domains of constitutional order social integration constitutional adjudication and constituent power Spanning various bodies of EU jurisprudence the book devotes particular attention to migration and asylum struggles where questions of solidarity law and belonging are most generative and acute *Europe's Functional Constitution* Turkuler Isiksel,2016

Constitutionalism has become a byword for legitimate government but is it fated to lose its relevance as constitutional states relinquish power to international institutions This book evaluates the extent to which constitutionalism as an empirical idea and normative ideal can be adapted to institutions beyond the state by surveying the sophisticated legal and political system of the European Union Having originated in a series of agreements between states the EU has acquired important constitutional features like judicial review protections for individual rights and a hierarchy of norms Nonetheless it confounds traditional models of constitutional rule to the extent that its claim to authority rests on the promise of economic prosperity and technocratic competence rather than on the democratic will of citizens Critically appraising the European Union and its legal system this book proposes the idea of functional constitutionalism to describe this distinctive configuration of public power Although the EU is the most advanced instance of functional constitutionalism to date understanding this pragmatic mode of constitutional authority is essential for assessing contemporary international economic governance *The Oxford Handbook of Global Legal Pluralism* Paul Schiff Berman,2020-06-01 Over the past two decades Global Legal Pluralism has become one of the leading analytical frameworks for understanding and conceptualizing law in the 21st century Wherever

one looks there is conflict among multiple legal regimes Some of these regimes are state based some are built and maintained by non state actors some fall within the purview of local authorities and jurisdictional entities and some involve international courts tribunals and arbitral bodies and regulatory organizations Global Legal Pluralism has provided first and foremost a set of useful analytical tools for describing this conflict among legal and quasi legal systems At the same time some pluralists have also ventured in a more normative direction suggesting that legal systems might sometimes purposely create legal procedures institutions and practices that encourage interaction among multiple communities These scholars argue that pluralist approaches can help foster more shared participation in the practices of law more dialogue across difference and more respect for diversity without requiring assimilation and uniformity Despite the veritable explosion of scholarly work on legal pluralism conflicts of law soft law global constitutionalism the relationships among relative authorities transnational migration and the fragmentation and reinforcement of territorial boundaries no single work has sought to bring together these various scholarly strands place them into dialogue with each other or connect them with the foundational legal pluralism research produced by historians anthropologists and political theorists Paul Schiff Berman one of the world s leading theorists of Global Legal Pluralism has gathered over 40 diverse authors from multiple countries and multiple scholarly disciplines to touch on nearly every area of legal pluralism research offering defenses critiques and applications of legal pluralism to 21st century legal analysis Berman also provides introductions to every part of the book helping to frame the various approaches and perspectives The result is the first comprehensive review of Global Legal Pluralism scholarship ever produced This book will be a must have for scholars and students seeking to understand the insights of legal pluralism to contemporary debates about law At the same time this volume will help energize and engage the field of Global Legal Pluralism and push this scholarly trajectory forward into another two decades of innovation

Constitutionalism beyond Liberalism Michael W. Dowdle, Michael A. Wilkinson, 2017-01-26 Explores the possibilities of constitutionalism from diverse theoretical and comparative perspectives particularly those from outside liberal and Anglo European paradigms **Legal Authority beyond the State** Patrick Capps, Henrik Palmer Olsen, 2018-03-01 In recent decades new international courts and other legal bodies have proliferated as international law has broadened beyond the fields of treaty law and diplomatic relations This development has not only triggered debate about how authority may be held by institutions beyond the state but has also thrown into question familiar models of authority found in legal and political philosophy The essays in this book take a philosophical approach to these developments debates and questions In doing so they seek to clarify the relevant issues underpinning as well as develop possible solutions to the problem of how legal authority may be constructed beyond the state *The Oxford Handbook of Comparative Constitutional Law* Michel Rosenfeld, András Sajó, 2012-05-17 The field of comparative constitutional law has grown immensely over the past couple of decades Once a minor and obscure adjunct to the field of domestic constitutional law comparative constitutional law has now

moved front and centre Driven by the global spread of democratic government and the expansion of international human rights law the prominence and visibility of the field among judges politicians and scholars has grown exponentially Even in the United States where domestic constitutional exclusivism has traditionally held a firm grip use of comparative constitutional materials has become the subject of a lively and much publicized controversy among various justices of the U S Supreme Court The trend towards harmonization and international borrowing has been controversial Whereas it seems fair to assume that there ought to be great convergence among industrialized democracies over the uses and functions of commercial contracts that seems far from the case in constitutional law Can a parliamentary democracy be compared to a presidential one A federal republic to a unitary one Moreover what about differences in ideology or national identity Can constitutional rights deployed in a libertarian context be profitably compared to those at work in a social welfare context Is it perilous to compare minority rights in a multi ethnic state to those in its ethnically homogeneous counterparts These controversies form the background to the field of comparative constitutional law challenging not only legal scholars but also those in other fields such as philosophy and political theory Providing the first single volume comprehensive reference resource the Oxford Handbook of Comparative Constitutional Law will be an essential road map to the field for all those working within it or encountering it for the first time Leading experts in the field examine the history and methodology of the discipline the central concepts of constitutional law constitutional processes and institutions from legislative reform to judicial interpretation rights and emerging trends *Entangled Legalities Beyond the State* Nico Krisch, 2021-11-11 Law is usually understood as an orderly coherent system but this volume shows that it is often better understood as an entangled web Bringing together eminent contributors from law political science sociology anthropology history and political theory it also suggests that entanglement has been characteristic of law for much of its history The book shifts the focus to the ways in which actors create connections and distance between different legalities in domestic transnational and international law It examines a wide range of issue areas from the relationship of state and indigenous orders to the regulation of global financial markets from corporate social responsibility to struggles over human rights The book uses these empirical insights to inform new theoretical approaches to law and by placing the entanglements between norms from different origins at the centre of the study of law it opens up new avenues for future legal research This title is also available as Open Access

Constitutionalism of Australian First Nations Maria Salvatrice Randazzo, 2022-07-29 The book considers Australian First Nations constitutionalism by drawing on the chthonic constitutional traditions of three distinct Australian First Nations legal orders the Warlpiri Yolngu and Pintupi legal orders in the endeavour of identifying via a comparative analysis a core of similarities to be drawn upon and articulate an emergent legal theory common to the three legal orders The comparative analysis is undertaken at the most foundational levels of their legal traditions via the prism of a legal paradigm elaborated with reference to an Australian Indigenous cosmological ontological and epistemological standpoint The proposed legal

theory comprises a broad overview general concepts normative principles and general working principles In so doing the book expounds how Australian First Nations constitutionalism unfolds into holistic orders of spiritual political and legal authority that are explainable in terms of legal theory At the most foundational level such elaboration may help delineate normative and legal constitutional patterns throughout Indigenous Australia Democratic Authority Josef Weinzierl,2024-01-11 What is the nature of EU s authority This fascinating book explores this question and is much needed given the increased scrutiny of the EU s actions in the face of growing nationalism and various other internal and external challenges By setting out an original account of the preferred moral standard to evaluate such authority ie democratic authority it illustrates how that standard affects the practical reasoning of those subject to the EU s authority Theoretically significant the book also has important practical value as legitimacy challenges in the EU increase Constitutional lawyers and theorists as well as political scientists will welcome this innovative new work *Issues in Law Research: 2013 Edition*,2013-05-01 *Issues in Law Research 2013 Edition* is a ScholarlyEditions book that delivers timely authoritative and comprehensive information about Social Science The editors have built *Issues in Law Research 2013 Edition* on the vast information databases of ScholarlyNews You can expect the information about Social Science in this book to be deeper than what you can access anywhere else as well as consistently reliable authoritative informed and relevant The content of *Issues in Law Research 2013 Edition* has been produced by the world s leading scientists engineers analysts research institutions and companies All of the content is from peer reviewed sources and all of it is written assembled and edited by the editors at ScholarlyEditions and available exclusively from us You now have a source you can cite with authority confidence and credibility More information is available at <http://www.ScholarlyEditions.com> Transnational Narratives and Regulation of GMO Risks Giulia Claudia Leonelli,2021-11-04 This book provides an innovative insight into the regulatory conundrum of genetically modified organisms GMOs deploying transnational legal analysis as a methodological framework to explore the most controversial area of risk governance The book deconstructs hegemonic and counter hegemonic transnational narratives on the governance of GMO risks cutting across US law EU law the WTO Agreement on Sanitary and Phytosanitary Measures and hybrid standard setting regimes Should uncertain risks be run unless adverse effects have been conclusively established and should regulators only act where this is cost benefit effective Should risk managers make a convincing case that a product or process is safe enough for the relevant uncertain risks to be socially acceptable How can intractable transnational regulatory conflicts be solved The book complements a close analysis of regulatory frameworks and case law with a more encompassing perspective on the political socio economic and distributional implications of different approaches to the regulation of health and environmental risks at times of globalisation The GMO deadlock thus becomes a lens through which to investigate the underlying value systems goals and impacts of transnational discourses on risk governance Against this backdrop the normative strand of analysis points to the limited ability of science and procedural deliberation to generate

authentic agreement and to identify normatively legitimate solutions in the absence of pre existing shared perspectives

The Foundations of European Transnational Private Law Anna Beckers, Hans-W. Micklitz, Rodrigo Vallejo, Pia Letto-Vanamo, 2024-05-30 Since Anu Bradford's groundbreaking book on the Brussels Effect there is a vastly evolving literature on the EU as a global regulatory actor as well as the global reach of EU law This edited collection connects to this debate Yet it shifts the focus from the currently predominant public law focus to investigating European and EU private law and to connecting to literature and research on transnational law To that end it proceeds first conceptually by introducing and giving shape to the notion of a European Transnational Private Law through four conceptual contributions by the editors Secondly it focuses on several sectors finance taxation investment consumer law labour law and topics climate litigation global value chains non discrimination to trace sector specifically the role of EU private law in relation to transnational legal ordering

The Jurisprudence of Constitutional Conflict in the European Union Ana Bobić, 2022 A comparative and comprehensive account of the jurisprudence of constitutional conflict between the Court of Justice and national courts with the power of constitutional review This monograph addresses the incidences of and reasons for constitutional clashes in the application and enforcement of EU law It aims to determine how the principle of primacy of EU law works in reality and whether the jurisprudence of the courts under analysis supports this concept To this end the book explores the three areas of constitutional conflict ultra vires review identity review and fundamental rights review The book substantiates the descriptive and strengthens the normative contributions of the theory of constitutional pluralism in relation to the web of relations in the European judicial space By examining the influence that the jurisprudence of constitutional conflict has on the balance of powers between the Court of Justice and constitutional courts the volume develops the judicial triangle as an analytical tool that depicts the consequences for the horizontal constitutional courts vis vis the Court of Justice and vertical judicial relationships Court of Justice vis vis ordinary national courts constitutional courts vis vis ordinary national courts By offering a thorough compilation of the jurisprudence of constitutional conflict in the EU The Jurisprudence of Constitutional Conflict in the European Union improves our understanding of the principle of primacy of EU law and its limits as well as reinforces the theory of constitutional pluralism in explaining and guiding judicial power relations and interactions in the EU

Rethinking Constitutionalism Beyond The State Introduction

In this digital age, the convenience of accessing information at our fingertips has become a necessity. Whether its research papers, eBooks, or user manuals, PDF files have become the preferred format for sharing and reading documents. However, the cost associated with purchasing PDF files can sometimes be a barrier for many individuals and organizations. Thankfully, there are numerous websites and platforms that allow users to download free PDF files legally. In this article, we will explore some of the best platforms to download free PDFs. One of the most popular platforms to download free PDF files is Project Gutenberg. This online library offers over 60,000 free eBooks that are in the public domain. From classic literature to historical documents, Project Gutenberg provides a wide range of PDF files that can be downloaded and enjoyed on various devices. The website is user-friendly and allows users to search for specific titles or browse through different categories. Another reliable platform for downloading Rethinking Constitutionalism Beyond The State free PDF files is Open Library. With its vast collection of over 1 million eBooks, Open Library has something for every reader. The website offers a seamless experience by providing options to borrow or download PDF files. Users simply need to create a free account to access this treasure trove of knowledge. Open Library also allows users to contribute by uploading and sharing their own PDF files, making it a collaborative platform for book enthusiasts. For those interested in academic resources, there are websites dedicated to providing free PDFs of research papers and scientific articles. One such website is Academia.edu, which allows researchers and scholars to share their work with a global audience. Users can download PDF files of research papers, theses, and dissertations covering a wide range of subjects. Academia.edu also provides a platform for discussions and networking within the academic community. When it comes to downloading Rethinking Constitutionalism Beyond The State free PDF files of magazines, brochures, and catalogs, Issuu is a popular choice. This digital publishing platform hosts a vast collection of publications from around the world. Users can search for specific titles or explore various categories and genres. Issuu offers a seamless reading experience with its user-friendly interface and allows users to download PDF files for offline reading. Apart from dedicated platforms, search engines also play a crucial role in finding free PDF files. Google, for instance, has an advanced search feature that allows users to filter results by file type. By specifying the file type as "PDF," users can find websites that offer free PDF downloads on a specific topic. While downloading Rethinking Constitutionalism Beyond The State free PDF files is convenient, its important to note that copyright laws must be respected. Always ensure that the PDF files you download are legally available for free. Many authors and publishers voluntarily provide free PDF versions of their work, but its essential to be cautious and verify the authenticity of the source before downloading Rethinking Constitutionalism Beyond The State. In conclusion, the internet offers numerous platforms and websites that

allow users to download free PDF files legally. Whether its classic literature, research papers, or magazines, there is something for everyone. The platforms mentioned in this article, such as Project Gutenberg, Open Library, Academia.edu, and Issuu, provide access to a vast collection of PDF files. However, users should always be cautious and verify the legality of the source before downloading Rethinking Constitutionalism Beyond The State any PDF files. With these platforms, the world of PDF downloads is just a click away.

FAQs About Rethinking Constitutionalism Beyond The State Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Rethinking Constitutionalism Beyond The State is one of the best book in our library for free trial. We provide copy of Rethinking Constitutionalism Beyond The State in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Rethinking Constitutionalism Beyond The State. Where to download Rethinking Constitutionalism Beyond The State online for free? Are you looking for Rethinking Constitutionalism Beyond The State PDF? This is definitely going to save you time and cash in something you should think about.
