Rethinking Human Rights Challenges For Theory And Action:

Rethinking Human Rights Smitu Kothari, Harsh Sethi, 1991 Contributed articles in the Indian context most previously published in late 1987 in Lokayan bulletin bimonthly **Human Rights, Gender and the Environment** Priyam, Manisha, Menon, Krishna, Banerjee, Madhulika, 2010 In Human Rights Gender and the Environment the authors unravel the complex themes of human rights gender and the environment basing their approach on the pivotal issue of inequality All three themes manifest unequal relationships that exist between humans and between humans and the environment It discusses human rights gender issues in contemporary India impact of socio economic development on the environment and examines the specific issues of the environment in an international context and presents policies and movements in India

Multiculturalism and Minority Religions in Britain Malory Nye, 2012-12-06 A detailed case study of the International Society for Krishna Consciousness ISKCON in Britain The book studies the particular development of a new religious movement within the context of Britain and issues relating to minority religions place within a multicultural but still hegemonically Christian society **The Oxford Handbook of Children's Rights Law** Jonathan Todres, Shani M. King, 2020 This book is a foundational interdisciplinary volume on children's rights that is relevant to scholars practitioners and students with an interest in children's rights human rights family law and related topics With contributions from leading experts in the field of children's rights this book provides both in depth analysis of children's rights as a discipline and maps the critical issues for advancing children's rights today and in the future **Religion in Global Civil Society** Mark Juergensmeyer, 2005-11-03 The extraordinary changes in world society at the beginning of the 21st century have involved religion to a degree that would have amazed earlier observers of modernity Within the past decade religion has been associated with some of the world's most strident forms of political encounter including new movements of nationalism the clerical leadership of political sects and the religiously motivated acts of terrorism Religion seems to be trying to tear the planet apart even as other cultural forces seem to be trying to pull it together The technology of the Internet film television cell phones and other forms of rapid universal communication seem to be knitting the world into a single social fabric Consumer franchises and popular culture seem to be making the world a single global city Religion seems to be at odds with all of this Is religion the natural enemy of globalization The essays in this volume explore the difficulties and possibilities of a diversity of religious groups occupying the same civil society The authors avoid simplistic generalizations Religion they show is not only identified with the culture and politics of the hostile anti urban village it is not simply the jihad that Benjamin Barber identified as the opponent of the homogenous global culture of McWorld True some religious activists have blown things up But others have tried to smooth things over Even the religious opposition to globalization is nuanced Some violent activists like Hindu extremists in India want a new religious state Others like Christian militias or al Qaeda envision a transnational religious entity a kind of religious globalization to supplant the secular one Prophetic religious voices call for

moderation justice and environmental protection Religion these essays demonstrate plays diverse and sometimes contradictory roles in the new cultural globalization In a global culture the shared values of different religious traditions can provide a collective sense of virtuous conduct in public life But religion can also support the position of enemies of global society those who see in globalization the effort to impose the values and power of one country over the others India Today Arnold P. Kaminsky, Roger D. Long Ph.D., 2011-09-23 Containing almost 250 entries written by scholars from around the world this two volume resource provides current accurate and useful information on the politics economics society and cultures of India since 1947 With more than a billion citizens almost 18 percent of the world's population India is a reflection of over 5 000 years of interaction and exchange across a wide spectrum of cultures and civilizations India Today An Encyclopedia of Life in the Republic describes the growth and development of the nation since it achieved independence from the British Raj in 1947 The two volume work presents an analytical review of India's transition from fledgling state to the world's largest democracy and potential economic superpower Providing current data and perspective backed by historical context as appropriate the encyclopedia brings together the latest scholarship on India's diverse cultures societies religions political cultures and social and economic challenges It covers such issues as foreign relations security and economic and political developments helping readers understand India's people and appreciate the nation's importance as a political power and economic force both regionally and globally *Fighting for Faith and Nation* Cynthia Keppley Mahmood, 2010-08-03 The ethnic and religious violence that characterized the late twentieth century calls for new ways of thinking and writing about politics Listening to the voices of people who experience political violence either as victims or as perpetrators gives new insights into both the sources of violent conflict and the potential for its resolution Drawing on her extensive interviews and conversations with Sikh militants Cynthia Keppley Mahmood presents their accounts of the human rights abuses inflicted on them by the state of India as well as their explanations of the philosophical tradition of martyrdom and meaningful death in the Sikh faith While demonstrating how divergent the world views of participants in a conflict can be *Fighting for Faith and Nation* gives reason to hope that our essential common humanity may provide grounds for a pragmatic resolution of conflicts such as the one in Punjab which has claimed tens of thousands of lives in the past fifteen years

Global Civil Society Yearbook 2009 Ashwani Kumar, Jan Aart Scholte, Mary Kaldor, Marlies Glasius, Hakan Seckinelgin, Helmut K Anheier, 2009-05-13 The annual Global Civil Society Yearbooks provide an indispensable guide to global civil society or civic participation and action around the world The 2009 Yearbook explores the framings strategies and impacts of a range of actors on poverty and its alleviation The overarching question is to whether such actors in pressing for poverty alleviation actually achieve anything empower the poor or simply aid wealthy states in maintaining the status quo The contributors are diverse including scholars and practitioners from India America the UK Australia Thailand and Mali The Global Civil Society Yearbook remains the standard work on all aspects of contemporary global civil society for activists

practitioners students and academics alike It is essential reading for anyone seeking a deeper understanding of the key actors forms and manifestations of global civil society around the world today **Beyond Common Knowledge** Erik Gilbert Jensen, Thomas C. Heller, 2003 An intensive global search is on for the rule of law the holy grail of good governance which has led to a dramatic increase in judicial reform activities in developing countries Very little attention however has been paid to the widening gap between theory and practice or to the ongoing disconnect between stated project goals and actual funded activities Beyond Common Knowledge examines the standard methods of legal and judicial reform Taking stock of international experience in legal and judicial reform in Latin America Europe India and China this volume answers key questions in the judicial reform debate What are the common assumptions about the role of the courts in improving economic growth and democratic politics Do we expect too much from the formal legal system Is investing in judicial reform projects a good strategy for getting at the problems of governance that beset many developing countries If not what are we missing

Toward Sustainable Development? Ronald C Fisher, 2017-07-12 An interdisciplinary case study of a project to dam the Narmada River in central and western India so that it can be used productively Diverse opinions of proponents and opponents are expressed as are studies on human rights of disadvantaged groups displaced by the work Restructuring World Politics Sanjeev Khagram, James V. Riker, Kathryn Sikkink, A comprehensive look at the global movements that are transforming international relations *Comparative and Transnational History* Heinz-Gerhard Haupt, Jürgen Kocka, 2012 Since the 1970s West German historiography has been one of the main arenas of international comparative history It has produced important empirical studies particularly in social history as well as methodological and theoretical reflections on comparative history During the last twenty years however this approach has felt pressure from two sources cultural historical approaches which stress microhistory and the construction of cultural transfer on the one hand global history and transnational approaches with emphasis on connected history on the other This volume introduces the reader to some of the major methodological debates and to recent empirical research of German historians who do comparative and transnational work *Understanding Karma* Shrinivas Tilak, 2006 Study of theory of Karma with reference to Mah bh rata and works of Paul Ricoeur **Between Sovereignty and Global Governance?** Albert J. Paolini, Christian Reus-Smit, Anthony P. Jarvis, 2016-07-27 This book explores the nature and problems of global governance as we enter the next millennium It focuses on the United Nations the most ambitious experiment to date in multilateral management of world society Leading scholars policy makers and representatives of non governmental organizations examine the economic security and civil political dimensions of governance exploring the impact of changing global conditions on national regional and international institutions and processes of governance They use the experience of the United Nations system to illuminate the nature and viability of sovereign and non sovereign forms of governance in an era of rapid political economic cultural strategic and ecological change *Global Ecology* Wolfgang Sachs, 1993 Behind the public s hope of effective action by governments on

environmental issues lies a complex terrain of conceptual confusion conflicts of interest and philosophical dispute This is why some of the world s leading environmental thinkers have come together in this volume to probe critically the new language being developed by environmental professionals They examine the contradictions inherent in the fashionable notion of sustainable development They explore the emerging conflicts over the distribution of environmental risks between North and South And they warn that global ecology seen in a managerial perspective may degenerate into an effort to redesign and manage Nature in order to keep economic growth going in the face of a rising tide of resource plunder and pollution This book seeks to launch a critical debate in order to clarify the issues involved and what might constitute appropriate action

Malaysia, State and Civil Society in Transition Vidhu Verma,2002 Tracing historical and political dynamics underlying nearly 20 years of authoritarian rule Verma addresses five issues Islam secular nationalism citizenship democracy and human rights arguing that modernization has led to tensions in Malaysia **Essays on Indian Politics** Raj Kumar,2003 Politics and political behaviour have undergone radical changes We have developed a kind of psyche which is alien We seem to have lost our moorings Attempt here has been made to examine some of the basic issues on the subject under study Object is to place before our readers selected essays which will enable them to formulate viable political philosophy for a happy healthy and vibrant India of twentieth first century No claim therefore is made to give a connected and complete account on the subject of the volume Our main effort is at understanding the subject in appropriate perspectives for a future policy for a brighter India Contents Introduction Rajadharma Thoughts on Polity Kautilya The Kural Polity in the Modern Context The Political Allegory in Kalidasa s Kumarasambhava Polity and Governance The Administration of Departments The State Swami Dayanand s Concept of the Indian Swaraj The Striving for Swaraj Politics of Indian Revolutionaries 1905 1910 Democracy and Political Change in India *Global Prescriptions* Rosalind P. Petchesky,2003-08 *Global Prescriptions* is a critical yet optimistic analysis of the role of transnational women s groups in setting the agendas for women s health in international and national settings The book reviews a decade of women s participation in UN conferences transnational networks national advocacy efforts and sexual and reproductive health provision assessing both their strengths and weaknesses It critiques the Cairo Beijing and Copenhagen conference documents and World Bank WHO and health sector reform policies It also offers case studies of national level reform and advocacy efforts and appraises the controversy concerning TRIPS trade and essential AIDS drugs The author takes into account the formidable political and ideological forces confronting global justice movements and also offers a sobering reassessment of transnational women s NGOs themselves and such problems as NGOization fragmentation and donor dependency Petchesky argues that the power of women s transnational coalitions is only as great as their organic connection with grassroots social movements **Empire of Knowledge** Vinay Lal,2002-10-20 During the media frenzy over the Millennium celebrations there was hardly any mention of the fact that for the majority of the world there was no Millennium at all This linear understanding of time is a specifically Western and Christian concept

This is just one of many examples that Vinay Lal uses to demonstrate that nearly every idea which we take for granted in the west is part of a politics of ideas. Oppression is usually associated with class struggle and other forms of economic monopoly. Lal looks beyond this deconstructing the cultural assumptions that have emerged alongside capitalism to offer a devastating critique of the politics of knowledge at the heart of all powerbroking. Other topics examined are the concept of development which has provided a mandate for surreptitious colonisation and the idea of the nation state something we have lived with for no more than two centuries yet is accepted without question. Linking this to the emergence of international governance through the United Nations the US and imperial economic bodies such as the IMF and WTO Lal explains how such universalism came to dominate the trajectory of Western thought.

Environmental Jurisprudence in India C.M. Abraham, 2023-12-11 Within the last two decades India has not only enacted specific legislation on environmental protection but has also virtually created a new fundamental right to a clean environment in the Constitution. The models and methods adopted in the Indian context appear at first sight similar to those in other common law systems. Yet there are many subtle differences which have changed the structure and content of legal development in India. Indian environmental jurisprudence brings out the unique characteristics of a new legal order which has gradually been established in India. The distinguishing nature of this jurisprudence as this book shows in detail has three interconnected elements. First the nature of the new Indian constitutional law regime accords greater importance to public concerns than protecting private interests. Secondly this jurisprudential development reflects certain aspects of Indian legal culture through implicit and explicit reliance on autochthonous values and concepts of law encapsulated in the Indian juristic postulate of dharma. Thirdly the emerging Indian environmental jurisprudence bears testimony to the activist role of the Indian judiciary which has also had a significant impact in many areas other than environmental law. In short the development of environmental jurisprudence in India manifests neo dharmic jurisprudence in postmodern public law. It accommodates ideas currently voiced by experts around the world for protecting the environment in forms modified by the Indian legal culture.
