Ameka, Mary Esther Kropp Dakubu, 2008 This book explores the thesis that in the Kwa languages of West Africa aspect and modality are more central to the grammar of the verb than tense Where tense marking has emerged it is invariably in the expression of the future and therefore concerned with the impending actualization or potentiality of an event hence with modality rather than the purely temporal sequencing associated with tense The primary grammatical contrasts are perfective versus imperfective The main languages discussed are Akan Dangme Ewe Ga and Tuwuli while Nzema Ahanta Likpe and Eastern Gbe are also mentioned Knowledge about these languages has deepened considerably during the past decade or so and ideas about their structure have changed The volume therefore presents novel analyses of grammatical forms like the so called S Aux O V Other or future constructions and provides empirical data for theorizing about aspect and modality It should be of considerable interest to Africanist linguists typologists and creolists interested in substrate issues      **Complete Learning Disabilities Directory 2010** Laura Mars-Proietti, Richard Gottlieb, 2009 This is the most comprehensive directory of Programs Services Curriculum Materials Professional Meetings Resources Camps Newsletters and Support Groups for teachers students and families concerned with learning disabilities This edition is distinguished by its recognition by the National Center for Learning Disabilities as well as a Glossary of Terms This information packed directory includes information about Associations Organizations Schools Colleges Testing Materials Government Agencies Legal Resources and much more For quick easy access to information this directory contains three indexes Entry Name Index Subject Index and
