The National Magazine ,1905 How a useless startup burns 25 millions in 3 days Michael Wenkart, 2014-04-10 Did you observe new Startups burning Millions in just a few days This is what happened more than once in recent years however sometimes startups are successful If you are seriously thinking about starting your own business you need to give deep consideration to a lot of factors before taking the plunge A very high percentage of start ups fail often in a very short space of time And the reasons for failure are numerous and wide ranging If you don't give sufficient thought and planning to your new venture it is very likely that you will be among them It is always helpful to know of other people's experiences in these sort of areas What they did or didn't do can provide you with clear pointers as to how you should proceed Many people have been down the road and many have failed Their failures might contain the seeds of your success if you are able to understand where they went wrong and use that information to your benefit Running your own business takes guts and stamina among lots of other qualities If you are thinking of taking the plunge you will need and deserve a lot of luck Good hunting
