Varieties of the Gaming Experience Robert Perinbanayagam, 2017-09-08 The games that human societies devised over the centuries can be considered one of the most comprehensive and fertile symbolic systems ever created by human ingenuity In all societies members feel compelled to interact and communicate with each other as much as possible As linguistic creatures humans use language to establish social and interpersonal contacts Games are a device to enable such connections Robert Perinbanayagam examines how players value games He assesses games as systems that embody metaphysics and pragmatic action He then examines various religious ideas and how participants reference respective approaches to game playing Perinbanayagam argues that games are forms of activity in which the human agent as an actor engages with others in various interactional situations Such engagement creates dramas in which

agents assume identities give play to emotions and enrich their selves He also examines the issue of game writing particularly how selected writers have used game structures as narrative devices in their work *Grasping Shadows* William Chapman Sharpe, 2017-08-04 What's in a shadow Menace seduction or salvation Immaterial but profound shadows lurk everywhere in literature and the visual arts signifying everything from the treachery of appearances to the unfathomable power of God From Plato to Picasso from Rembrandt to Welles and Warhol from Lord of the Rings to the latest video game shadows act as central players in the drama of Western culture Yet because they work silently artistic shadows often slip unnoticed past audiences and critics Conceived as an accessible introduction to this elusive phenomenon *Grasping Shadows* is the first book that offers a general theory of how all shadows function in texts and visual media Arguing that shadow images take shape within a common cultural field where visual and verbal meanings overlap William Sharpe ranges widely among classic and modern works revealing the key motifs that link apparently disparate works such as those by Fra Angelico and James Joyce Clementina Hawarden and Kara Walker Charles Dickens and Kumi Yamashita Showing how real world shadows have shaped the meanings of shadow imagery *Grasping Shadows* guides the reader through the techniques used by writers and artists to represent shadows from the Renaissance onward The last chapter traces how shadows impact the art of the modern city from Renoir and Zola to film noir and projection systems that capture the shadows of passers by on streets around the globe Extending his analysis to contemporary street art popular songs billboards and shadow theatre Sharpe demonstrates a practical way to grasp the dark side that looms all around us **Conversations with Caryl Phillips** Caryl Phillips, 2009 Interviews with the acclaimed Anglo Caribbean author of *Dancing in the Dark* *A Distant Shore* and *Foreigners*
