Rights Persons:

Rights and Persons Abraham Irving Melden, 1980-01-01 The UN Convention on the Rights of Persons with Disabilities in Practice Lisa Waddington, Anna Lawson, 2018 A timely examination of the UN Convention on the Rights of Persons with Disabilities this first thorough comparative analysis contrasts the approaches of thirteen jurisdictions to reveal a legal area of growing importance Challenges to the Human Rights of People with Intellectual Disabilities Frances Owen, Dorothy Griffiths, 2008-12-15 This book provides a multidisciplinary examination of human rights and the lives of people with intellectual disabilities It combines historical psychological philosophical social educational medical and legal perspectives to form a unique and insightful account of the subject **The UN Convention on the Rights of Persons with Disabilities** Great Britain. Parliament. Joint Committee on Human Rights, 2009 The UN Convention on the Rights of Persons with Disabilities builds on existing human rights treaties including the International Covenant on Civil and Political Rights and the International Covenant on Economic Social and Cultural Rights The UN Handbook for Parliamentarians on the Convention stresses that it is not intended to create new rights but clarifies the obligations and legal duties of States to respect and ensure the equal enjoyment of all human rights by all persons with disabilities Its purpose is to Promote protect and ensure the full enjoyment of all human rights and fundamental freedoms by all persons with disabilities and to promote respect for their inherent dignity The UK was among the first countries to sign the Convention on 30 March 2007 The findings of our recent inquiry on the rights of adults with learning disabilities showed that although UK law and policy on the treatment of adults with learning disabilities takes a human rights based approach the day to day experiences of people with learning disabilities are not so positive Ratification will send a strong signal to all people with disabilities in the UK and abroad that the Government takes equality and the protection of their human rights seriously The Government first publicly stated that reservations to the Convention were being considered in its response to our Report on the treatment of adults with learning disabilities in May 2008 more than a year after it signed the Convention Despite the Committee s call for a full explanation of the government s views on the compatibility of domestic law with the Convention the were then provided with little detail on the reservations being considered or the Government s approach to the process The Committee considers that progress towards ratification of the Convention by the UK has so far lacked transparency and has unfortunately alienated disabled people and their organisations This is unacceptable in the light of the clear Convention commitment which the Government intends to make to the involvement of disabled people in the development of policies and laws which affect them This approach undermines the previous role that the UK Government has played in championing equality for disabled people and their leading role in negotiating the terms of the UNCRPD Children's Rights in Ghana Robert Kwame Ame, DeBrenna LaFa Agbényiga, Nana Araba Apt, 2011-02-22 This is the first book that examines Ghana s compliance with the United Nations Convention on the Rights of the Child CRC Ghana being the first country to ratify the Convention it thus fills an important

gap in the literature on Ghana The book throws a searchlight on a wide range of rights issues including children's identity violence against children and women child exploitation and children in conflict with the law plus a host of other CRC related issues and further identifies and explains the main obstacles in the way of realizing children's rights in Ghana A major strength of this book is that the contributors Ghanaians and non Ghanaians alike have vast experience in empirical research in Ghana and most importantly come from diverse academic disciplines Researchers instructors and students of Social Work Sociology Criminology Human Rights Education and Law are examples of a few academic disciplines that would find this book a welcome relief in their search for relevant and current data on children's issues in Ghana It should also be of great interest to policy makers human rights activists Children's NGOs and international development partners interested in children's issues

Disability and Human Rights Philippa Duell-Piening,2025-02-25 This book presents a timely and innovative exploration of one of the first human rights articles about data production and processing the Convention on the Rights of Persons with Disabilities article 31 Statistics and data collection The study provides detailed explorations of the legal and practical demands of article 31 how these have been interpreted and the practice of human rights research with marginalised communities It describes the history of the article s drafting in detail uncovering the tensions at its heart today This analysis provides the foundations for an alternative doctrinal reading of the obligations in article 31 and an exploration of a potential group right The book s detailed analysis is assisted by a new conceptual framework that illustrates the relationship between visibility and power The work demonstrates that data is not inert but powerful and may be used in ways that are helpful and harmful to rights holders Through closely examining disability human rights data practices in refugee contexts it concludes that human rights protections are being ignored in the urgency to create more data to identify and address inequality The author identifies immediate actions that may be taken to remediate current practices The book will be an invaluable resource for academics researchers and policy makers working in disability studies human rights law refugee and migration studies technology and society On Rights-based Services for People with Disabilities Brian Nolan,2003 Case Studies on

Commissioner for Human Rights, 2011-01-01 Political rhetoric on human rights in Europe is different from daily reality Almost every politician is on record as favouring the protection of freedom and justice Standards on human rights have been agreed at European and international level many have been integrated into national law but they are not consistently enforced There is an implementation gap it is this implementation gap that this book seeks to address it is built on a compilation of separate viewpoints or articles which Thomas Hammarberg has written and later updated since beginning his mandate as Council of Europe Commissioner for Human Rights in April 2006 He has now visited almost all of the 47 member states of the Council of Europe On each visit he has met victims of violations of human rights and their families leading politicians prosecutors judges ombudsmen religious leaders journalists and civil society representatives as well as inmates of prisons and other institutions law enforcement personnel and others The viewpoints written on the basis of these many visits summarise his reflections conclusions and recommendations *Encyclopedia of Ethics: P-W* Lawrence C. Commissioner for Human Rights and the mainstreaming of human rights across the United Nations system eventually leading to the establishment of the Human Rights Council to replace the Commission in 2006 Many of the problems we face today including conflict poverty and environmental issues have their roots in human rights problems This book identifies what has been done at the international level in the past and points towards what still needs to be done for the future **A System of Rights** Rex Martin,1993 The justification of political authority is one of the long standing issues of political philosophy and one which persistently defies satisfactory solution This book sets out to provide an original justification by establishing a background framework for dealing with this problem The model political system that emerges is one in which certain kinds of political rights are emphasized Rex Martin then discusses what the implications of such a system might be for democratic institutions political allegiance punishment and ultimately for the nature of political authority itself
