Rilke in the Making: A Comprehensive Study of His Life and Work from 1897 to 1926, in Three Volumes John O'Meara, 2023-09-02 In part through critical biography in part through a close reading of almost all of the poems Rilke wrote including many poems from his Diaries this large book challenges new ideas about what went into the making of Rilke over twenty years of production from his early beginnings under the tutelage of Lou Salom right through to his famous final works the Sonnets to Orpheus and the Duino Elegies Volume 1 focuses largely on *The Book of Hours* Volume 2 on *The Book of Images* the two parts of *New Poems* *The Notebooks of Malte Laurids Brigge* and the first Elegies written while at Duino Volume 3 on those all crucial self transforming ten years beyond Duino that lead up to the Sonnets to Orpheus and Rilke's eventual completion of the Elegies Two major theses are put forward in this book the first touching on Rilke's well known relationship to his former lover and mentor Lou Salom who is understood to have been a far more problematic influence on him than we had supposed the second touching on an equally crucial and at some point saving influence on Rilke from the literary sphere which is shown to be that of the great visionary poet who went by the name of Novalis Behind the grand story of Rilke's poetic emergence lies the fundamental and long standing reality of his repression by Lou and what that would sow paradoxically by way of a sublimated achievement as sublimely poignant as it is finally tragic

The Technological Unconscious in German Modernist Literature Larson Powell, 2008 Even after the end of modernism and postmodernism the grandiose fantasies of artifice and self reference that have informed so much modernist literature still resonate in the social constructivism of current literary and cultural theory in the idea that we can perform or construct identities or social roles without external constraint as if we had consumer choice of self Larson Powell's book posits nature as a limit to such fantasies redefining aesthetic modernity's conception of and relation to nature and therefore its relation to reality He shows how nature no longer the idealized maternally coded Utopia of the Romantics becomes the trace of specific political sexual and technological traumas The book's four chapters center on the representation of nature in German prose and especially poetry by Rainer Maria Rilke Gottfried Benn Bertolt Brecht and Alfred Doblin from the years 1900 to 1945 while making reference to other literatures as well Powell's term the Technological Unconscious refers to a point of intersection between psychoanalysis and social and scientific theories of modernism and also to the philosophical mediation between history and nature a motif important from Kant to Adorno Powell

critiques the tendency toward jargon of an often merely rhetorical theory while continuing to develop the philosophical and conceptual inheritance of Continental traditions He analyzes in connection with the works treated the conceptions of subject and system in the theories of Adorno Luhmann and Lacan and their relation to their complement nature The Technological Unconscious is thus an important polemical intervention both in the debates over interdisciplinarity and in those between eclectic culturalist theories such as New Historicism and postcolonialism on the one hand and systems theory and psychoanalysis on the other Book Jacket

The Notebooks of Malte Laurids Brigge Rainer Maria Rilke, 2009-06-04 While his old furniture rots in storage Malte Laurids Brigge lives in a cheap room in Paris with little but a library reader's card to distinguish him from the city's untouchables Every person he sees seems to carry their death with them and he thinks of the deaths and ghosts of his aristocratic family of which only he remains The only novel by one of the greatest writers of poetry in German the semi autobiographical Notebooks is an uneasy compelling and poetic book that anticipated Sartre and is full of passages of lyrical brilliance Michael Hulse's new translation perfectly conveys the unsettling beauty of the original and is accompanied by an introduction on Rilke's life and the biographical and literary influences on the Notebooks This edition also includes suggested further reading a chronology and notes

A Death of One's Own Jared Stark, 2018-03-15 To be or not to be who asks this question today and how What does it mean to issue or respond to an appeal for the right to die In *A Death of One's Own* the first sustained literary study of the right to die Jared Stark takes up these timely questions by testing predominant legal understandings of assisted suicide and euthanasia against literary reflections on modern death from the nineteenth and twentieth centuries Rigorously interdisciplinary and lucidly argued Stark's wide ranging discussion sheds critical light on the disquieting bioethical and biopolitical dilemmas raised by contemporary forms of medical technology and legal agency More than a survey or work of advocacy *A Death of One's Own* examines the consequences and limits of the three reasons most often cited for supporting a person's right to die that it is justified as an expression of personal autonomy or self ownership that it constitutes an act of self authorship of choosing a final chapter in one's life and that it enables what has come to be called death with dignity Probing the intersections of law and literature Stark interweaves close discussion of major legal political and philosophical arguments with revealing readings of literary and testimonial texts by writers including Balzac Melville Benjamin and Amory A thought provoking work that will be of interest to those concerned with law and humanities biomedical ethics cultural history and human rights *A Death of One's Own* opens new and suggestive paths for thinking about the history of modern death as well as the unsettled future of the right to die

The Beginning of Terror David Kleinbard, 1993-02-01 The insights here are of such depth and contain such beauty in them that time and again the reader must pause for breath At last Rilke has met a critic whose insight courage and humanity are worthy of his life and work Leslie Epstein Director Graduate Creative Writing Program Boston University A well reasoned fairly fascinating and illuminating study which soundly and convincingly applies Freudian and particularly post Freudian insights into the self to Rilke's life and work in a way which enlightens us considerably as to the relationship between life and work in original ways Kleinbard takes off where Hugo Simenauer's monumental psycho biography of Rilke 1953 left off He succeeds in giving us a psychic portrait of the poet which is more illuminating and which does greater justice to its subject than any of his predecessors Any reader with strong interest in Rilke would certainly welcome the availability of this study Walter H Sokel Commonwealth Professor of German and English Literatures University of Virginia For beauty is nothing but the beginning of terror which we are just able to bear and we wonder at it so because it calmly disdains to destroy us Rilke *Beginning with Rilke's* 1910 novel *The Notebooks of Malte Laurids Brigge* *The Beginning of Terror* examines the ways in which the poet mastered the illness that is so frightening and crippling in Malte and made the illness a resource for his art Kleinbard goes on to explore Rilke's poetry letters and non fiction prose his childhood and marriage and the relationship between illness and genius in the poet and his work a subject to which Rilke returned time and again This psychoanalytic study also defines the complex connections between Malte's and Rilke's fantasies of mental and physical fragmentation and the poet's response to Rodin's disintegrative and re integrative sculpture during the writing of *The Notebooks* and *New Poems* One point of departure is the poet's sense of the origins of his

illness in his childhood and particularly in his mother's blind narcissistic self-absorption and his father's emotional constriction and mental limitations Kleinbard examines the poet's struggle to purge himself of his deeply felt identification with his mother even as he fulfilled her hopes that he become a major poet The book also contains chapters on Rilke's relationships with Lou Andreas Salom and Aguste Rodin who served as parental surrogates for Rilke A psychological portrait of the early twentieth century German poet The Beginning of Terror explores Rilke's poetry letters non-fiction prose his childhood and marriage David Kleinbard focuses on the relationship between illness and genius in the poet and his work a subject to which Rilke returned time and again

The Near and Distant God Ian Cooper, 2017-12-02 Poetry and philosophy from the time of Kant to the mid twentieth century are centrally concerned with the question of how the Spirit or the Holy Spirit is present in the world This book argues that the development of modern poetry in German and English can be seen as a protracted response to the religious crises of post Idealist thought The German tradition develops through poets such as Holderlin as much as through philosophers such as Hegel and Nietzsche and in England German ideas profoundly influenced the British Idealist school Cooper's compelling study makes parallel readings of German and English writers with deeper historically based affinities than has previously been realised Eduard Morike and Gerard Manley Hopkins both churchmen each studied Idealism as undergraduates in their respective countries each responded to it in his spiritual verse And we find similar parallels in two of the defining works of twentieth century poetry between Rilke's response to Nietzsche in the Duino Elegies and Eliot's response to Bradley in the Four Quartets Ian Cooper is Centenary Research Fellow at Selwyn College Cambridge

Untimely Beggar Patrick Greaney, This highly original book takes as its starting point a central question for nineteenth and twentieth century literature and philosophy how to represent the poor Covering the period from the publication of Les Fleurs du Mal in 1857 to the composition of Benjamin's final texts in the 1930s Untimely Beggar investigates the coincidence of two modern literary and philosophical interests representing the poor and representing potential To take account of literature's relation to the poor Patrick Greaney proposes the concept of impoverished writing which withdraws from representing objects and registers the existence of power By reducing itself to the indication of its own potential by impoverishing itself literary language attempts to engage and participate in the power of the poor This focus on impoverished language offers new perspectives on major French and German authors including Marx Nietzsche Mallarmé Rilke and Brecht and makes significant contributions to recent debates about power and potential in thinkers such as Agamben Deleuze Foucault Hardt and Negri In doing so Greaney offers significant insights into modernity's intense philosophical and literary interest in socioeconomic poverty Patrick Greaney is assistant professor of German studies at the University of Colorado Boulder
