,2006 **Altered Pasts** Richard J. Evans, 2014-02-14 A bullet misses its target in Sarajevo a would be Austrian painter gets into the Viennese academy Lord Halifax becomes British prime minister in 1940 instead of Churchill seemingly minor twists of fate on which world shaking events might have hinged Alternative history has long been the stuff of parlor games war gaming and science fiction but over the past few decades it has become a popular stomping ground for serious historians The historian Richard J Evans now turns a critical slightly jaundiced eye on a subject typically the purview of armchair historians The book s main concern is examining the intellectual fallout from historical counterfactuals which the author defines as alternative versions of the past in which one alteration in the timeline leads to a different outcome from the one we know actually occurred What if Britain had stood at the sidelines during the First World War What if the Wehrmacht had taken Moscow The author offers an engaging and insightful introduction to the genre while discussing the reasons for its revival in popularity the role of historical determinism and the often hidden agendas of the counterfactual historian Most important Evans takes counterfactual history seriously looking at the insights pitfalls and intellectual implications of changing one thread in the weave of history A wonderful critical introduction to an often overlooked genre for scholars and casual readers of history alike *When Home Won't Let You Stay* Eva Respini, Ruth Erickson, 2019-01-01 Insightful and interdisciplinary this book considers the movement of people around the world and how contemporary artists contribute to our understanding of it In this timely volume artists and thinkers join in conversation around the topic of global migration examining both its cultural impact and the culture of migration itself Individual voices shed light on the societal transformations related to migration and its representation in 21st century art offering diverse points of entry into this massive phenomenon and its many manifestations The featured artworks range from painting sculpture and photography to installation video and sound art and their makers including Isaac Julien Richard Mosse Reena Saini Kallat Yinka Shonibare MBE and Do Ho Suh among

many others hail from around the world Texts by experts in political science Latin American studies and human rights as well as contemporary art expand upon the political economic and social contexts of migration and its representation The book also includes three conversations in which artists discuss the complexity of making work about migration Amid worldwide tensions surrounding refugee crises and border security this publication provides a nuanced interpretation of the current cultural moment Intertwining themes of memory home activism and more When Home Won't Let You Stay meditates on how art both shapes and is shaped by the public discourse on migration

*On Perfection* Jo Longhurst, 2013-01-01 Based on a 2012 symposium on Perfection held at the Whitechapel Gallery in East London this book explores the ways in which artists engage with ideas of perfection drawing on screenings performances and discussions The symposium featured the work of an eclectic group of artists and writers who use photographic lenses of many kinds to create works that engage with or disrupt ideas of perfection Framed from an artist's perspective and spanning a diverse range of artworks that question how these ideas shape our personal identities and our social and political systems On Perfection considers the multifaceted nature of lens based practices

*A Violent Embrace* renée c. hoogland, 2014-01-07 Instead of asking questions about the symbolic meaning or underlying truth of a work of art renée c. hoogland is concerned with the actual work that it does in the world whether intentionally or not Why do we find ourselves in tears in front of an abstract painting Why do some cartoons of the prophet Muhammad generate worldwide political outrage What in other words is the compelling force of visual images even or especially if they are nonfigurative repulsive or downright ugly Rather than describing analyzing and interpreting artworks hoogland approaches art as an event that obtains on the level of actualization presenting retellings of specific artistic events in the light of recent interventions in aesthetic theory and proposing to conceive of the aesthetic encounter as a potentially disruptive if not violent force field with material political and practical consequences

*Photography After Capitalism* Ben Burbridge, 2020-11-10 A lively and polemical analysis of photography and today's vernacular photographic culture In Photography After Capitalism Benedict Burbridge makes the case for a radically expanded conception of photography encompassing the types of labor too often obscured by black boxed technologies slick platform interfaces and the compulsion to display lives to others His lively and polemical analysis of today's vernacular photographic cultures shines new light on the hidden work of smartphone assembly teams digital content moderators Street View car drivers Google Scan Ops low paid gallery interns homeless participant photographers and the photo sharing masses
