Ripa Pannonica In Hungary:

The Ripa Pannonica in Hungary Zsolt Visy, 2003 This book traces the history of the Roman Empire in what is now Hungary and considers the legacy of the Empire The Roman Empire was the largest and longest existing empire in the history of the world Its frontier extended as far as the Danube during the reign of Augustus and Transdanubia formed a significant part of the province of Pannonia The Roman Army's deployment along the frontiers began at the end of the first century AD Between this point in time and the Late Roman Period the fourth century AD military units were only stationed along the province's frontier the Danube River and these river frontiers were denoted by the word *ripa* The frontier in Pannonia extended from the Vienna Basin as far as the mouth of the Save River It is typical that the sites of three legionary bases along this section of the frontier became the capitals of three countries Vindobona Vienna Aquincum Budapest and Singidunum Belgrade although the latter belonged to the neighboring prov Frontiers of the Roman Empire Máté Zsolt, Kulturális Örökségvédelmi Hivatal (Budapest), 2011 **Romans on the Danube** Zsolt Visy, 2011 **Landscapes and Landforms of Hungary** Dénes Lóczy, 2015-03-02 This volume is the first comprehensive description of the most spectacular landforms of Hungary It is a richly illustrated book which presents a collection of significant sites capturing the geodiversity of Hungarian landscapes The Landscapes and Landforms of Hungary discusses the effects of geomorphological features to the landscape such as volcanism weathering fluvial or aeolian erosion karst formation gravitational movements and others The importance of the conservation of geomorphological heritage is underlined as well as the importance of geomorphological heritage and conservation This book can be used for undergraduate and graduate courses in geomorphology physical geography hydrogeography and nature conservation It will be of benefit to environmental scientists geomorphologists conservationists among others *Pagans and Christians in Late Antique Rome* Michele Renee Salzman, Marianne Sághy, Rita Lizzi Testa, 2016 This book sheds new light on the religious and consequently social changes taking place in late antique Rome The essays in this volume argue that the once dominant notion of pagan Christian religious conflict cannot fully explain the texts and artifacts as well as the social religious and political realities of late antique Rome Together the essays demonstrate that the fourth century city was a more fluid vibrant and complex place than was previously thought Competition between diverse groups in Roman society be it pagans with Christians Christians with Christians or pagans with pagans did create tensions and hostility but it also allowed for coexistence and reduced the likelihood of overt violent physical conflict Competition and coexistence along with conflict emerge as still central paradigms for those who seek to understand the transformations of Rome from the age of Constantine through the early fifth century **The Battle of Mohács, 1526** , 2024-10-14 The story of the battle of Mohács and of King Louis II's dramatic escape only to meet his end by falling from his horse and drowning in the stream of Csele is well known These traumatic events have been seen as symbolizing the fall of the independent Hungarian Kingdom and the dawn of an age of oppression This volume presents new

research on these events and their interpretation focusing on topics such as battlefield reconstruction troop involvement firearm use and later political use and abuse of the memory of the battle Contributors are P l Fodor P ter Gyenizse Erika Hancz M t Kitanics S ndor Konkoly D nes L czy Tam s Morva Norbert Pap J lia Papp G bor Szalai and G bor Varga

Birthing Romans Anna Bonnell Freidin, 2024-05-21 How Romans coped with the anxieties and risks of childbirth Across the vast expanse of the Roman Empire anxieties about childbirth tied individuals to one another to the highest levels of imperial politics even to the movements of the stars *Birthing Romans* sheds critical light on the diverse ways pregnancy and childbirth were understood experienced and managed in ancient Rome during the first three centuries of the Common Era In this beautifully written book Anna Bonnell Freidin asks how inhabitants of the Roman Empire especially women and girls understood their bodies and constructed communities of care to mitigate and make sense of the risks of pregnancy and childbirth Drawing on medical texts legal documents poetry amulets funerary art and more she shows how these communities were deeply human yet never just human Freidin demonstrates how patients and caregivers took their place alongside divine and material agencies to guard against the risks inherent to childbearing She vividly illustrates how these efforts and vital networks offer a new window onto Romans anxieties about order hierarchy and the individual s place in the empire and cosmos Unearthing a risky world that is both familiar and not our own *Birthing Romans* reveals how mistakes misfortunes and interventions in childbearing were seen to have far reaching consequences reverberating across generations and altering the course of people s lives their family histories and even the fate of an empire **Philological and**

Historical Commentary on Ammianus Marcellinus XXX Jan den Boeft, Jan Willem Drijvers, Daniël den Hengst, Hans C. Teitler, 2015-09-01 The first part of Book 30 of Ammianus Marcellinus *Res Gestae* is devoted to the military and diplomatic struggle for Armenia between Valens emperor of the East and king Sapor II of Persia The Romans successfully defend their position until they are forced to deal with the Goths who threaten to cross the Danube border The second half of Book 30 is dominated by Valentinian I emperor of the West Ammianus presents a kaleidoscopic picture of this emperor alternating between admiration for his military qualities and devotion to his duty and bitter criticism of his avarice and cruelty The account of his death forms the conclusion of Ammianus treatment of the history of the western half of the Empire *The Frontiers of the Roman Empire* David Breeze, 2011-12-13 Practically all new information on the greatest empire of all and how it controlled and policed its frontiers Absolutely fascinating Books Monthly At its height the Roman Empire was the greatest empire yet seen with borders stretching from the rain swept highlands of Scotland in the north to the sun scorched Nubian desert in the south But how were the vast and varied stretches of frontier defined and defended Many of Rome s frontier defenses have been the subject of detailed and ongoing study and scholarship Three frontier zones are now UNESCO World Heritage sites the Antonine Wall having recently been granted this status the author led the bid and there is growing interest in their study This wide ranging survey will describe the varying frontier systems describing the extant remains

methods and materials of construction and highlighting the differences between various frontiers Professor Breeze considers how the frontiers worked discussing this in relation to the organization and structure of the Roman army and also their impact on civilian life along the empire's borders He then reconsiders the question of whether the frontiers were the product of an overarching Empire wide grand strategy questioning Luttwak's seminal hypothesis This is a detailed and wide ranging study of the frontier systems of the Roman Empire by a leading expert Intended for the general reader it is sure also to be of great value for academics and students in this field The appendixes will include a brief guide to visiting the sites today The result of this book crafting care and Breeze's erudition is a near perfect example of specialized military history done for a popular audience Open Letters Monthly

Field Methods and Post-Excavation Techniques in Late Antique Archaeology, 2016-04-26 Archaeologists working on late antique sites have not spent enough time thinking about methodology Their focus has been on recovering and cataloguing evidence or on the study of specific historical problems Digging has often been more important than publishing which has rarely extended beyond the basic summaries found in preliminary reports The re emergence of clearance excavation fuelled by the demands of tourism has further reduced the value of urban excavations in the East Mediterranean Here late antique levels have suffered in the hunt for photogenic early imperial architecture This volume attempts to address this situation by offering a critique of present practice and a series of exemplars alongside discussion articles on field technique and post excavation analysis The articles range from urban survey to the study of finds The book also considers if we need to develop specific field methods appropriate to the study of late antiquity Contributors are John Bintliff Jeremy Evans Axel Gering Stefan Groh Yoshiki Hori Nikolaos D Karydis Veli Kise Luke Lavan Zsolt Magyar Philip Mills John Pearce Steve Roskams Helga Sedlmayer Ellen Swift Itamar Taxel Douglas Underwood Lutgarde Vandeput and Joe Williams

Archaeology from Historical Aerial and Satellite Archives William S. Hanson, Ioana A. Oltean, 2012-11-12 Historical archives of vertical photographs and satellite images acquired for other purposes mainly declassified military reconnaissance offer considerable potential for archaeological and historical landscape research They provide a unique insight into the character of the landscape as it was over half a century ago before the destructive impact of later 20th century development and intensive land use They provide a high quality photographic record not merely of the landscape at that time but offer the prospect of the better survival of remains reflecting its earlier history whether manifest as earthworks cropmarks or soilmarks These various sources of imagery also provide an opportunity to examine from the air areas of Europe and beyond whose skies are still not open to traditional archaeological aerial reconnaissance Tens of millions of such images are held in archives around the world but their research potential goes very largely untapped A primary aim of this volume is to draw wider attention to the existence scope and potential access to historical archival aerial and satellite photographs in order to encourage their use in a range of archaeological and landscape research By drawing attention to this massive archival resource providing examples of its successful application to archaeological landscape questions and offering

advice how to access and utilise the resource the volume seeks to bring this material to wider attention demonstrate its huge potential for archaeology encourage its further use and stimulate a new approach to archaeological survey and the study of landscape evolution internationally

Managing, Using, and Interpreting Hadrian's Wall as World Heritage Peter G. Stone,David Brough,2013-11-13 Hadrian s Wall was inscribed as a World Heritage Site WHS in 1987 and with the German Limes became one of the first two parts of the transnational Frontiers of the Roman Empire FRE WHS in 2005 The World Heritage Site of Hadrian s Wall is unusual although not unique among World Heritage sites in its scale and linear nature stretching from Ravenglass on the west coast of England to Newcastle upon Tyne on the east coast over 150 miles Along its length it passes through two major urban centres and a variety of rural landscapes and its remains vary from substantial upstanding architectural features to invisible

below ground archaeology. Traditionally many of the constituent parts of Hadrian's Wall forts etc have been managed as separate entities by different State and private organisations. These and other issues make it an extremely complex WHS to manage. This book not only chronicles the past management of the Wall but also looks towards the future as more countries aspire to have their Roman frontiers added to the FRE. The experience gained over the last two decades illustrates developments in the management of large scale complex heritage sites that will be of value as a detailed case study to those involved in and affected by heritage management as well as academics and students. Many of the issues raised will find resonance in those faced by many other large World heritage sites.
