Ripples Of Light:

Ripples of Light Jani Johe Webster, 2012 *Foma Gordeyev* Maksim Gorky, 1901 **Sedimentologic Analysis of Cores from the Upper Triassic Chinle Formation and the Lower Permian Cutler Formation, Lisbon Valley, Utah** Russell F. Dubiel, Janet L. Brown, 1993 Five uranium exploration cores from Lisbon Valley in the Paradox Basin of southeastern Utah provide examples of sedimentary structures and lithofacies from the Lower Permian Cutler Formation and the overlying Moss Back Member of the Upper Triassic Chinle Formation The Cutler Formation consists of reddish brown to purple arkosic sandstone siltstone and mudstone of fluvial and floodplain origin interbedded with reddish orange sandstone and mud stone deposited in sabkha eolian dune and sand sheet settings The colors are indicative of the respective depositional settings An erosional nonconformity separates the top of the Cutler from the overlying Moss Back Member of the Chinle Formation The Moss Back consists of greenish to bluish gray limestone nodule conglomerate siliciclastic sandstone and siltstone deposited in high energy fluvial channels and crevasse splays and on adjacent levees and floodplains The drab colors of the Moss Back reflect the high organic carbon content of strata deposited and preserved below the water table These five cores record eolian and fluvial sedimentary structures and lithofacies sequences not well preserved in outcrops they provide the basis for interpretation and comparison of depositional environments from lithofacies analysis in core and outcrop studies and they establish the sedimentologic background for future petrographic and geochemical research on cores and outcrops from the Lisbon Valley area *Science and Psychology* Richard Wilton, Trevor Harley, 2017-07-14 Science and Psychology provides a comprehensive introduction to the structure and characteristics of scientific explanation using examples from a variety of sciences to illuminate the scientific approach taken in psychology In addition the authors discuss a range of conceptual issues particular to psychology They examine the concepts of free will consciousness and purposeful behaviour and consider the social implications of possible future changes in our understanding of these concepts and of ourselves The final chapters of the book provide an account of what psychology can tell us about the history and origins of science Assuming no previous understanding of either the philosophy of science or any science other than psychology Science and Psychology is an ideal resource for both final year undergraduates and postgraduates studying psychology Psychologists and other scientists who wish to further their understanding of the relationship between psychology and the natural sciences may also find the contents to be of interest *Renewable Energy Resources* John Twidell, Tony Weir, 2006-01-16 The second edition of this standard text reflects the experience gained as a result of the rapid developments in renewable energy technologies and will be of use to both students and professionals **Francophone Women Writers** Eric Touya de Marenne, 2024-03-26 This anthology seeks to introduce women writers in the global Francophone world by investigating the place of feminist postcolonial and cross cultural theories in interpreting women francophone literature The book also allows the reader to examine the extent to which women writers reflect or negate the

conventional archetypes of Francophone literature how they reinvent the political cultural and critical discourse of their time and place and create their own identity from objectification to subjectivity The ambition of this anthology is to explore these themes at a time when globalization is redefining the concepts of language identity space and history and transforming the rapport of each individual to the other While most research on the subject focus on specific countries or regions this volume offers a new critical introduction to Francophone women authors from a broad geographical range in North and West Africa the Near East the Pacific North America the Caribbean Islands and Europe Significantly this study assembles a broad and representative collection of texts written by women authors that will generate a fruitful and critical reflection among students and scholars The selected texts present critical issues that students and readers at large need to explore to further their knowledge of francophone literature and culture

Cherry Blossom Epiphany -- The Poetry and Philosophy of a Flowering Tree Robin D. Gill,2006-10 Cherry Blossom Epiphany the poetry and philosophy of a flowering tree a selection translation and lengthy explication of 3000 haiku waka senry and ky ka about a major theme from I P O O H In Praise Of Olde Haiku by robin d gill 1 Haiku Translation from Japanese to English 2 Japanese poetry 8c 20c waka haiku and senry 3 Natural History flowering cherries 4 Japan Culture Edo Era 5 Nonfiction Literature 6 Translation applied 7 You tell me If the solemn yet happy New Year s is the most important celebration of Japanese Yamato ethnic culture and the quiet aesthetic practice of Moon viewing in the fall the most elegant expression of Pan Asian Buddhism

religion the subject of this book Blossom viewing which generally means sitting down together in vast crowds to drink dance sing and otherwise enjoy the flowering cherry in full bloom is less a rite than a riot a word originally meaning an uproar The major carnival of the year it is unusual for being held on a date that is not determined by astronomy astrology or the accidents of history as most such events are in literate cultures It takes place whenever the cherry trees are good and ready Enjoyed in the flesh the blossom viewing or hanami is also of the mind so much so in fact that poetry is often credited with the spread of the practice over the centuries from the Imperial courts to the maids of Edo Nobles enjoyed link verse contests presided over by famous poet judges Hermits hung poems feting this flower of flowers to say the generic flower hana in Japanese connotes cherry on strips of paper from the branches of lone trees where only the wind would read them In the Occident too flowers embody beauty and serve as reminders of mortality but there is no flower that like the cherry blossom stands for all flowers Even the rose by any name cannot compare with the sakura in depth and breadth of poetic trope or viewing practice In *Cherry Blossom Epiphany* Robin D Gill hopes to help readers experience metaphysically some of this alternative world Haiku is a hyper short 17 syllabet or 7 beat Japanese poem directly or indirectly touching upon seasonal phenomena natural or cultural Literally millions of these ku have been written some perhaps many times about the flowering cherry sakura and the human activity associated with it blossom viewing hanami As the most popular theme in traditional haiku haikai cherry blossom ku tend to be overlooked by modern critics more interested in creativity expressed with fresh subjects but this embarrassment of riches has much to offer the poet who is pushed to come up with something anything different from the rest and allows the editor to select from what is for all practical purposes an infinite number of ku Literary critics take note Like *Rise Ye Sea Slugs* 2003 and *Fly ku* 2004 this book not only explores new ways to anthologize poetry but demonstrates the practice of multiple readings an average of two per ku as part of a composite translation turned into an object of art by innovative clustering Book collectors might further note that while *Cherry Blossom Epiphany* may not be hardback it takes advantage of the many symbols included with Japanese font to introduce design ornamentation the circle within the circle the reverse Buddhist swastika etc hitherto not found in English language print It is a one of a kind work of design by the author

The Man Who Was Afraid: Foma Gordyeff Maksim Gorky, 2020-09-28 ABOUT sixty years ago when fortunes of millions had been made on the Volga with fairy tale rapidity Ignat Gordyeff a young fellow was working as water pumper on one of the barges of the wealthy merchant Zayev Built like a giant handsome and not at all stupid he was one of those people whom luck always follows everywhere not because they are gifted and industrious but rather because having an enormous stock of energy at their command they cannot stop to think over the choice of means when on their way toward their aims and excepting their own will they know no law Sometimes they speak of their conscience with fear sometimes they really torture themselves struggling with it but conscience is an unconquerable power to the faint hearted only the strong master it quickly and make it a slave to their desires for they unconsciously feel that given room and freedom conscience would fracture life They sacrifice days to it and if it should happen that conscience conquered their souls they are never wrecked even in defeat they are just as healthy and strong under its sway as when they lived without conscience
