Rise and Demise Christopher K. Chase-Dunn,1997 **The Rise and Fall of the Indigenous Business Development Center in Zimbabwe** Tamuka Charles Chirimambowa,2012-03-21 Bachelor Thesis from the year 2007 in the subject Politics Region Africa grade 70 University of KwaZulu Natal language English abstract Economic reform has become one of the major necessities of post colonial African states given years of slavery apartheid colonialism and underdevelopment Many scholars have argued that Africa s lack of development is due to the lack of African participation within the economic sphere especially as a business class or bourgeoisie They contend that African participation in business has been rare and where granted it has been mostly within the peripheries or petty commerce This study will investigate Zimbabwe s IBDC with a view to going some way to answering the major question that arises out of this argument is creating a nationalist indigenous entrepreneurial class the answer to Africa s development problems The focus of this study will be on the emergence of the IBDC as a vehicle for black empowerment It will attempt to account for its successes its failures and its ultimate demise The research will also chart how some of Zimbabwe s most successful black entrepreneurs some who have managed to establish a global presence got their start with this organization and how they proceeded when the IBDC ceased to exist The study will also proceed to examine the Indigenous Business Women s Organization and the Affirmative Action Group similar organisations that came after the IBDC Crucial within this research agenda is the interrogation of the role of the state in post colonial Africa can it be a catalyst for economic empowerment or is it an inhibitor Finally efforts will be made to investigate the complementarities and contradictions of efforts to create a black business class with poverty alleviation policies **Age of Auto Electric** Matthew N. Eisler,2022-12-06 The electric vehicle revival reflects negotiations between public policy which promotes clean fuel efficient vehicles and the auto industry which promotes high performance vehicles Electric cars were once as numerous as internal combustion engine cars before all but vanishing from American roads around World War I Now we are in the midst of an electric vehicle revival and the goal for a sustainable car seems to be within reach In Age of Auto Electric Matthew N Eisler shows that the halting development of the electric car in the intervening decades was a consequence of tensions between environmental energy and economic policy imperatives that informed a protracted reappraisal of the automobile system These factors drove the electric vehicle revival argues Eisler hastening automaking s transformation into a science based industry in the process Challenging the common assumption that the electric vehicle revival is due to the development of better batteries Age of Auto Electric instead focuses on changing environmental and socioeconomic conditions energy and environmental policies systems of energy conversion and industrial production and

innovation practices that affected the prevalence and popularity of electric vehicles in recent decades Eisler describes a world in transition from legacy to alternative energy conversion systems and the promises compromises new problems and unintended consequences that enterprise has entailed

The Law-dictionary, Explaining the Rise, Progress, and Present State of the British Law Thomas Edlyne Tomlins,1835 *The Age of Change* Michelle D. Gavin,2025-09-04 An approachable guide to the political social and demographic changes happening in Africa and why they matter for the rest of the world Africa is undergoing an astounding transformation that will usher in a new era of political volatility and experimentation in the coming years The region is in the midst of a historically unprecedented demographic surge that has skewed the median age in most countries to below twenty years old This demographic moment coincides with three factors likely to amplify the political agendas of African youth rapid urbanization dramatically increased digital connectivity and increasing recognition that old political narratives are no longer fit for purpose Michelle D Gavin argues that these clear trends will result in an increase in political volatility Anti government movements will continue to find new expression incumbents will be more vulnerable honeymoon periods for new leaders will be shorter and transfers of power and leadership will be more frequent Citizens frustrated by the status quo will show more willingness to experiment with different forms of government and different external partnerships all with significant implications for those hoping for a global democratic resurgence This book explores growing dissatisfaction and desire for change as the political through line emerging on a diverse continent and illuminates some of the frustrated defiant and often humorous pan African political conversations underway among young politically engaged populations What is coming will be dramatically different from the period of political stagnation that has characterized the past two decades in the region and that also means that major powers like the United States Russia and China that are competing for influence in the region will have to change the way they do business

The Law-dictionary, Explaining the Rise, Progress, and Present State of the British Law Sir Thomas Edlyne Tomlins,1835 **Extraterrestrial Ethics** Jensine Andresen,2023-11-25 This unique book takes both inductive and deductive approaches to the topic of extraterrestrial ethics Inductively it asks what kind of ethics an advanced intelligent extraterrestrial species might display Deductively it asks how human beings should transform their own understanding of ethics to prepare for widespread contact with an advanced extraterrestrial species Using the ontological interpretation of quantum mechanics proposed by physicist and philosopher David Bohm Extraterrestrial Ethics considers how an extraterrestrial intelligence ETI may view ethical concerns relating to humankind The book examines two areas of concern nuclear technologies and the militarization and weaponization of space The text of the Fiscal Year 2022 National Defense Authorization Act FY22 NDAA in the United States clearly states that Unidentified Aerial Phenomena UAP have been reported at sites associated with nuclear weapons nuclear powered ships and submarines nuclear power generating stations etc suggesting that ETI is very concerned about the human use of nuclear technologies Furthermore the more ubiquitous

level of UAP sightings by the U S military over the last few years as documented in the June 2021 report from the Office of the Director of National Intelligence ODNI in the U S suggest that ETI also is concerned about rapid acceleration relating to the militarization and weaponization of space The book concludes by advocating a normative approach to de militarize space

No Place for the State Christopher Dummitt,Christabelle Sethna,2020-04-15 There s no place for the state in the bedrooms of the nation Pierre Elliott Trudeau told reporters He was making the case for the most controversial of his proposed reforms to the Criminal Code those concerning homosexuality birth control and abortion In No Place for the State contributors offer complex and often contrasting perspectives as they assess how the 1969 Omnibus Bill helped shape sexual and moral politics in Canada by examining the bill s origins social implications and repercussions The new legal regime had significant consequences for matters like adoption divorce and suicide After the bill passed a great many Canadians continued to challenge how sexual behaviour was governed demanding much more exhaustive changes to the law Fifty years later the origins and legacies of the bill are equivocal and the state still seems interested in the bedrooms of the nation This incisive study explains why that matters Law-dictionary Explaining the Rise, Progress and Present State of the British

Law Etc. 3. Ed. with Additions Thomas Edlyne Tomlins,1820 **The Secularization of Baptism** Mark G. McKim,2025-01-31 Does God actually do anything in baptism Is it more than just a symbol Most early Baptists would have answered yes Most Baptists today would answer no How and why did this change happen and does it matter Providing thorough documentation of the changing understandings of baptism among American Canadian and English Baptists from the 1600s to the present day The Secularization of Baptism demonstrates that four factors led to the symbolic only position becoming dominant These were suspicion in reaction to Roman Catholicism of the idea of God revealing himself through the physical the influence of the Enlightenment and embarrassment with claims that God could be acting in the world today reaction against the Oxford Movement and reaction against the understanding of baptism advocated by the Disciples of Christ Campbellites The now dominant symbolic only position so focuses attention on what the believer is doing in baptism that God is seen as largely absent from and doing nothing through the rite in effect believers baptism has been secularized A carefully reasoned biblical and theological argument is made for a return to the Regular Particular Baptist view that God is both profoundly spiritually present and active in baptism while at the same time rejecting the sacramentalist position advocated by a small number of mid twentieth and twenty first century Baptists such as H Wheeler Robinson George Beasley Murray Stanley K Fowler and Anthony R Cross *Freedom and the Court* Henry Julian Abraham,Barbara Ann Perry,2003

The Modern/Colonial/Capitalist World-System in the Twentieth Century Ramón Grosfoguel,Ana Margarita Cervantes-Rodríguez,2002-07-30 An important building block for further advancing world system theory this book considers the theory from the perspectives of global processes and antisystemic movements feminist theory and the aftermath of the colonial system The volume addresses three myths tied to Eurocentric forms of thinking objectivist and universalist knowledges the decolonization of the modern world and developmentalism All three myths the authors argue conceal the continued hierarchical and unequal relations of domination and exploitation between European and Euro American centers and non European peripheral regions In this volume world system scholars address these and related aspects of the modern colonial capitalist world system Addressing the myth of universalist knowledge the volume reminds us that our knowledge is situated in the gender class racial and sexual hierarchies of a specific region in the world system while the coloniality of power additionally situates our knowledge The volume further argues that the postcolonial era retains the hierarchy of colonialism and the possibility of national development without global structural changes is one of the greatest 20th century myths Taking these perspectives into consideration the contributors examine and help to refine classic world system theory
