Military Law Review ,1980 **Moisture of the Earth** Mary Robinson,2009 A voice from the margins that refuses to be silenced **Organizing the Breathless** Robert E. Botsch,2014-07-15 In the 1970s textile workers joined forces with a small band of grassroots activists and organizers and challenged the most powerful industrial interest in the heart of Dixie the cotton textile manufacturers They located disabled workers and organized them employing the full range of interest group tactics and they creatively engaged in legislative administrative and judicial lobbying as well as protest actions with remarkable success Robert E Botsch recounts the history of the Brown Lung Association and details the interaction of the major participants in the rise and ultimately the failure of the organization A once all powerful and politically dominant textile industry lost its public relations battle as it lost business to cheaper labor markets abroad Medical researchers policy makers and regulators had difficulty communicating State government regulations often cost workers their health and their means of support Organizers allowed their followers to become too dependent on their ability to raise grant monies Working class southerners found energy and courage in the face of age and sickness but were incapable of the self discipline necessary for successful long term organization Organizing the Breathless reveals the dramatic negative impact of the Reagan years on the disabled workers and their organization and draws lessons from the experience of other interest groups Botsch examines central issues the value of membership incentives the complexities of relationships with organizers and the perennial question of the relative importance of organization versus protest This book will interest political scientists and historians as a strong study of labor issues interest groups and the South Beyond Norma Rae Aimee Loiselle,2023-11-14 In the late 1970s Hollywood producers took the published biography of Crystal Lee Sutton a white southern textile worker and transformed it into a blockbuster 1979 film Norma Rae featuring Sally Field in the title role This fascinating book reveals how the film and the popular icon it created each worked to efface the labor history that formed the foundation of the film s story Drawing on an impressive range of sources union records industry reports film scripts and oral histories Aimee Loiselle s cutting edge scholarship shows how gender race culture film and mythology have reconfigured and often undermined the history of the American working class and its labor activism While Norma Rae constructed a powerful image of individual defiance by a white working class woman Loiselle demonstrates that female industrial workers across the country and from diverse racial backgrounds understood the significance of cultural representation and fought to tell their own stories Loiselle painstakingly reconstructs the underlying histories of working women in this era and makes clear that cultural depictions must be understood as the complicated creations they are Labor Literature United States. Tar Heel Politics 2000 Paul Luebke,2000-11-09 Offering an insightful analysis of North Carolina political trends and personalities Paul Luebke moves beyond the usual labels of Republican and Democrat conservative and liberal In Tar Heel Politics 2000 he argues that North Carolina s real political battle is between two factions of the state s political and economic elite modernizers and traditionalists Modernizers draw their strength from the bankers developers news media and other urban interests that support growth he says Traditionalists in contrast are rooted in small town North Carolina and fundamentalist Protestantism tied to agriculture and low wage industries and threatened by growth and social change Both modernizers and traditionalists are linked with politicians who represent their interests An updated and revised version of Luebke s Tar Heel Politics Myths and Realities 1990 Tar Heel Politics 2000 highlights the resurgence of the southern Republican Party for the first time in a century and discusses a number of significant changes that have occurred over the last decade These include the institutionalization of a viable two party system in the General Assembly the further shift of native born whites throughout the South into the Republican voting column and ideological conflict in North Carolina that parallels to some extent the post 1994 battles between the Republican Congress and the Clinton White House In addition the

book provides a detailed analysis of the political appeal of Senator Jesse Helms and draws on Luebke's insights as a member of the North Carolina State House since 1991 *Encyclopedia of U.S. Labor and Working-class History* Eric Arnesen, 2007

The War On Labor And The Left Patricia Cayo Sexton, 2018-02-05 In all countries labour has war stories to tell but none are so violent as those of American labour Since the 1870s at least 700 workers have been killed and thousands seriously injured in labour disputes Nowhere but in this country have employers so actively fought back against strikes through the use of scabs surveillance and mercenary armies Although much of the violence occurred decades ago author Patricia Sexton contends that this rich history sheds light on questions that still plague observers of the American political system Why has the United States been more conservative in its domestic policies than other Western democracies Why is it almost alone among them in lacking a mass labour or democratic socialist party or the kind of social policies favoured by such parties And why has American labour unionism been in serious decline in recent decades The most familiar answers to these questions involve consensus explanations of what has come to be known as American exceptionalism America is conservative observers say because its citizens have loved capitalism and supported its political policies wholeheartedly or because the nation's open frontier and early voting rights reduced dissent and class consciousness Other explanations focus on various internal constraints said to be unique to the American working class or its organizations such as conflict among diverse immigrants the sectarianism and blunders of leftist groups and the conservatism or incompetence of labour union leadership All of these are said to have prevented labour from carrying out successful conflicts with employers and economic leaders According to Sexton these arguments ignore the remarkable record in American history of labour left struggles the violent suppression of industrial unionism prior to the 1930s legal and forceful repression of trade unionism and destruction by various means of left leaning unions and political organizations Her book explores instead a neglected explanation of American conservatism that of a literal war on labour waged by unusually powerful economic entities using repressive strategies often backed by police and sometimes by federal forces The details of this violent history familiar to labour historians are recounted here in a new perspective emphasizing the impact on workers of conflict sustained over many years But the book is much more than a reinterpretation of this history Patricia Sexton shows how the use of power and repression has played out as well in our institutions of law and government in economic policies and in the media Making these links and showing how America's conservatism is unique among other Western democracies is the contribution of this ambitious book For only by coming to terms with this history of repression and its legacy can we fully understand America's conservatism today **Throwed**

Away Linda Flowers, 1990 Guided by memory and experience reading and conversations Linda Flowers offers a perceptive and often painful rendering of the changes industrialization has brought to her native region of eastern North Carolina since 1960 Entwined with her own narrative of coming of age in the rural South is the story of the undoing of the local way of life brought about by the demise of tenant farming Flowers charts the progress of the first generation to make the transition from farm to factory and records their hopes and dreams of achieving a better life The sixties brought industrialization and sweeping changes in public schooling characterized by integration and large consolidated school systems Ten years later it was apparent that neither the schools nor the factories had yet fulfilled the promise inherent in them The children of that first generation to leave the farm struggled to find and keep even low paying dead end jobs their plight worsening with the rise of the service oriented economy of the 1980s As the author's interviews with students teachers and administrators reveal educational innovations have not meant improvements for all and white flight from public schools to private academies has sometimes sabotaged the goals of integration Flowers finds a generation of displaced families on whom long hours of shift work low wages and abandoned hopes have taken their toll The factories have come and sometimes gone in eastern North Carolina leaving behind a place and its people thrown away

LaTour, 2008-08-04 Sisters in the Brotherhoods is an oral history based study of women who have against considerable odds broken the gender barrier to blue collar employment in various trades in New York City beginning in the 1970s It is a story of the fight against deeply ingrained cultural assumptions about what constitutes women's work the middle class bias of feminism the daily grinding sexism of male co workers and the institutionalised discrimination of employers and unions It is also the story of some gutsy women who seeking the material rewards and personal satisfactions of skilled manual labour have struggled to make a place for themselves among New York City's construction workers stationary engineers firefighters electronic technicians plumbers and transit workers Each story contributes to an important unifying theme the way women confronted the enormous sexism embedded in union culture and developed new organisational forms to support their struggles including and especially the United Tradeswomen
