Rise Of Respectable Society:

The Rise of Respectable Society Francis Michael Longstreth Thompson, 1988 The Rise of Respectable Society offers a new map of this territory as revealed by close empirical studies of marriage the family domestic life work leisure and entertainment in 19th century Britain *The Rise of Respectable Society* Francis M. L. Thompson, 1988

The Origins of Modern Financial Crime Sarah Wilson, 2014-06-05 The recent global financial crisis has been characterised as a turning point in the way we respond to financial crime Focusing on this change and crime in the commercial sphere this text considers the legal and economic dimensions of financial crime and its significance in societal consciousness in twenty first century Britain Considering how strongly criminal enforcement specifically features in identifying the post crisis years as a turning point it argues that nineteenth century encounters with financial crime were transformative for contemporary British societal perceptions of crime and its perpetrators and have lasting resonance for legal responses and societal reactions today The analysis in this text focuses primarily on how Victorian society perceived and responded to crime and its perpetrators with its reactions to financial crime specifically couched within this It is proposed that examining how financial misconduct became recognised as crime during Victorian times makes this an important contribution to nineteenth century history Beyond this the analysis underlines that a historical perspective is essential for comprehending current issues raised by the fight against financial crime represented and analysed in law and criminology as matters of enormous intellectual and practical significance even helping to illuminate the benefits and potential pitfalls which can be encountered in current moves for extending the reach of criminal liability for financial misconduct Sarah Wilson's text on this highly topical issue will be essential reading for criminologists legal scholars and historians alike It will also be of great interest to the general reader The Origins of Modern Financial Crime was short listed for the Wadsworth Prize 2015

Flat Racing and British Society, 1790-1914 Mike Huggins, 2014-06-03 2001 North American Society for Sports History Book of the Year This volume studies the formative period of racing between 1790 and 1914 This was a time when despite the opposition of a respectable minority attendance at horse races betting on horses or reading about racing increasingly became central leisure activities of much of British society *The Routledge History of Sex and the Body* Sarah Toulalan, Kate Fisher, 2013-03-20

The Routledge History of Sex and the Body provides an overview of the main themes surrounding the history of sexuality from 1500 to the present day The history of sex and the body is an expanding field in which vibrant debate on for instance the history of homosexuality is developing This book examines the current scholarship and looks towards future directions across the field The volume is divided into fourteen thematic chapters which are split into two chronological sections 1500 1750 and 1750 to present day Focusing on the history of sexuality and the body in the West but also interactions with a broader globe these thematic chapters survey the major areas of debate and discussion Covering themes such as science identity the gaze courtship reproduction sexual violence and the importance of race the volume offers a comprehensive view

of the history of sex and the body The book concludes with an afterword in which the reader is invited to consider some of the tensions problems and areas deserving further scrutiny Including contributors renowned in their field of expertise this ground breaking collection is essential reading for all those interested in the history of sexuality and the body The Skilled Compositor, 1850-1914 Patrick Duffy,2017-03-02 For the first time since its invention over 500 years ago the print medium is being challenged as the primary means of recording and communicating ideas Indeed within the printing industry itself the advent of digital technology has rendered the craft of hand setting metal type obsolete the days of the skilled compositor are now at an end Patrick Duffy s work sets out to examine the experiences of the skilled compositor in the period 1850 to 1914 Focusing primarily on the workplace and the workplace institutions it aims to explore issues of control co operation and conflict in order to determine if the compositor did as many labour historians claim belong to an aristocracy of labour Drawing on a wide range of source material from trade society minutes to Parliamentary Papers the author explores the diversity of experience that compositors had in the workplace and the uneven patterns of change that the trade experienced The study throws light on some of the issues raised by these changes what part did ancient craft traditions play in the maintenance of control in the workplace Why were women excluded from this particular work when they were accepted in most other parts of the trade To what extent did trade society officials represent the aspirations of the rank and file membership Starting with an overview of the nature growth and development of the trade the book goes on to examine the occupational and social aspects of the compositors experience with a chapter devoted to women s role in the printing trade Finally the formation functions and development of relevant trades unions and employers associations is discussed This insightful analysis of the experience of the skilled compositor provides a valuable case study for labour historians at the same time furthering our understanding of a somewhat neglected aspect of printing history **Anthony Trollope** Andrew Sanders,1998 This study of Anthony Trollope looks particularly at the nature and quality of his political intelligence and at his grasp of processes of manipulation personal interaction media press exploitation and the integration of the private and the public whilst also assessing Trollope s continuing popularity as a writer **Modernity and Bourgeois Life** Jerrold Seigel,2012-04-12 What does it mean to be modern In the nineteenth century a consensus emerged that Western Europe was giving birth to a new form of life in which bourgeois activities people attitudes and values played a key role Jerrold Seigel offers a magisterial account of the development of European modernity **Making Peoples** James Belich,2002-02-28 Now in paper This immensely readable book full of drama and humor as well as scholarship is a watershed in the writing of New Zealand history In making many new assertions and challenging many historical myths it seeks to reinterpret our approach to the past Given New Zealand s small population short history and great isolation the history of the archipelago has been saddled with a reputation for mundanity According to James Belich however it is just these characteristics that make New Zealand a historian s paradise a laboratory whose isolation size and recency is an advantage in which the grand themes of

world history are often played out more rapidly more separately and therefore more discernably than elsewhere The first of two planned volumes Making Peoples begins with the Polynesian settlement and its development into the Maori tribes in the eleventh century It traces the great encounter between independent Maoridom and expanding Europe from 1642 to 1916 including the foundation of the Pakeha the neo Europeans of New Zealand between the 1830s and the 1880s It describes the forging of a neo Polynesia and a neo Britain and the traumatic interaction between them The author carefully examines the myths and realities that drove the colonialization process and suggests a new living version of one of the most critical and controversial documents in New Zealand s history the Treaty of Waitangi frequently described as New Zealand s Magna Carta The construction of peoples Maori and Pakeha is a recurring theme the response of each to the great shift from extractive to sustainable economics their relationship with their Hawaikis or ancestors with each other and with myth Essential reading for anyone interested in New Zealand history and in the history of new societies in general Music and World-Building in the Colonial City Helen English,2020-07-26 Music and World Building in the Colonial City investigates how nineteenth century migrants to Australia used music as a resource for world building focusing on coalmining regions of New South Wales It explores how music making helped British migrants to create communities in unfamiliar country often with little to no infrastructure Its key themes are as follows people s relationships to music within specific contexts how music making intersects with class gender and ethnic background identity through music Situated within a wider discourse on music and identity music and well being and music and emotions this is an authoritative study of historical communities and their relationship with music It will be of particular interest to scholars and researchers working in the fields of sociomusicology colonial studies and cultural studies The Building Society Promise Antoninus Samy,2016-08-18 The permanent building societies of England grew from humble beginnings as a multitude of small and localized institutions in the nineteenth century to become the dominant players in the house mortgage market by the inter war period Throughout the nineteenth and early twentieth centuries the movement cultivated an image of being a champion of home ownership for the working classes but housing historians have questioned whether building societies really lived up to this claim This study fills a major gap in the historiography of the movement by investigating the class profile of building society members and how the design of different building societies affected their accessibility efficiency and risk taking practices between 1880 and 1939 These themes are explored using case studies of several building societies from this period and drawing upon extensive archival records The Building Society Promise shows that building societies did lend to working class households before the First and Second World Wars with some societies showing a greater commitment to working class home ownership than others What ultimately affected the outreach of individual societies was the quality of information they possessed which in turn was largely determined by the types of agency networks they used to find and select borrowers The phenomenal growth of some of these institutions in the inter war period however and the ensuing competition which emerged between them brought

about profound changes in their firm structure which impaired their ability to reach out to lower income households as efficiently as before The findings of this research are relevant to both past and present debates about the optimal design of financial institutions in overcoming social exclusion in credit markets and the deleterious effects that firm growth market competition and managerial self interest can have on their performance and stability *Law and Society in England 1750-1950* William Cornish, Stephen Banks, Charles Mitchell, Paul Mitchell, Rebecca Probert, 2019-10-31 *Law and Society in England 1750 1950* is an indispensable text for those wishing to study English legal history and to understand the foundations of the modern British state In this new updated edition the authors explore the complex relationship between legal and social change They consider the ways in which those in power themselves imagined and initiated reform and the ways in which they were obliged to respond to demands for change from outside the legal and political classes What emerges is a lively and critical account of the evolution of modern rights and expectations and an engaging study of the formation of contemporary social administrative and legal institutions and ideas and the road that was travelled to create them The book is divided into eight chapters Institutions and Ideas Land Commerce and Industry Labour Relations The Family Poverty and Education Accidents and Crime This extensively referenced analysis of modern social and legal history will be invaluable to students and teachers of English law political science and social history **The Shaping of Québec Politics and Society** Gérald Bernier, Daniel Salée, 1992 *Rassesses theories of transition and the social dynamics of white settlers colonies Using colonial Quebec under British rule as their case study the authors demonstrate the social and economic processes that have shaped Quebec* **Gerald Howard-Smith and the 'Lost Generation' of Late Victorian and Edwardian England** John Benson, 2016-11-18 *Gerald Howard Smith's life is intriguing both in its own right and as a vehicle for exploring the world in which he lived Tall boisterous and sometimes rather irascible he was one of the so called Lost Generation whose lives were cut short by the First World War Brought up in London and educated at Eton and Cambridge he excelled both at cricket and athletics After qualifying as a solicitor he moved to Wolverhampton and threw himself into the local sporting scene making a considerable name for himself in the years before the First World War Volunteering for military service in 1914 he was decorated for bravery before being killed in action two years later Reporting his death the War History of the South Staffordshire Regiment claimed that In his men's eyes he lived as a loose limbed hero and in him they lost a very humorous and a very gallant gentleman As well as telling the fascinating story of Gerald Howard Smith for the first time this important new biography explores such complex and important issues as childhood and adolescence class relations sporting achievement manliness and masculinity metropolitan provincial relationships and forms of commemoration It will therefore be of interest to educationalists sports historians local and regional historians and those interested in class gender and civilian military relations indeed all those seeking to understand the economic social and cultural life of late nineteenth and early twentieth century Britain* *Weathering the Storm* Wally Secombe, 1995-12-17 In this challenging sequel to A

Millennium of Family Change Wally Seccombe examines in detail the ways in which large scale economic changes shape the microcosm of personal life

A Treatise on Social Theory Walter Garrison Runciman, 1997-08-28 In this concluding volume of his trilogy on social theory W G Runciman applies to the case of twentieth century English society the methodology distinguishing reportage explanation description and evaluation and theory of the preceding two volumes Volume III shows how England's capitalist mode of production liberal mode of persuasion and democratic mode of coercion evolved in the aftermath of the First World War from what they had been since the 1880s but then did not in turn evolve significantly following the Second World War The explanation rests on an analysis of the selective pressures favouring some economic ideological and political practices over others in an increasingly complex environment neither predictable nor controllable by policy makers This is supported by a graphic account of the changes themselves and how they were experienced by different segments of English society
