questions topics for further research and suggested readings      *A Mirror in the Roadway* Morris Dickstein, 2021-08-10 In a famous passage in *The Red and the Black* the French writer Stendhal described the novel as a mirror being carried along a roadway In the twentieth century this was derided as a naïve notion of realism Instead modern writers experimented with creative forms of invention and dislocation Deconstructive theorists went even further questioning whether literature had any real reference to a world outside its own language while traditional historians challenged whether novels gave a trustworthy representation of history and society In this book Morris Dickstein reinterprets Stendhal's metaphor and tracks the different worlds of a wide array of twentieth century writers from realists like Theodore Dreiser Sinclair Lewis Edith Wharton and Willa Cather through modernists like Franz Kafka and Samuel Beckett to wildly inventive postwar writers like Saul Bellow Günter Grass Mary McCarthy George Orwell Philip Roth and Gabriel García Márquez Dickstein argues that fiction will always yield rich insight into its subject and that literature can also be a form of historical understanding Writers refract the world through their forms and sensibilities He shows how the work of these writers recaptures yet also transforms the life around them the world inside them and the universe of language and feeling they share with their readers Through lively and incisive essays directed to general readers as well as students of literature Dickstein redefines the literary landscape a landscape in which reading has for decades been devalued by society and distorted by theory Having begun with a reconsideration of realism the book concludes with several essays probing the strengths and limitations of a historical approach to literature and criticism      *Small-Town Dreams* John E. Miller, 2014-03-28 We live these days in a virtual nation of cities and celebrities dreaming a small town America rendered ever stranger by purveyors of nostalgia and dark visionaries from Sherwood Anderson to David Lynch And yet it is the small town that world of local character and neighborhood lore that dreamed the America we know today and the small town boy like those whose stories this book tells who made it real In these life stories beginning in 1890 with frontier historian Frederick Jackson Turner and moving up to the present with global shopkeeper Sam Walton a history of middle America unfolds as entrepreneurs and teachers like Henry Ford George Washington Carver and Walt Disney artists and entertainers like Thomas Hart Benton Grant Wood Carl Sandburg and Johnny Carson political figures like William McKinley William Jennings Bryan and Ronald Reagan and athletes like Bob Feller and John Wooden by turns engender and illustrate the extraordinary cultural shifts that have transformed the Midwest and through the Midwest the nation and the world Many of these men are familiar icons even Ford and Reagan certainly Ernie Pyle Sinclair Lewis James Dean and Lawrence Welk and others like artists Oscar Micheaux and John Stuart Curry economist Alvin Hansen and composer Meredith Willson less so But in their stories as John E Miller tells them all appear in a new light unique in their backgrounds and accomplishments united only in the way their lives reveal the persisting shaping power of place and particularly the Midwest on the cultural imagination and national consciousness In a thoroughly engaging style Miller introduces us to the small town Midwestern boys who became these all American

characters privileging us with insights that pierce the public images of politicians and businessmen thinkers and entertainers alike From the smell of the farm the sounds and silences of hamlets and county seats the schoolyard athletics and classroom instruction and theatrical performance we follow these men to their moments of inspiration innovation and fame observing the workings of the small town past in their very different relationships with the larger world Their stories reveal in an intimate way how profoundly childhood experiences shape personal identity and how deeply place figures in the mapping of thought belief ambition and life s course

**Modernism and the Culture of Efficiency** Evelyn Cobley,2009-01-01 Cobley s close readings of modernist British fiction by writers as diverse as Aldous Huxley Joseph Conrad and E M Forster identify characters whose attitudes and behaviour patterns indirectly manifest cultural anxieties that can be traced to the conflicted logic of efficiency **Small, Gritty, and Green** Catherine Tumber,2013-09-13 How small to midsize Rust Belt cities can play a crucial role in a low carbon sustainable and relocalized future America s once vibrant small to midsize cities Syracuse Worcester Akron Flint Rockford and others increasingly resemble urban wastelands Gutted by deindustrialization outsourcing and middle class flight disproportionately devastated by metro freeway systems that laid waste to the urban fabric and displaced the working poor small industrial cities seem to be part of America s past not its future And yet Catherine Tumber argues in this provocative book America s gritty Rust Belt cities could play a central role in a greener low carbon relocalized future As we wean ourselves from fossil fuels and realize the environmental costs of suburban sprawl we will see that small cities offer many assets for sustainable living not shared by their big city or small town counterparts including population density and nearby fertile farmland available for new environmentally friendly uses Tumber traveled to twenty five cities in the Northeast and Midwest from Buffalo to Peoria to Detroit to Rochester interviewing planners city officials and activists and weaving their stories into this exploration of small scale urbanism Smaller cities can be a critical part of a sustainable future and a productive green economy Small Gritty and Green will help us develop the moral and political imagination we need to realize this Suffering For Science Rebecca Herzig,2005-10-17 From gruesome self experimentation to exhausting theoretical calculations stories abound of scientists willfully surrendering health well being and personal interests for the sake of their work What accounts for the prevalence of this coupling of knowledge and pain and for the peculiar assumption that science requires such suffering In this lucid and absorbing history Rebecca M Herzig explores the rise of an ethic of self sacrifice in American science Delving into some of the more bewildering practices of the Gilded Age and the Progressive Era she describes when and how science the supposed standard of all things judicious and disinterested came to rely on an enthralled investigator willing to embrace toil danger and even lethal dismemberment With attention to shifting racial sexual and transnational politics Herzig examines the suffering scientist as a way to understand the rapid transformation of American life between the Civil War and World War I 3 Suffering for Science reveals more than the passion evident in many scientific vocations it also illuminates a nation s changing understandings of the purposes of suffering the limits of reason and the nature of freedom in the aftermath of slavery
