**Rising from the Ruins** Bruce C. Swaffield, 2009-10-02 The neoclassic tendency to write about the ruins of Rome was both an attempt to recapture the grandeur of the golden age of man and a lament for the passing of a great civilization John Dyer who wrote *The Ruins of Rome* in 1740 was largely responsible for the eighteenth century revival of a unique subgenre of landscape poetry dealing with ruins of the ancient world Few poems about the ruins had been written since Antiquit s de Rome in 1558 by Joachim Du Bellay Dyer was one of first neoclassic poets to return to the decaying stones of a past society as a source of poetic inspiration and imagination He views the relics as monuments of grandeur and greatness but also of impending death and destruction While following most of the rules and standards of neoclassicism that of imitating nature and giving pleasure to a reader Dyer also includes his personal reactions and emotions in *The Ruins of Rome* The work is composed from the position of a poet who serves as interpreter and translator of the subject a primary characteristic of prospect poetry in the eighteenth century Numerous other writers quickly followed Dyer s example including George Keate William Whitehead and William Parsons The tendency by these poets to write about the ruins of Rome from a subjective point of view was one of the strongest themes in what Northrop Frye has called the Age of Sensibility Although the renewed interest in Roman ruins lasted well into the nineteenth century influencing Romantic poets from Lord Byron to William Wordsworth the evolution of this type of verse was a gradual process it originated with Du Bellay s poem continued through seventeenth century paintings by Claude Lorrain and Salvator Rosa along with the later art of Piranesi and Pannini and reached maturity with the poetic interest in the imagination in the eighteenth century All of these factors especially the tendency of poets to record their subjective feelings and insights concerning the ruins are elements that proved to be instrumental in the eventual development of Romanticism [The Collapse of Darwinism, Or, The Rise of a Realist Theory of Life](#)

Graeme Donald Snooks, 2003-01-01 In this provocative work noted social and economic theorist Graeme D Snooks exposes fatal flaws in the foundations of the Darwinian theory of evolution Further he develops a remarkable replacement theory of evolution The new dynamic strategy theory views life as a strategic pursuit rather than a game of chance in which organisms adopt dynamic strategies only one of which is genetic change to survive and prosper This theory reveals the organism as empowered rather than as the plaything of gods genes or blind chance And it provides a powerful new basis for humanism **Ruins of Ancient Cities With General and Particulr Accounts of Their Rise, Fall and Present**

**Condition (Vol. I of II)** Charles Bucke, **Under the Red Banner** Elvira Grözinger, Magdalena Ruta, 2008 The majority of European Yiddish speaking Jews was murdered by Hitler s National Socialists their cultural realm was destroyed After the war the Communist regimes suppressed Jewish culture but despite emigration of Jewish survivors small Jewish communities continued to exist and made efforts to revive their culture in most of the Communist countries Jewish organizations clubs cultural societies and theatres were founded and a great number of Yiddish books newspapers and periodicals were printed

despite political pressure hostility and persecution The cultural activity which developed under the red banner cannot of course be compared to the immense impact the Yiddish culture experienced before the Second World War but it was an important phenomenon in Jewish history which remained uninvestigated for a long time and has not been described in a proper way until today This volume of seventeen essays is a collection of papers delivered by scholars from the USA Sweden Israel Germany and Poland at the conference on Yiddish Culture in the Communists Countries in the Postwar Era which was organized at the Jagiellonian University Cracow in cooperation with the University of Potsdam in November 2006

*Mexico's Ruins* Raúl Rodríguez-Hernández, 2012-02-01 At face value the concept of modernity seems to reference a stream of social and historical traffic headed down a utopian one-way street named progress Mexico's Ruins examines modernity in twentieth-century Mexican culture as a much more ambiguous concept arguing that such a single-minded notion is inadequate to comprehend the complexity of modern Mexico's national projects and their reception by the nation's citizenry Instead through the trope of modernity as ruin author Raúl Rodríguez-Hernández explores the dilemma presented by the etymology of ruins a simultaneous falling down and rising up a confluence of opposing forces at work on the skyline of the metropolis since 1968 He focuses on artists and writers of the *generación de medio siglo* like Juan García Ponce and envisions both the tales of modernity and their storytellers in a new light The arts literature and architecture of twentieth-century Mexico are all examined in this cross-cultural and interdisciplinary book
