Risk-Based Contaminated Land Investigation and Assessment Judith Petts, Thomas Cairney, Mike Smith, 1997-10-07

Unique in its approach this book highlights good practice in terms of site investigation and assessment as an aid to raising standards through effective education and training of young professionals      Management of Contaminated Site Problems, Second Edition Kofi Asante-Duah, 2019-04-12 This book outlines the strategies used in the investigation characterization management and restoration and remediation for various contaminated sites It draws on real world examples from across the globe to illustrate remediation techniques and discusses their applicability It provides guidance for the successful corrective action assessment and response programs for any type of contaminated land problem and at any location The systematic protocols presented will aid environmental professionals in managing contaminated land and associated problems more efficiently This new edition adds twelve new chapters and is fully updated and expanded throughout      *Sustainable Brownfield Regeneration* Tim Dixon, Mike Raco, Philip Catney, David N. Lerner, 2008-04-15 Sustainable Brownfield Regeneration presents a comprehensive account of UK policies processes and practices in brownfield regeneration and takes an integrated and theoretically grounded approach to highlight best practice Brownfield regeneration has become a major policy driver in developed countries It is estimated that there are 64 000 hectares of brownfield land in England much of which presents severe environmental challenges and lies alongside some of the most deprived communities in the country Bringing such land back into active use has taken on a new urgency among policymakers developers and other stakeholders in the development process Frequently however policy thinking and practice has been underpinned by silo mentalities in which integrated and multidisciplinary approaches to problem solving have been limited The book has two principal aims The first is to examine the ways in which science and social science research disciplines can be brought together to help solve important brownfield regeneration issues with a focus on the UK The second is to assess the efficiency and effectiveness of different types of regeneration policy and practice and to show how liveable spaces can be produced from problem places The Thames Gateway in the south of England and Greater Manchester in the North of England are shown as examples of how brownfield regeneration projects are developing in an era where sustainability is high on the policy agenda From the Foreword by Paul Syms National Brownfield Advisor English Partnerships Ensuring the effective and efficient reuse of brownfield land is an essential part of the British Government s land use policies in support of sustainable communities This book recognises that reusing brownfield land is not just about over coming technical issues to remove contamination or other physical problems with the ground It highlights the importance of engaging with the many different stakeholders whose opinions and concerns need to be taken into account if sustainable outcomes are to be achieved The authors also recognise that brownfield land reuse is not just about building new homes or places of employment the creation of new green spaces can be just as important      *Waste Management and Minimization* Stephen R. Smith, Chris Cheeseman, Nick

Blakey,2009-09-17 Waste Management and Minimization theme is a component of Encyclopedia of Environmental and Ecological Sciences Engineering and Technology Resources in the global Encyclopedia of Life Support Systems EOLSS which is an integrated compendium of twenty one Encyclopedias The book on Waste Management and Minimization contains contributions from distinguished experts in the field discusses waste treatment management and minimization This volume is aimed at the following five major target audiences University and College students Educators Professional practitioners Research personnel and Policy analysts managers and decision makers and NGOs
