Rites Of Assent:

The Rites of Assent Sacvan Bercovitch, 2014-01-14 The Rites of Assent examines the cultural strategies through which America served as a vehicle simultaneously for diversity and cohesion fusion and fragmentation Taking an ethnographic cross cultural approach The Rites of Assent traces the meanings and purposes of America back to the colonial typology of mission and specifically in chapters on Puritan rhetoric Cotton Mather Jonathan Edwards and the movement from Revival to **Rites of Assent** Sacvan Bercovitch,1992 Revolution to the legacy of early New England Mahdī 'Abd al-Hakīm 'Abd al-Ġanī Muhammad Oāsim, 1996 Rites of Assent 'Abd al-Ḥakīm Qāsim,1995 Two novellas by the late Egyptian writer The first Al Mahdi is on the forcible conversion of a Christian to Islam while Good News from Afterlife is on a man who meets Rites of Assent Abd al Hakim Oasim, 1995 Ruthless Democracy Timothy B. Powell, 2021-03-09 angels after his death In Ruthless Democracy Timothy Powell reimagines the canonical origins of American identity by juxtaposing authors such as Hawthorne Melville and Thoreau with Native American African American and women authors Taking his title from Melville Powell identifies an unresolvable conflict between America's multicultural history and its violent will to monoculturalism Powell challenges existing perceptions of the American Renaissance the period at the heart of the American canon and its evolutions by expanding the parameters of American identity Drawing on the critical traditions of cultural studies and new historicism Powell invents a new critical paradigm called historical multiculturalism Moving beyond the polarizing rhetoric of the culture wars Powell grounds his multicultural conception of American identity in careful historical analysis Ruthless Democracy extends the cultural and geographical boundaries of the American Renaissance beyond the northeast to Indian Territory Alta California and the transnational sphere that Powell calls the American Diaspora Arguing for the inclusion of new works Powell envisions the canon of the American Renaissance as a fluid dialogue of disparate cultural voices We the People Tommy Givens, 2014-10-01 We the People explores John Howard Yoder's account of peoplehood and develops an appreciative revision that considers the politics of Jesus in relation to the people of Israel This revision articulates the theopolitical stakes in relation to the modern nation state s claims to peoplehood and the observable effects of its exegetical and historical moorings in self assertion as the new and purified Israel Tommy Givens then undertakes a critical engagement with Karl Barth's account of God's election and a theologically sensitive exeges of key biblical texts in dialogue with Carl Schmitt Jacob Taubes and N T Wright Exodus! Michael P Kramer, Professor Nan Goodman, 2013-05-28 Playing on the frequently used metaphors of the turn toward or turn back in scholarship on religion The Turn Around Religion in America offers a model of religion that moves in a reciprocal relationship between these two poles In particular this volume dedicates itself to a reading of religion and of religious meaning that cannot be reduced to history or ideology on the one hand or to truth or spirit on the other but is rather the product of the constant play between the historical particulars that manifest beliefs and the beliefs that take shape through them Taking as their point of departure the foundational scholarship of Sacvan Bercovitch the contributors locate the universal in the ongoing and particularized attempts of American authors from the seventeenth century forward to get it whatever that it might be right Examining authors as diverse as Pietro di Donato Herman Melville Miguel Algarin Edward Taylor Mark Twain Robert Keavne Nathaniel Hawthorne Paule Marshall Stephen Crane Ralph Waldo Emerson and Joseph B Soloveitchik among many others and a host of genres from novels and poetry to sermons philosophy history journalism photography theater and cinema the essays call for a discussion of religion s powers that does not seek to explain them as much as put them into conversation with each other Central to this project is Bercovitch's emphasis on the rhetoric ritual typology and symbology of religion and his recognition that with each aesthetic enactment of religion s power we learn The Turn Around Religion in America Michael P. Kramer, 2016-02-24 Playing on the frequently used metaphors of the turn toward or turn back in scholarship on religion The Turn Around Religion in America offers a model of religion that moves in a reciprocal relationship between these two poles In particular this volume dedicates itself to a reading of religion and of religious meaning that cannot be reduced to history or ideology on the one hand or to truth or spirit on the other but is rather the product of the constant play between the historical particulars that manifest beliefs and the beliefs that take shape through them Taking as their point of departure the foundational scholarship of Sacvan Bercovitch the contributors locate the universal in the ongoing and particularized attempts of American authors from the seventeenth century forward to get it whatever that it might be right Examining authors as diverse as Pietro di Donato Herman Melville Miguel Algarin Edward Taylor Mark Twain Robert Keayne Nathaniel Hawthorne Paule Marshall Stephen Crane Ralph Waldo Emerson and Joseph B Soloveitchik among many others and a host of genres from novels and poetry to sermons philosophy history journalism photography theater and cinema the essays call for a discussion of religion s powers that does not seek to explain them as much as put them into conversation with each other Central to this project is Bercovitch's emphasis on the rhetoric ritual typology and symbology of religion and his recognition that with each aesthetic enactment of religion s power At Emerson's Tomb John Carlos Rowe, 1997 Challenges the conventional critical reading of the we learn something new American poetic project as an engagement with or reaction against Emersonian thought Rowe demonstrates how ideals of individualism intellectualism and otherworldiness inevitably undermine any political effectiveness that a writer may seek to achieve You, the People Vanessa B. Beasley, 2011-11-07 New in paperback As we ask anew in these troubled times what it means to be an American You the People provides perspective by casting its eye over the answers given by past U S presidents in their addresses to the public Who is an American and who is not And yet as Vanessa Beasley demonstrates in this eloquent exploration of a century of presidential speeches the questions are not new Since the Founders first identified the nation as we the people the faces and accents of U S citizens have changed dramatically due to immigration and other constitutive changes U S presidents have often spoken as if there were one monolithic American people Here Beasley traces rhetorical constructions of American national identity in presidents inaugural addresses and state of the union messages from 1885 through 2000 She argues convincingly that while the demographics of the voting citizenry changed rapidly during this period presidential definitions of American national identity did not Chief executives have consistently employed a rhetoric of American nationalism that is simultaneously inclusive and exclusive Beasley examines both the genius and the limitations of this language Riot and Revelry in Early America William Pencak, Matthew Dennis, 2010-11-01 Riot and revelry have been mainstays of English and European history writing for more than a generation but they have had a more checkered influence on American scholarship Despite considerable attention from new left historians during the 1970s and early 1980s and more recently from cultural and public sphere historians in the mid 1990s the idea of America as a colony and nation deeply infused with a culture of public performance has not been widely demonstrated the way it has been in Britain France and Italy In this important volume leading American historians demonstrate that early America was in fact an integral part of a broader transatlantic tradition of popular disturbance and celebration. The first half of the collection focuses on rough music and skimmington forms of protest whereby communities publicly regulated the moral order The second half considers the use of parades and public celebrations to create national unity and overcome divisions in the young republic Contributors include Roger D Abrahams Susan Branson Thomas J Humphrey Susan E Klepp Brendan McConville William D Piersen Steven J Stewart and Len Travers Together the essays in this volume offer the best introduction to the full range of protest and celebration in America from the Revolution to the Civil War An Angel Directs the Storm Michael Northcott, 2004-09-24 This passionately argued book provides the first in depth investigation of the religious politics of current American neo conservatism It shows that behind the neo imperialism of the White House and George W Bush lies an apocalyptic vision of the United States s sacred destiny at the end of history a vision that is shared by millions of Americans Michael Northcott traces the roots of American apocalyptic to Puritan Millennialism and contemporary fundamentalist readings of the Book of Revelation He suggests that Americans urgently need to recover a critique of Empire of the kind espoused by the founder of Christianity or else risk becoming idolaters of a new Roman Empire that leads others into servitude Edwards the Mentor Rhys S. Bezzant, 2019-06-17 Among his many accomplishments Jonathan Edwards was an effective mentor who trained many leaders for the church in colonial America but his pastoral work is often overlooked Rhys S Bezzant investigates the background method theological rationale and legacy of his mentoring ministry Edwards did what

mentors normally do he met with individuals to discuss ideas and grow in skills But Bezzant shows that Edwards undertook these activities in a distinctly modern or affective key His correspondence is written in an informal style his understanding of friendship and conversation takes up the conventions of the great metropolitan cities of Europe His pedagogical commitments are surprisingly progressive and his aspirations for those he mentored are bold and subversive When he explains his mentoring practice theologically he expounds the theme of seeing God face to face summarized in the concept of the beatific vision which recognizes that human beings learn through the example of friends as well as through the exposition of propositions In this book the practice of mentoring is presented as an exchange between authority and agency in which the more experienced person empowers the other whose own character and competencies are thus nurtured More broadly the book is a case study in cultural engagement for Edwards deliberately takes up certain features of the modern world in his mentoring and yet resists other pressures that the Enlightenment generated If his world witnessed the philosophical evacuation of God from the created order then Edwards s mentoring is designed to draw God back into an intimate Politics and Skepticism in Antebellum American Literature Dominic connection with human experience Mastroianni, 2014-10-23 This volume explores the way in which antebellum American writers perceived the political implications of modern philosophical skepticism Dominic Mastroianni offers new readings of six major American authors Emerson Melville Hawthorne Dickinson Douglass and Jacobs and illumines their thinking about revolution civil war and the world s susceptibility to transformation <u>Fathering the Nation</u> Russ Castronovo, 2023-11-10 Russ Castronovo underscores the inherent contradictions between America's founding principles of freedom and the reality of slavery in a book that probes mid nineteenth century representations of the founding fathers He finds that rather than being coherent and consensual narratives of nationhood are inconsistent ambivalent and ironic He examines competing expressions of national memory in a wide range of mid nineteenth century artifacts slave autobiography classic American fiction monumental architecture myths of the Revolution proslavery writing and landscape painting Castronovo theorizes a new American cultural studies which takes into consideration what Toni Morrison calls the Africanist presence that permeates American literature He presents a genealogy that recovers those members of the national family whose status challenges the body politic and its history The forgotten orphans in Melville's Moby Dick and Israel Potter the rebellious slaves in the work of Frederick Douglass and William Wells Brown the citizens afflicted with amnesia in Lincoln's speeches and the dispossessed sons in slave narratives all provide dissenting voices that provoke insurrectionary plots and counter memories Viewed here as a miscegenation of stories the narrative of America resists being told of an intelligible story of uncontested descent National identity rests not on rituals of consensus but on repressed legacies of parricide and rebellion This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed

scholarship accessible once again using print on demand technology This title was originally published in 1995 The Plain and Noble Garb of Truth Eileen K. Cheng, 2008 American historians of the early national period argues Eileen Ka May Cheng grappled with objectivity professionalism and other modern issues to a greater degree than their successors in later generations acknowledge Her extensive readings of antebellum historians show that by the 1820s a small but influential group of practitioners had begun to develop many of the doctrines and concerns that undergird contemporary historical practice The Plain and Noble Garb of Truth challenges the entrenched notion that America's first generations of historians were romantics or propagandists for a struggling young nation Cheng engages with the works of well known early national historians like George Bancroft William Prescott and David Ramsay such lesser known figures as Jared Sparks and Lorenzo Sabine and leading political and intellectual elites of the day including Francis Bowen and Charles Francis Adams She shows that their work which focused on the American Revolution was often nuanced and surprisingly sympathetic in its treatment of American Indians and loyalists She also demonstrates how the rise of the novel contributed to the emergence of history as an autonomous discipline arguing that paradoxically early national historians at once described truth in opposition to the novel and were influenced by the novel in their understanding of truth Modern historians should recognize that the discipline of history is itself a product of history says Cheng By taking seriously a group of too often dismissed historians she challenges contemporary historians to examine some ahistorical aspects of the way they understand their own discipline Situation Robert T. Tally Jr, 2023-03-14 The Critical Situation Vexed Perspectives in Postmodern Literary Studies comprises a selection of essays that register the situatedness of critical theory and practice amid various intellectual institutional and cultural contexts This book offers examples of situated criticism which in turn are concerned with the ways in which literary and cultural criticism are and have been situated in relation to a variety of ideological and institutional structures including those of world literature American studies spatial literary studies cultural critique globalization and postmodernity These structures influence the ways that criticism is practiced and due recognition of their continuing effects is crucial to the success of any meaningful critical practice in the twenty first century

Levinas and the Cinema of Redemption Sam B. Girgus, 2010-04-13 In his philosophy of ethics and time Emmanuel Levinas highlighted the tension that exists between the ontological adventure of immediate experience and the ethical adventure of redemptive relationships associations in which absolute responsibility engenders a transcendence of being and self In an original commingling of philosophy and cinema study Sam B Girgus applies Levinas s ethics to a variety of international films His efforts point to a transnational pattern he terms the cinema of redemption that portrays the struggle to connect to others in redeeming ways Girgus not only reveals the power of these films to articulate the crisis between ontological identity and ethical subjectivity He also locates time and ethics within the structure and content of film itself Drawing on the work of Luce Irigaray Tina Chanter Kelly Oliver and Ewa Ziarek Girgus reconsiders Levinas and his relationship to film engaging with a feminist focus on the sexualized female body

Girgus offers fresh readings of films from several decades and cultures including Frank Capra s Mr Smith Goes to Washington 1939 Federico Fellini s La dolce vita 1959 Michelangelo Antonioni s L avventura 1960 John Huston s The Misfits 1961 and Philip Kaufman s The Unbearable Lightness of Being 1988
