Among Women Nancy Sorkin Rabinowitz, Lisa Auanger, 2009-06-03 Women's and men's worlds were largely separate in ancient Mediterranean societies and in consequence many women's deepest personal relationships were with other women Yet relatively little scholarly or popular attention has focused on women's relationships in antiquity in contrast to recent interest in the relationships between men in ancient Greece and Rome The essays in this book seek to close this gap by exploring a wide variety of textual and archaeological evidence for women's homosocial and homoerotic relationships from prehistoric Greece to fifth century CE Egypt Drawing on developments in feminist theory gay and lesbian studies and queer

theory as well as traditional textual and art historical methods the contributors to this volume examine representations of women's lives with other women their friendships and sexual subjectivity They present new interpretations of the evidence offered by the literary works of Sappho Ovid and Lucian Bronze Age frescoes and Greek vase painting funerary reliefs and other artistic representations and Egyptian legal documents Ritual, Performance, and Politics in the Ancient Near East Lauren Ristvet, 2015 In this book Lauren Ristvet rethinks the narratives of state formation by investigating the interconnections between ritual performance and politics in the ancient Near East She draws on a wide range of archaeological iconographic and cuneiform sources to show how ritual performance was not set apart from the real practice of politics it was politics Rituals provided an opportunity for elites and ordinary people to negotiate political authority Descriptions of rituals from three periods explore the networks of signification that informed different societies From circa 2600 to 2200 BC pilgrimage made kingdoms out of previously isolated villages Similarly from circa 1900 to 1700 BC commemorative ceremonies legitimated new political dynasties by connecting them to a shared past Finally in the Hellenistic period the traditional Babylonian Akitu festival was an occasion for Greek speaking kings to show that they were Babylonian and for Babylonian priests to gain significant power The Local Horizon of Ancient Greek Religion Hans Beck, Julia Kindt, 2023-04-13 Which dimensions of the religious experience of the ancient Greeks become tangible only if we foreground its local horizons This book explores the manifold ways in which Greek religious beliefs and practices are encoded in and communicate with various local environments Its individual chapters explore the local in its different forms and formulations Besides the polis perspective they include numerous other places and locations above and below the polis level as well as those fully or largely independent of the city state Overall the local emerges as a relational concept that changes together with our understanding of the general or universal forces as they shape ancient Greek religion The unity and diversity of ancient Greek religion becomes tangible in the manifold ways in which localizing and generalizing forces interact with each other at different times and in different places across the ancient Greek world *Bronze Age Aegean Ritual Watercraft Imagery: An Iconographic Analysis* Jacquelyn C Hewett, 2022 The importance of watercraft to the Bronze Age Aegeans is undeniable especially in terms of subsistence and maritime exchange A relatively understudied aspect however is their importance relating to religious rituals The study of these ritual watercraft is limited to iconography but that does not diminish their analytical potential This research therefore aims to better understand a particular subset of Bronze Age Aegean watercraft imagery Twelve linear and glyptic images from Crete Akrotiri and the Greek mainland dating from roughly 1700 to 1100 B C have been selected for this study Utilizing prehistoric iconographical analysis these images not only meet this study's criteria of classifying attributes depicting ritual ship imagery but also comprise a subcorpus of images depicting a unified iconographic theme of a female figure and tree in a boat After comparing this subcorpus to Near Eastern Bronze Age imagery and textual evidence dating roughly 2300 to 1000 B C this study suggests that the referent in these Aegean

images is an important Aegean deity with qualities similar to the Levantine goddess identified as Asherah in the Iron Age The implications of this study lead to a more well rounded understanding of the elites who promoted the iconography of this Aegean deity *Divine Images and Human Imaginations in Ancient Greece and Rome* ,2015-08-27 The polytheistic religious systems of ancient Greece and Rome reveal an imaginative attitude towards the construction of the divine One of the most important instruments in this process was certainly the visualisation Images of the gods transformed the divine world into a visually experienceable entity comprehensible even without a theoretical or theological superstructure For the illiterates images were together with oral traditions and rituals the only possibility to approach the idea of the divine for the intellectuals images of the gods could be allegorically transcended symbols to reflect upon Based on the art historical and textual evidence this volume offers a fresh view on the historical literary and artistic significance of divine images as powerful visual media of religious and intellectual communication Metaphysis Eva Alram-Stern,Fritz Blakolmer,Sigrid Deger-Jalkotzy,Robert Laffineur,Jörg Weilhartner,2016 The topic of the 15th International Aegean Conference has been inspired by one of Vienna s most prominent residents Sigmund Freud In Aegean prehistory questions of ritual behaviour and underlying metaphysical beliefs have become a widespread and multifaceted field of research based on a large variety of methodological approaches At the METAPHYSIS conference a large range of issues of ritual myth and symbolism in the Aegean Bronze Age were addressed such as ritual places and ritual landscapes sacral and sepulchral rituals social and political ceremonies ritual acts and performances the supernatural realm liminality irrationality and magic mythology hybrid creatures heroes heroines divinities symbols emblems and iconography images of power and cosmology Thus METAPHYSIS was dedicated to the complex relationship between humans and the other the broad scholarly interface between a popular ritual belief and the cult of deities i e religion in its proper sense Ritual and Archaic States Murphy, Joanne M,2016-08-24 While ritual and archaic states have both been prominent topics in recent archaeological studies this is the first volume to combine both subjects by exploring the varying nature expression and significance of ritual in archaic states It compares archaic rituals across many different cultures Vijayanagara Swahili Lamu Venice Asante Aztec Ming China Oaxaca Greece Inca Wari and Chaco The contributors posit that the nature of rituals the level of investment in rituals and their sociopolitical significance can vary greatly from state to state even among societies with similar levels of social complexity population and spatial distribution Highlighting the importance of ritual as an inherent part of a cultural narrative and demonstrating how the study of ritual enables a better understanding of diverse social groups this volume shows how the location frequency and role of ritual differed significantly across archaic states Cultural Identity in Minoan Crete Ellen Adams,2017-09-07 A comprehensive account of the Palaces control networks and spatial dynamics of Neopalatial Crete the floruit of the Minoan civilization **Philistor** Philip P. Betancourt,Eleni Mantzourani,2012-09-30 Contributions by 37 scholars are brought together here to create a volume in honor of the long and fruitful career of Costis Davaras former Ephor of Crete and
