Irish Modernism and the Politics of Sexual Health Lloyd (Meadhbh) Houston, 2023 *Irish Modernism and the Politics of Sexual Health* explores the politicized role of sexual health as a concept, discourse, and subject of debate within Irish literary culture from 1880 to 1960. Combining perspectives from Irish Studies, Modernist Studies, and the Social History of Medicine, it traces the ways in which authors, politicians, and activists in nineteenth and twentieth-century Ireland harnessed debates over sexual hygiene, venereal disease, birth control, fertility, and eugenics to envisage competing models of Irish identity, culture, and political community. Analyzing the work of canonical authors Yeats, Synge, Shaw, Joyce, Beckett, Flann O'Brien, and less often discussed figures George Moore, Oliver Gogarty, Signe Toksvig, and Kate O'Brien in conversation with medical, scientific, and legal writing on sexual health, it charts how the medicalization and politicization of sex informed the emergence and development of modernism in Ireland. At the same time, by reading this literary material alongside the polemical and journalistic writing of figures such as Arthur Griffith, Maud Gonne, and Hanna Sheehy Skeffington, it also reveals the ways in which key events in Irish cultural and political history—the Parnell Split, the Limerick Pogrom, the Playboy riots, the passage of the Censorship of Publications Act—were shaped by ongoing debates and dilemmas in the field of sexual health. This book will benefit students, researchers, and readers interested in the history of sex and its regulation in modern Ireland, the impact of sex and medicine on Irish political history, and the nature of modernism's engagement with sex, health, and the body.

Occasions of Sin Diarmaid Ferriter, 2010-07-09 Ferriter covers such subjects as abortion, pregnancy, celibacy, contraception, censorship, infanticide, homosexuality, prostitution, marriage, popular culture, social life, and the various hidden Irelands associated with sexual abuse, all in the context of a conservative official morality backed by the Catholic Church and by legislation. The book energetically and originally engages with subjects omitted from the mainstream historical narrative. The breadth of this book and the richness of the source material uncovered make it definitive in its field and a most remarkable work of social history.

Sexuality and Gender in Postcommunist Eastern Europe and Russia Edmond J. Coleman, Theo Sandfort, 2014-05-22 Important new findings on sex and gender in the former Soviet Bloc. *Sexuality and Gender in Postcommunist Eastern Europe and Russia* is a groundbreaking look at the new sexual reality in Central Eastern and Southeast Europe after the fall of communism. The book presents the kind of candid discussion of sexual identities, sexual politics, and gender arrangements that was often censored and rarely discussed openly before the breakup of the Soviet Union in 1987. Authors from a variety of disciplines examine how the changes caused by rapid economic and social transformation have affected human sexuality and if those changes can generate the social tolerance necessary to produce a well-rooted democracy. The first theoretical and empirical body of work to sexuality in post-transitional countries. *Sexuality and Gender in Postcommunist Eastern Europe and Russia* examines the effects of the profound social transformation taking place in the former Soviet Union. Through an interdisciplinary

perspective the book addresses vital issues of this transformation including gender relations gender roles and sex norms in transition sexual representations in the media patterns of adult sexual behavior gay and lesbian issues sex trafficking health risks and sex education The book also presents a critical examination of whether the fall of communism has in fact induced changes in sexuality and gender relations Sexuality and Gender in Postcommunist Eastern Europe and Russia examines the changes in sex and gender in countries in transition including the negative consequences of Serbia's state directed non development during the 1990s the causes and consequences of trafficking in women from the Russian Federation the ongoing debate over human rights for sexual minorities in Romania the effects of two Yugoslavian films released in the 1990s that feature transgender characters sexualities in transition in Croatia problems created by changes in sexual behavior among urban Russian adolescents the social and legal state of lesbians in Slovenia Sexuality and Gender in Postcommunist Eastern Europe and Russia fills in the gap in the current knowledge and understanding of the effects of the profound social changes taking place in Central Eastern and Southeast Europe The book is an essential read for academics and researchers working in gender studies political science and gay and lesbian studies Handy tables and figures make the information easy to access and understand

Regenerating England Christopher Lawrence, Anna-K. Mayer, 2000 In the inter war years there was much debate in Britain as to whether the best path to post World War I regeneration would be found in the promises of science and technology in continued and increased efficiency in specialization and professionalization or whether the future of the nation depended on a rediscovery of older and more authentic ways of doing things on a defiant anti modernism This debate on Britain's future was often conducted in terms of Englishness and the rebirth of a lost more spiritual village England However Englishness also entered inter war social thinking through eclectic assimilations of diverse traditions Prominent themes in the discourses on Britain's post war regeneration include national character citizenship fitness education utopia community and so on The chapters in the present volume address these themes and break new ground by examining debates well known in political and literary history through their relations to science medicine architecture and ideas of social and political health

Magnus Hirschfeld Ralf Dose, 2014 Magnus Hirschfeld 1868 1935 was one of the first great pioneers of the gay liberation movement Revered by such gay icons as Christopher Isherwood and Harry Hay founder of the Mattachine Society Hirschfeld's legacy resonates throughout the twentieth century and around the world Guided by his motto Through Science Toward Justice Hirschfeld helped found the Scientific Humanitarian Committee in Germany to defend the rights of homosexuals and develop a scientific framework for sexual equality He was also an early champion of women's rights campaigning in the early 1900s for the decriminalization of abortion and the right of female teachers and civil servants to marry and have children By 1933 Hirschfeld's commitment to sexual liberation made him a target for the Nazis and they ransacked his Institute for Sexual Research and publicly burned his books This biography first published to acclaim in Germany follows Hirschfeld from his birth in the Prussian province of Pomerania to the heights of his career

during the Weimar Republic and the rise of German fascism Ralf Dose illuminates Hirschfeld's ground breaking role in the gay liberation movement and explains some of his major theoretical concepts which continue to influence our understanding of human sexuality and social justice today **Finding Europe** Anthony Molho, Diogo Ramada Curto, 2007-04-01 In the last decade or so many books have been devoted to the history of Europe Two conceptual axes predominate in a large number of these accounts a discourse focusing on Europe's values and another discourse fashioned largely in opposition to the first which emphasizes the process of European construction The first conceives of Europe's past teleologically as a process by which certain values Christian ethics individualism capitalism tolerance republicanism due process etc were affirmed and came to define European culture The second approach rejects the discourse on values emphasizes the post Enlightenment emergence of the concept of Europe and the political and ideological implications in its continuous redefinitions and re-elaborations during the past two or more centuries This volume offers new approaches that integrate the long temporal dimension of the values based approach albeit devoid of its teleological element with the constructivist interpretation
