Macroeconomic Theory and Macroeconomic Pedagogy G. Fontana,M. Setterfield,2016-04-30 This book aims to showcase and advance recent debates over the extent to which undergraduate macroeconomics teaching models adequately reflect the latest developments in the field It contains 16 essays on topics including the 3 equation New Consensus model extensions and alternatives to this model and endogenous money and finance

Rethinking Sustainable Development Seck TAN,2024-06-03 This book demonstrates falsified economic performance of global economies when the environment is not recognised as a capital and when the ecosystem is overlooked towards sustainable development Seck begins with an analysis of standard macroeconomic framework and policy practice He argues with reference to environmental accounting literature that environmental capital must form an integral component of

economic measurement This paves the way for an alternative environmental macroeconomics framework for policy analysis that promotes sustainable development The book demonstrates how environmental capital can be measured with reference to select OECD countries and provides a methodology for analysing how macroeconomic goals are related to a steady state economy Seck then concludes with a summary of the conflict between current economic growth and ecosystem preservation and outlines possible policy improvements and directions for research Rethinking Sustainable Development is an invaluable reference for policymakers as well as researchers and students of environmental economics sustainable development and macroeconomics

Law, Social Sciences, and Public Policy Anthony Chin, Alfred Choi, 1998 Professionals and government officials often encounter a variety of legal and public policy questions which have economic sociological political and spatial overtones and implications This volume brings together lawyers and social scientists to discuss pertinent issues from their relevant expertise with the aim of providing new insights into the different training skills and background of law and the social sciences which would in turn contribute to a more symbiotic relationship between the two disciplines to help policy and decision makers be fair and efficient in implementing or advising regulatory and developmental programmes This volume should be a useful reference to policy makers professionals advising the government lawyers and researchers undertaking inter disciplinary studies
