Shadow Of The Giant Sequel To Shadow Puppets:

Shadow Puppets Orson Scott Card, 2003-06-16 Bestselling author Orson Scott Card brings to life a new chapter in the saga of Ender's Earth and The Shadow Series. Earth and its society have been changed irrevocably in the aftermath of Ender Wiggin's victory over the Formics. The unity forced upon the warring nations by an alien enemy has shattered. Nations are rising again seeking territory and influence and most of all seeking to control the skills and loyalty of the children from the Battle School. But one person has a better idea: Peter Wiggin, Ender's older, more ruthless brother, sees that any hope for the future of Earth lies in restoring a sense of unity and purpose. And he has an irresistible call on the loyalty of Earth's young warriors. With Bean at his side, the two will reshape our future. *Shadow Puppets* is the continuing story of Bean and Petra and the rest of Ender's Dragon Army as they take their places in the new government of Earth.

Shadow of the Giant Orson Scott Card, 2009-11-30 The Ender Saga continues with *Shadow of the Giant*, which parallels the events of *Ender's Game* from a different character's point of view. Bean's past was a battle just to survive. He first appeared on the streets of Rotterdam, a tiny child with a mind leagues beyond anyone else. He knew he could not survive through strength; he used his tactical genius to gain acceptance into a children's gang and then to help make that gang a template for success for all the others. He civilized them and lived to grow older. Then he was discovered by the recruiters for the Battle School. For Earth was at war, a terrible war with an inscrutable alien enemy. A war that humanity was near to losing. But the long distances of interstellar space have given hope to the defenders of Earth: they had time to train military geniuses up from childhood, forging them into an irresistible force in the high orbital facility called the Battle School. That story is told in two books: Orson Scott Card's beloved classic *Ender's Game* and its parallel, *Ender's Shadow*. Now in *Shadow of the Giant*, Bean's story continues. Bean was the smallest student at the Battle School, but he became Ender Wiggins' right hand. Since then, he has grown to be a power on Earth. He served the Hegemon as strategist and general in the terrible wars that followed Ender's defeat of the alien empire attacking Earth. Now he and his wife Petra yearn for a safe place to build a family, something he has never known, but there is nowhere on Earth that does not harbor his enemies, old enemies from the days in Ender's Jeesh, new enemies from the wars on Earth. To find security, Bean and Petra must once again follow in Ender's footsteps. They must leave Earth behind in the control of the Hegemon and look to the stars.
