Douglas Clayton, Yana Meerzon, 2013 This book considers the hundred years of re-writes of Anton Chekhov's work presenting a wide geographical landscape of Chekhovian influences in drama The volume examines the elusive quality of Chekhov's dramatic universe as an intricate mechanism an engine in which his enigmatic characters exist as the dramatic and psychological ciphers we have been decoding for a century and continue to do so Examining the practice and the theory of dramatic adaptation both as intermedial transformation from page to stage and as intramedial mutation from page to page the book presents adaptation as the emerging genre of drama theatre and film This trend marks the performative and social practices of the new millennium highlighting our epoch's need to engage

with the history of dramatic forms and their evolution The collection demonstrates that adaptation as the practice of transformation and as a re thinking of habitual dramatic norms and genre definitions leads to the rejuvenation of existing dramatic and performative standards pioneering the creation of new traditions and expectations As the major mode of the storytelling imagination adaptation can build upon and drive the audience s horizons of expectations in theatre aesthetics Hence this volume investigates the original and transformative knowledge that the story of Chekhov s drama in mutations offers to scholars of drama and performance to students of modern literatures and cultures and to theatre practitioners worldwide

Handbook of Transatlantic North American Studies Julia Straub, 2016-05-10 Transatlantic literary studies have provided important new perspectives on North American British and Irish literature They have led to a revision of literary history and the idea of a national literature They have changed the perception of the Anglo American literary market and its many processes of transatlantic production distribution reception and criticism Rather than dwelling on comparisons or engaging with the notion of influence transatlantic literary studies seek to understand North American British and Irish literature as linked with each other by virtue of multi layered historical and cultural ties and pay special attention to the many refractions and mutual interferences that have characterized these traditions since colonial times This handbook brings together articles that summarize some of

the crucial transatlantic concepts debates and topics The contributions contained in this volume examine periods in literary and cultural history literary movements individual authors as well as genres from a transatlantic perspective combining theoretical insight with textual analysis Othello (Second Edition) (Norton Critical Editions) William Shakespeare, 2017 I wanted an edition of Othello that had the necessary footnotes background material and a good selection of recent critical articles that would be accessible to students and would spark class discussions This was it Deborah Montuori Shippensburg University This Norton Critical Edition includes The First Folio text 1623 An introduction explanatory footnotes note on the text and textual notes by Edward Pechter Fifteen illustrations Giraldi Cinthio's sixteenth century story in its entirety which Shakespeare used for both the plot and many details of Othello A generous selection of interpretive responses to Othello from its origins to the present day including new to the Second Edition those by Stanley Cavell and Lois Potter Edward Pechter's popular theatrical and critical overview of Othello has been significantly expanded An updated Selected Bibliography **The Shakespearean Name** David Lucking, 2007 This book comprises ten essays on Shakespearean drama the majority of which focus on the problem of language and more particularly on issues pertaining to names and their meanings Four of these essays deal specifically with Romeo and Juliet and examine the work in different sets of terms as a reply to the aspersions against Shakespeare contained in Greene's *Groatsworth of Wit* as a representative site for a kind of archaeology of meaning as an experiment in the poetics of identity and as a meditation on the interrelation between rival conceptions of time Other works subjected to extended analyses in independent essays are Richard II Julius Caesar and Macbeth all of which are interpreted as tragedies of language in which the paradoxes inherent in names and naming are enacted in the personal dilemmas of the protagonists The final two essays in the volume comparative rather than exegetical in approach explore the intricate web of allusion linking *The Tempest* with Marlowe's *Doctor Faustus* and Jonson's *The Alchemist* and consider the contribution that all three plays make to the Renaissance exploration of the role played by art and knowledge in human life

Embodying Transformation Maryrose Casey, 2015-06-01 The essays in this collection explore transcultural events to reveal deeper understandings of the dynamic nature power and affect of performance as it is created and witnessed across national and cultural boundaries Focusing on historical and contemporary public events in multiple contexts contributors offer readings of transcultural exchanges between Europe Asia and the Middle East between colonisers and the colonised and back again In the process the authors explore questions of aesthetics cultural anxiety cultural control and how to realise intentions in performance practice
