Nature Spirits and What They Say Verena Stael von Holstein,2019-12-11 I can perceive spiritual beings in my surroundings I can communicate with higher spirit beings of either an elemental or non elemental kind when they are willing I can perceive the human aura as well as certain areas of the astral plane I can see the aura of plants and animals I can speak with the guardian beings of plants and animals inasmuch as they re interested Verena Sta l von Holstein Verena has learned to see and speak to elemental and nature beings What s more she is able to translate their language into human terminology and thought In this remarkable book seventeen nature spirits are interviewed through her almost as if these beings were sitting in front of us Through the conversations we learn what spirits of fire air water and stone have to say as well as hearing from beings of glass silver salt paper and even spirits of our dwellings and homes They speak about their work with nature and their regrettable lack of contact with human beings They describe the secrets of the cosmos and tell of humankind s past and future The nature beings have surprising views on the environment on natural disasters good and evil love and redemption The interviews throw up beautiful but sometimes disturbing insights into our world Nature Spirits and What They Say offers an enchanting view of the world of elemental beings but it also calls on us to recognize the seriousness of the situations they describe As Verena explains humans owe a huge amount to nature spirits and we need to discover new ways of approaching them with full consciousness This valuable book gives us the means to do just that *NATURE SPIRITS* RUDOLF STEINER,2016-09-05 Based on knowledge attained through his highly trained clairvoyance Rudolf Steiner contends that folk traditions regarding nature spirits are based on spiritual reality He describes how people possessed a natural spiritual vision in ancient times enabling them to commune with nature spirits These entities which are also referred to as elemental beings became immortalised as fairies and gnomes in myth legend and children s stories Today says Steiner the instinctive understanding that humanity once had for these elemental beings should be transformed into clear scientific knowledge He even asserts that humanity will not be able to reconnect with the spiritual world if it cannot develop a new relationship to the elementals The nature spirits themselves want to be of great assistance to us acting as emissaries of higher divine spiritual beings **Nature-spirits and the Spirits of the Elements** Daniel Nicol Dunlop,1920

Nature Spirits: The Remembrance Susan Raven,2012-11-12 In this lucid step by step guide Susan Raven

introduces us to the world of nature spirits and elemental beings and explains why these entities wish to reconnect with us. By working together with the elementals which reside in earth, water, air, and fire, we can become responsible co-creators at this critical time in our evolution. The future of humanity and that of the Earth may be dependent upon such a positive and reciprocal relationship. Susan investigates the nature of the accelerated evolutionary wave of consciousness pulsing into Earth at the present time and how its effects are helping us forge a new link with the spiritual and etheric worlds. It is in the ether where the dissolving and coalescing forces behind physical matter exist that we find the kingdom of the nature spirits. Making use of her personal experiences, Susan describes the activities of these beings in the landscape, in plants, and in human beings. She presents meditations and exercises to prepare us for a meeting with the nature spirits and emphasises the importance of working with the elemental kingdom in our immediate environment. The path of personal development outlined in *Nature Spirits: The Remembrance* features a wide range of insightful testimony from some of the most well-respected seers, with particular emphasis on the work of Rudolf Steiner. *Dwarves and Other Nature Spirits* Jaime T. Four Crucial Elements of the Bible--Christ, the Spirit, Life, and the Church Witness Lee, 1998-12 **Gaia's Hidden Life** Shirley J. Nicholson, Brenda Rosen, 1992-11-01 A new collection of essays on the living intelligence within nature from various spiritual and scientific perspectives by James Lovelock Dorothy MacLean Joan Halifax Thomas Berry John Seed Serge King author of *Earth Energies* and others *The Four Crucial Elements of the Bible -- Christ, the Spirit, Life, and the Church* Witness Lee, The Bible has its kernel its life its center which is constituted with the church Christ the Spirit and life These four items are the contents of the true substance of the Bible The revelation of the Bible particularly the New Testament stresses these four matters the church Christ the Spirit and life If we remove these four items from the New Testament all that remains would merely be dead letters These four crucial elements are also the four important items in the Lord's recovery today Hence we must all have a deep impression a fresh light and a renewed understanding concerning these four crucial elements Encyclopedic Psychic Dictionary June G Bletzer Ph D, 2011-05-01 Standard dictionaries and grammar books do not offer adequate language when it comes to describing invisible mind impressions internal body sensations and altered states of consciousness Newly awakened interest in psychics mystics shamans mediums their philosophy of life and their experiences within invisible dimensions has extended everywhere Organizations seminars weekend workshops classes and therapies in para psychology and humanistic psychology spring up over night Medical doctors and researchers in holistic health are assembling a startling body of evidence that intimately connects parapsychological theories with both physical and mental well being One may now openly speak about one's new attitudes changes in beliefs successful alternative healings meditative and psychic experiences and one's personal quest of a more qualitative lifestyle without under the breath ridicule and harassment This is a global shift in consciousness occurring in all levels of awareness Legions of individuals and other living organisms are beginning to sense the surge of a consciousness shift within themselves from the ant and the tree to the layman and government official Some name this shift in consciousness the age of transformation Whatever one names it it is here Changes change changed and semantic confusion People are groping for words to express new dimensional concepts sensations and experiences with

third dimensional language Instructors authors psychics and laymen in this field are coining new words and giving standard words new meanings in trying to explain the variety of experiences of other levels of consciousness and new inner levels of awareness Mankind has not yet evolved a language or a communication system that can adequately explain these new experiences sensations and concepts This is quite normal in a pioneer field but these descriptive terms are multiplying faster than research and study can evolve The written media system is flooded with newly coined words The aim of this volume is to make the groping for words easier when describing noncustomary experiences and theories with the customary language Any situational shift requires a shift in language variety This book contains a concise grouping of the present day shift in language variety and a comparison of this new language variety to words and phrases used in the past in similar philosophies activities and inner dimensional experiences To accomplish this I have recorded words and phrases from 2000 B C the I Ching to interviews of new age workers such as seen on the Phil Donahue Show Terms used in the mystical and parapsychological field over the years are defined described annotated or theorized This literary reference volume is a twofold book in which a textbook interweaves with a dictionary The same wordage synchronizes a dictionary a textbook and a psychic skill development course This means no unnecessary reading of valueless words The material is concise and to the point Every word is important You could say this volume is a shift in a literary style of writing to accommodate the new global shift in consciousness It is a tool for an accelerated style of learning As a teacher in this field for over four decades Dr Bletzer found that students drawn to the study of parapsychology were people of all ages and all walks of life She observed this human potential movement and consciousness shift becoming alive among her students with an accelerated speed in the later years of her life From the sixteen hundred students she taught to develop psychically the amount of time to acquire good psychic skills lessened by half during the last few years She was finding that the public demand for information relating to parapsychology was coming faster than anyone could teach it She found a strong desire to understand the multitude of new terms and new meanings for standard words used to describe new and rediscovered states of awareness and experiences as well as a concrete need for a comprehensive study of the parapsychological field Human beings all over the world will continue to seek means to transform themselves under the new vibrations of the Aquarian Age and the common ground on terminology given in this book will make this easier With no standard textbooks in this field during her many years of teaching metaphysics and psychic development she researched and prepared all her class lectures experiments and course material With knowledge gleaned from this research she taught psychic development and received feedback from the students being instructed She also read and scanned hundreds of additional books written in the past and present Words and phrases were taken not only from these books but also from magazines pamphlets newspaper articles lectures seminars television and radio programs record jackets and even from herb tea boxes Therefore one will find colloquialisms as well as technical and philosophical terms The bibliography at the end of the volume describes many of these sources Because

astrology demonology psychology mythology and many religions have their own glossary these words are not reprinted in this volume unless the term frequently interfaces with parapsychology This book is intended to serve as a reference tool for the beginning student the researcher and the professional First consider this volume as an easy to use comprehensive annotated technical dictionary complete with cross references to ninety percent of the entries The cross references add to the meaning description annotation or sometimes simply presents another person's viewpoint to the reader Although the definitions emphasize simplicity and clarity I tried to retain and reflect the beauty and profoundness given by the mystic philosopher and parapsychologist The annotations are concise and to the point in order to get all the categories in one volume This gives a holistic view of the parapsychology field One may feel there are too many relating subjects but once one is open to this field he or she will be exposed to many of these other fields There are guidelines as to the format used in the dictionary wordage It is suggested that one turn to the categories of his or her interest to see what terms exist In spite of acceleration of popular growth in this field one can quickly acquaint her or himself with the many words which have recently come into usage Also consider this volume as a condensed comprehensive technical para psychology textbook complete with do it by yourself instructions Because the entries are categorized under their particular field and in alphabetical order one can very quickly find much information about the subject of their choice And for a full basic but in capsule form education in this field there are instructions outlining graduated steps for not only the individual just becoming interested but also the long time instructor Language varies in different cultures time periods and even in small groups of one cause It varies because the users of language change it to adapt to their needs Words are alive powerful and constantly growing As a dictionary researcher Dr Bletzer felt it her duty to record the words as they were used not to pass judgment and offer corrections She tried to keep the definition description or annotation as unvarnished and natural as possible so one can more easily understand the philosophy or a new dimension that may be completely foreign to him The overall aim is to make some kind of common ground melding psychic knowledge pot which will bring together time periods and cultures showing similarities and differences in psychic skills and philosophies Language today is being individually designed different meanings and different parts of speech are being given to standard words and old words are being revitalized The reason for this is because there is no common ground melding psychic knowledge pot Humankind needs a synthesization of communication in this discipline today more than ever before Hosts of individuals are finding an inner desire to increase their psychic skills in order to better understand themselves and to understand how and why the planet is bringing a consciousness shift Psychic skills and parapsychological information are tools to help understand this consciousness shift and these accelerated times They are also good tools for those who wish to add to the shift in the earth's consciousness The hope is that in some small way this volume will aid compatibility co operation and conformity in parapsychological affairs among psychics humanistic psychologists holistic health practitioners scientists researchers ministers meditators etc and lessen the

semantic confusion As you study from these references the hope is that you find it as comforting and educational in learning that man as a universal creature has been using psychic skills holistic health therapies etheric world intelligences etc in other time periods and in every culture of the world Confucius said Without knowing the force of words it is impossible to know men *The Illuminate of Görlitz, Or, Jakob Böhme's (1575-1624) Life and Philosophy* Herman Vetterling,1923

Lord of the Elements Bastiaan Baan,2013-03-21 The four classical elements of earth water air and fire are present in Genesis and continue to be significant throughout Christianity Different streams of thought such as the School of Chartres and Celtic Christianity have emphasised them in different ways In this unique book Bastiaan Baan an experienced spiritual thinker brings these elements together with ideas from Rudolf Steiner's anthroposophy He considers in particular how elemental beings nature spirits relate to the four elements and explores the role of elemental beings in our world This is a fascinating and original work on the connections between Christianity and the natural world *Autology* David Henry Hamilton,1873 *Angels* Rudolf Steiner,2013-04-02 Religious and spiritual writings have always made reference to beings from the spiritual hierarchies especially those known in Christian tradition as Angels These spirits are the closest to human beings and act as our invisible guides and companions They influence the life of the individual as well as the evolution of humanity and the cosmos From his own clairvoyant vision Rudolf Steiner confirmed the existence of such spiritual beings and showed how modern minds could gain access to their world As he explains in these inspiring lectures it is important for us to understand and cooperate with the work of the Angels today as this is crucial for the further development of humanity
