Hicks,2000 Offers advice on how to make money by investing in real estate property including how to choose between commercial and residential property and avoid common mistakes *Kiplinger's Personal Finance* ,2005-06 The most trustworthy source of information available today on savings and investments taxes money management home ownership and many other personal finance topics **Why Public Higher Education Should Be Free** Robert Samuels,2013-08-15

Universities tend to be judged by the test scores of their incoming students and not on what students actually learn once they attend these institutions While shared tests and surveys have been developed most schools refuse to publish the results Instead they allow such publications as U S News World Report to define educational quality In order to raise their status in these rankings institutions pour money into new facilities and extracurricular activities while underfunding their educational programs In Why Public Higher Education Should Be Free Robert Samuels argues that many institutions of higher education squander funds and mislead the public about such things as average class size faculty to student ratios number of faculty with PhDs and other indicators of educational quality Parents and students seem to have little knowledge of how colleges and universities have been restructured over the past thirty years Samuels shows how research universities have begun to function as giant investment banks or hedge funds that spend money on athletics and administration while increasing tuition costs and actually lowering the quality of undergraduate education In order to fight higher costs and lower quality Samuels suggests universities must reallocate these misused funds and concentrate on their core mission of instruction and related research Throughout the book Samuels argues that the future of our economy and democracy rests on our ability to train students to be thoughtful participants in the production and analysis of knowledge If leading universities serve only to grant

credentials and prestige our society will suffer irrevocable harm Presenting the problem of how universities make and spend money Samuels provides solutions to make these important institutions less expensive and more vital By using current resources in a more effective manner we could even he contends make all public higher education free **Commerce** ,1915
