Planning and Power in Iran Geoffrey Jones,1989 **Planning and Power in Iran** Frances Bostock,Geoffrey Jones,1989 First Published in 1989 Routledge is an imprint of Taylor Francis an informa company **Planning and Power in Iran** Frances Bostock,Geoffrey Jones,2014-02-04 An account of the career of Abol Hassan Ebtehaj The Shah, the Islamic Revolution and the United States Darioush Bayandor,2018-12-02 The Islamic Revolution in 1979 transformed Iranian society and reshaped the political landscape of the Middle East Four decades later Darioush Bayandor draws upon heretofore untapped archival evidence to reexamine the complex domestic and international dynamics that led to the Revolution Beginning with the socioeconomic transformation of the 1960s this book follows the Shah s rule through the 1970s tracing the emergence of opposition movements the Shah s blunders and miscalculations the influence of the post Vietnam zeitgeist and the role of the Carter administration The Shah the Islamic Revolution and the United States offers new revelations about how Iran was thrown into chaos and an ailing ruler lost control with consequences that still reverberate today Nixon, Kissinger, and the Shah Roham Alvandi,2016-11 In this revisionist account of U S Iran relations during the Cold War Roham Alvandi provides a detailed historical study of the partnership that Shah Mohammad Reza Pahlavi of Iran forged with U S President Richard Nixon and his adviser Henry Kissinger in the 1970s Petroleum and Progress in Iran Gregory Brew,2022-12-22 Explores how oil companies Western development NGOs the US government and Iranian technocrats turned Iran into the first petro state **The Shah's Imperial Celebrations of 1971** Robert Steele,2020-10-15 In October 1971 Mohammad Reza Pahlavi Shah of Iran held a celebration to commemorate the 2500th anniversary of the founding of the Persian Empire by Cyrus the Great Dozens of heads of state descended on Persepolis for these Celebrations where they were regaled to sumptuous banquets and entertainment Critical journalists in Western Europe and North America lambasted the Shah for holding such a decadent event while many of his people lived in poverty Due to the overwhelmingly negative press at the time the event is still today widely remembered as a catastrophic failure It is even said by many to have sparked the unrest that eventually led to the revolution and the Shah s downfall in 1979 In this first comprehensive academic study of the 2500th Anniversary Celebrations Robert Steele looks beyond the pomp and splendour to examine the events origins the goals the organisers set out to achieve with them and the extent to which these goals were accomplished The book seeks to place the Celebrations in the context of the Shah s rise rather than his fall uncovering the unparalleled international cultural and scholarly operation that was spurred by the Iranian regime for the occasion exploring the effects the event had on Iran s tourism industry and questioning narratives of the event s cost Democracy in Iran Ali Gheissari,2009-07-24 In this book Ali Gheissari and Vali Nasr look at the political history of Iran in the modern era and offer an in depth analysis of the prospects for democracy to flourish there After having produced the only successful Islamist challenge to the state a revolution and an Islamic Republic Iran is now poised to produce a genuine and indigenious democratic movement in the

Muslim world Democracy in Iran is neither a sudden development nor a western import and Gheissari and Nasr seek to understand why democracy failed to grow roots and lost ground to an autocratic Iranian state

The Age of Aryamehr
Roham Alvandi, 2018-07-15 Fully incorporates Pahlavi Iran into the global history of the 1960s and 70s when Iran mattered far beyond its borders The reign of the last Shah of Iran Mohammad Reza Pahlavi 1941-79 marked the high point of Iran's global interconnectedness Never before had Iranians felt the impact of global political social economic and cultural forces so intimately in their national and daily lives nor had Iranian actors played such an important global role on battlefields barricades and in board rooms far beyond Iran's borders Iranian intellectuals technocrats politicians workers artists and students alike were influenced by the global ideas movements markets and conflicts that they also helped to shape From the launch of the Shah's White Revolution in 1963 to his overthrow in the popular revolution of 1978-79 Iran saw the longest period of sustained economic growth that the country had ever experienced An entire generation took its cue from the shift from oil consumption to oil production to dream of and aspire to a modernized Iran and the history of Iran in this period has tended to be presented as a prologue to the revolution Those histories usually locate the political social and cultural origins of the revolution firmly within a national context into which global actors intruded as Iranian actors retreated While engaging with that national narrative this volume is concerned with Iran's place in the global history of the 1960s and 70s It examines and highlights the transnational threads that connected Pahlavi Iran to the world from global traffic in modern art and narcotics to the embrace of American social science by Iranian technocrats and the encounter of European intellectuals with the Iranian Revolution

Is the Tehran Bazaar Dead? Foucault, Politics, and Architecture Farzaneh Haghighi, 2018-10-01 To examine the political role of architecture this book presents an original engagement with the largest center of attraction in Tehran namely its bazaar Through a rigorous study it goes beyond the conventional sociopolitical and architectural discourses of this marketplace by considering architecture as an event This book offers alternative modes of spatial thinking on a micropolitical level Emphasis is placed on the focused exploration of key notions mainly drawn from the works of Michel Foucault It deploys effective methods and shows how philosophical concepts can be deployed as a tool to analyse the ways through which architecture transforms individuals through the act of exchange whether of words things bodies or thoughts

Confronting Iran Ali Ansari, 2007-03-16 Iran refuses to relent in developing nuclear technology despite U N sanctions Rumors persist that Israel is drawing up plans for military strikes Neither the emboldened Iranian president Mahmoud Ahmadinejad nor the embattled President Bush has relented in his war of words How did we get here Iran expert Ali Ansari sets the current crisis in the context of a long history of mutual antagonism From the overthrow of Mosaddeq in 1953 to the hostage crisis in 1979 and more recently the Gulf War and the War in Iraq both Iranian and American politicians have forged conflicting narratives about an evil empire lying half a world away resulting in a mutual mistrust that may ultimately lead to war

Eminent Persians Abbas Milani, 2022-08-01 As the 25th anniversary of the Islamic Revolution approached Abbas Milani realized that very little if any attention had been given to the entire prerevolutionary generation Political upheavals and a tradition of neglecting the history of past regimes have resulted in a cultural memory loss erasing the contributions of a generation of individuals Eminent Persians seeks to rectify that loss Milani's groundbreaking portrait of modern Iran reveals the country's rich history through the lives of the men and women who forged it Consisting of 150 profiles of the most important innovators in Iran between World War II and the Islamic Revolution the book includes politicians entrepreneurs poets artists and thinkers who brought Iran into the modern era with brilliant success and sometimes terrible consequences The biographies and essays weave a richly textured tapestry of lives ideas and events that reveals the true story of these decades in the life of a nation The two volumes are divided into sections on politics economics

Hamidreza Mahboubi Soufiani,2023-10-20 This book examines the emergence of modern company towns in Iran by delineating the architectural political and industrial histories of three distinct resource based company town projects built in association with the Big Three powers of World War II The book s narrative builds upon a tripartite research design that chronologically traces the formation and development of the oil steel and copper industries respectively favoured by Great Britain the Soviet Union and the United States in this part of the world By applying three sets of comparative studies the book provides critical vantage points to three different ideological design paradigms postcolonial regionalism socialist universalism and rationalist modern nation building From a global political context the book contributes to the disclosure of new information about the geopolitical confrontation of these three nations in the Global South to increase their sphere of influence after the Second World War Furthermore it demonstrates how postwar architectural modernism was adopted by each power and adapted to their ideological mind frame to fulfil distinct social cultural political and economic targets This book examines multiple interconnections between architecture politics and industrial development by adopting a transdisciplinary approach based on comprehensive fieldwork site surveys and the analysis of original multilingual documents As such it will be of interest to researchers and students of architecture history international relations and Middle Eastern studies **The Politics of Nationalism in Modern Iran** Ali M. Ansari,2012-09-24 The first full length study of Iranian nationalism in nearly five decades this sophisticated and challenging book by the distinguished historian Ali M Ansari explores the idea of nationalism in the creation of modern Iran It does so by considering the broader developments in national ideologies that took place following the emergence of the European Enlightenment and showing how these ideas were adopted by a non European state Ansari charts a course through twentieth century Iran analysing the growth of nationalistic ideas and their impact on the state and demonstrating the connections between historiographical and political developments In so doing he shows how Iran s different regimes manipulated ideologies of nationalism and collective historical memory to suit their own ends Drawing on hitherto untapped sources the book concludes that it was the revolutionary developments and changes that occurred during the first half of the twentieth century that paved the way for later radicalisation **Nationalising Oil and Knowledge in Iran** Mattin Biglari,2025-02-28 Iran s nationalisation of oil in 1951 was a key catalyst for the rise of resource nationalism as an animating force of global decolonisation expelling the Anglo Iranian Oil Company AIOC now known as BP after nearly fifty years of domination in southwest Iran Nationalising Oil Knowledge in Iran turns attention to the origins of nationalisation in the everyday struggles between the oil company and

subaltern actors in the city of Abadan then home to the world's largest oil refinery and deeply imbricated in networks of colonialism and racial capitalism. Engaging with energy history, postcolonial subaltern studies, and science technology studies, the book focuses on the politics of expertise, how nationalisation reproduced the epistemic coloniality of the oil company, which rested on local dispossession, social engineering, as well as racial and gendered segregation. It argues that nationalisation diverged from subaltern contestations of oil expertise in Abadan, which presented a more fundamental challenge to colonial modernity.
