tamu Lewis,2007-04 In this searching study Nghana Lewis offers a close reading of the works and private correspondences essays and lectures of five southern white women writers Julia Peterkin Gwen Bristow Caroline Gordon Willa Cather and Lillian Smith At the core of this work is a sophisticated reexamination of the myth of southern white womanhood Lewis overturns the conventional argument that white women were passive and pedestal bound Instead she argues that these figures were complicit in the day to day dynamics of power and authorship and stood to gain much from these arrangements at the expense of others At the same time that her examination of southern mythology explodes received wisdom it is also a journey of self discovery As Lewis writes in her preface As a proud daughter of the South I have always been acutely aware of the region s rich cultural heritage folks and foodstuffs How could I not be I was born and reared in Lafayette Louisiana where an infant s first words are not da da and ma ma but crawfish boil and fais do do I have also always been keenly familiar with its volatile history Where these conflicting images and specifically the role of white southern women as catalysts vindicators abettors and antagonists meet forms the crux of this study As such this study of the South by a daughter of the South offers a distinctive perspective that illuminates the texts in novel and provocative ways *Sequels* Janet G. Husband,Jonathan F.

Husband,2009 A guide to series fiction lists popular series identifies novels by character and offers guidance on the order in which to read unnumbered series **William Faulkner** Richard Godden,2009-01-10 In William Faulkner Richard Godden traces how the novelist s late fiction echoes the economic and racial traumas of the South s delayed modernization in the mid twentieth century As the New Deal rapidly accelerated the long term shift from tenant farming to modern agriculture many African Americans were driven from the land and forced to migrate north At the same time white landowners exchanged dependency on black labor for dependency on northern capital Combining powerful close readings of *The Hamlet Go Down Moses* and *A Fable* with an examination of southern economic history from the 1930s to the 1950s Godden shows how the novels literary complexities from their narrative structures down to their smallest verbal emphases reflect and refract the period s economic complexities By demonstrating the interrelation of literary forms and economic systems the book describes in effect the poetics of an economy Original in the way it brings together close reading and historical context William Faulkner offers innovative interpretations of late Faulkner and makes a unique contribution to the understanding of the relation between literature and history *Costerus* ,1984 Essays in English and American language and literature
