Planteamientos de la pedagogía crítica , **Planteamientos de la pedagogía crítica** Ana Ayuste, Ramón Flecha, Ramón López Palma, Fernando López Palma, Jordi Lleras, 1999 Planteamientos de la pedagogía crítica , 1994

Pedagogía crítica Joe L. Kincheloe, Peter McLaren, 2008-11-17 Las políticas sociales y educativas se lo se debaten en términos de cómo adaptarlas a las necesidades del mercado. Y este nos asegura que la compasión por los pobres es una política desacertada porque siempre tendrá consecuencias económicas y sociales desafortunadas. Las necesidades del mercado eclipsan las cuestiones morales. Los autores debaten en este libro acerca del modo en que la pedagogía crítica debe responder a estas condiciones tan funestas y lo hacen de una forma que resulta al mismo tiempo rigurosa y profética contribuyendo además en la lucha por mejorar las vidas de aquellos a los que más afectan estas condiciones. El resultado es este libro esencial para cualquier profesor que esté en activo o que vaya a estarlo. Educación Física y pedagogía crítica E. Lorente, D. Martos, 2018-02-06 Se ha reprochado a las pedagogías críticas haber tenido un escaso desarrollo práctico por la dificultad de traducir los postulados teóricos a las prácticas pedagógicas concretas. Este libro nace con el propósito de salvar dicha crítica y mostrar una amplia variedad de experiencias nacionales e internacionales que están llevando a cabo diferentes grupos de trabajo en diversos contextos educativos. Profesionales con inquietudes por hacer de la Educación Física una materia capaz de empoderar al alumnado con una conciencia crítica que le permita sensibilizarse con las problemáticas sociales implicarle y darle la confianza de que puede contribuir a transformar y a mejorar su entorno y su comunidad. Las experiencias relatadas e investigadas en este libro no pretenden constituir un manual para ser reproducido por el profesorado sino que se plantean como una fuente de sugerencias e ideas que puedan generar reflexión e inspirar al lector o lectora para adaptarlas a su propio contexto y práctica profesional. Preparation, Practice, and Politics of Teachers Mark Ginsburg, 2013-02-11 This edited volume based on papers presented at the World Congress of Comparative Education Istanbul 2010 presents research examining pre-service teacher education in-service teacher development and the politics of teachers work in a variety of geographical regions including Asia Africa Eurasia Europe Latin America and North America. More specifically the chapters examine the situations activities and education of teachers in the societal contexts of Cuba Equatorial Guinea France Germany Ghana Hong Kong Ireland Lithuania The Netherlands Scotland Spain Turkey and the United States. The authors address a variety of important questions related to a group of employees who are key actors in determining the quality of education. How can pre-service teacher education best be organized for different purposes in various settings? What kinds of activities should be organized and who should be involved in in-service professional development to promote teacher capacity and commitment to perform their roles in classrooms and communities? What kinds of incentives can motivate teachers engagement with various aspects of their work? How do certain educational policies and reforms promote the professionalization or the deprofessionalization and proletarianization of teaching? What are the

opportunities and constraints for teachers as they seek to operate within the micro politics of schools and the macro politics of society The book thus contributes to refining our understanding of the critical theoretical issues in the field of comparative and international education as well as calling attention to dynamics that should be considered in developing and implementing as well as critiquing and resisting educational policies in varying contexts
