Platonic Tradition In The Middle Ages:

The Platonic Tradition in the Middle Ages Stephen Gersh, Maarten J.F.M. Hoenen, 2013-02-06 This collection of essays delineates the history of the rather disparate intellectual tradition usually labeled as Platonic or Neoplatonic In chronological order the book covers the most eminent philosophic schools of thought within that tradition The most important terms of the Platonic tradition are studied together with a discussion of their semantic implications the philosophical and theological claims associated with the terms the sources that furnish the terms and the intellectual traditions aligned with or opposed to them The contributors thereby provide a vivid intellectual map of the Middle Ages and the Early Modern period

Contributions are written in English or German

The Continuity of the Platonic Tradition During the Middle Ages

Raymond Klibansky, 1982 The continuity of the platonic tradition during the Middle Ages together with Plato's Parmenides in the Middle Ages and the Renaissance

New Perspectives on the Platonic Tradition in the Middle Ages. Sources and Doctrines A. Palazzo, E. Bisanti, 2021

The Continuity of the Platonic Tradition During the Middle Ages Raymond

Klibansky, 1939 Metaphysics and Hermeneutics in the Medieval Platonic Tradition Stephen Gersh, 2020-11-09

Metaphysics and Hermeneutics in the Medieval Platonic Tradition consists of twelve essays originally published between 2006 and 2015 dealing with main trends and specific figures within the medieval Platonic tradition Three essays provide general surveys of the transmission of late ancient thought to the Middle Ages with emphasis on the ancient authors the themes and their medieval readers respectively The remaining essays deal especially with certain major figures in the Platonic tradition including pseudo Dionysius the Areopagite Iohannes Scottus Eriugena and Nicholas of Cusa The principal conceptual aim of the collection is to establish the primacy of hermeneutics within the philosophical program developed by these authors in other words to argue that their philosophical activity substantially albeit not exclusively consists of the reading and evaluation of authoritative texts The essays also argue that the role of hermeneutics varies in the course of the tradition between being a means towards the development of metaphysical theory and being an integral component of metaphysics itself In addition such changes in the status and application of hermeneutics to metaphysics are shown to be accompanied by a shift from emphasizing the connection between logic and philosophy to emphasizing that between rhetoric and philosophy The collection of essays fills in a lacuna in the history of philosophy in general between the fifth and the fifteenth centuries It also initiates a dialogue between the metaphysical hermeneutics of medieval Platonism and certain modern theories of hermeneutics structuralism and deconstruction The book will be of special interest to students of the classical tradition in western thought and more generally to students of medieval philosophy theology history and literature

The Continuity of the Platonic Tradition During the Middle Ages Raymond Klibansky, 1981

The Continuity of the Platonic Tradition During the Middle Ages Raymond

Klibansky,1984 **Edinburgh Critical History of Middle Ages and Renaissance Philosophy** Andrew LaZella,2020-05-01 A team of leading international scholars examine Middle Ages and Renaissance philosophy from the perspective of themes and lines of thought that cut across authors disciplines and national boundaries opening up new ways to conceptualise the history of this period within philosophy politics religious studies and literature *Globalism in the Middle Ages and the Early Modern Age* Albrecht Classen,2023-09-05 Although it is fashionable among modernists to claim that globalism emerged only since ca 1800 the opposite can well be documented through careful comparative and transdisciplinary studies as this volume demonstrates offering a wide range of innovative perspectives on often neglected literary philosophical historical or medical documents Texts images ideas knowledge and objects migrated throughout the world already in the pre modern world even if the quantitative level compared to the modern world might have been different In fact by means of translations and trade for instance global connections were established and maintained over the centuries Archetypal motifs developed in many literatures indicate how much pre modern people actually shared But we also discover hard core facts of global economic exchange import of exotic medicine and on another level intensive intellectual debates on religious issues Literary evidence serves best to expose the extent to which contacts with people in foreign countries were imaginable often desirable and at times feared of course The pre modern world was much more on the move and reached out to distant lands out of curiosity economic interests and political and military concerns Diplomats crisscrossed the continents and artists poets and craftsmen traveled widely We can identify for instance both the Vikings and the Arabs as global players long before the rise of modern globalism so this volume promises to rewrite many of our traditional notions about pre modern worldviews economic conditions and the literary sharing on a global level as perhaps best expressed by the genre of the fable *The Platonic Tradition in English Religious Thought* William Ralph Inge,1926 The Hulsean lectures at Cambridge 1925 1926 This short course of lectures must be taken for what it is a plea for the recognition of a third type of Christian thought and belief by the side of the two great types which are usually called Catholic and Protestant It is as the religion of the Spirit that Inge pleads the cause of what he calls the Platonic tradition *Time and Cosmology in Plato and the Platonic Tradition* ,2022-02-14 The way Plato discusses time and its relation to the cosmos has puzzled and divided his readers from the very beginning This originated rich and diverse readings that shaped and contributed to the cosmological discussion of the Hellenistic and Late Antiquity periods Modern scholars too have offered many and often opposed views on the matter This book assembles an international team of scholars to move forward the study of Plato s conception of time to find fresh insights for interpreting his cosmology and to reimagine the ancient Platonic tradition **European Literature and the Latin Middle Ages** Ernst Robert Curtius,2013-07-21 Published just after the Second World War *European Literature and the Latin Middle Ages* is a sweeping exploration of the remarkable continuity of European literature across time and place from the classical era up to the early nineteenth century and from the Italian

peninsula to the British Isles In what T S Eliot called a magnificent book Ernst Robert Curtius establishes medieval Latin literature as the vital transition between the literature of antiquity and the vernacular literatures of later centuries The result is nothing less than a masterful synthesis of European literature from Homer to Goethe European Literature and the Latin Middle Ages is a monumental work of literary scholarship In a new introduction Colin Burrow provides critical insights into Curtius s life and ideas and highlights the distinctive importance of this wonderful book **Medieval Allegory and the**

Building of the New Jerusalem Ann Raftery Meyer,2003 The chantry movement in late medieval England is situated in this context and leads to a demonstration of the movement s associations with the highly wrought poem Pearl and its companion poems the book analyses Pearl as medieval architecture offering fresh perspectives on its elaborate construction and historical context BOOK JACKET **Chrysostomus Javelli** Tommaso De Robertis, Luca Burzelli,2023-08-29 The volume

provides the first book length study of Chrysostomus Javelli s philosophical works An Italian university professor and a prominent figure in the intellectual landscape of sixteenth century Europe Javelli ca 1470 1540 was the author of insightful commentaries on both Plato and Aristotle as well as of original works in which he laid the foundations of a new Christian philosophy In this volume a group of leading scholars from around the world guide readers through the many facets of Javelli s philosophical corpus showing the long term impact of his ideas on Western philosophical thought The twelve essays of this volume shed light on an understudied yet central figure of Renaissance culture revealing new connections and unexplored influences This book is a valuable tool for students and scholars of early modern philosophy classical tradition and Christian theology contributing to the understanding of a neglected chapter of Western intellectual history The Continuity of the Platonic Tradition During the Middle Ages, with a New Preface and Four Supplementary Chapters Raymond Klibansky,1981

The Platonic Mind Peter D. Larsen,Vasilis Politis,2024-11-26 Plato is one of the most widely read and studied philosophers of all time A pivotal figure in the history of philosophy his work is foundational to the Western philosophical tradition The Platonic Mind provides an extensive survey of his work not only placing it in its historical context but also exploring its contemporary significance Comprising over 30 specially commissioned chapters by an international team of contributors the volume is divided into three clear parts Reading Plato s Dialogues Themes From Plato Plato s Influences and Significance Within these sections key topics are addressed including the nature of reality and the physical world human cognition including knowledge sense perception and affective states society politics and law his method of inquiry and literary style his influence on subsequent thinkers and traditions and studies on a wide range of individual Platonic dialogues Plato s work is central to the study of ancient philosophy Greek philosophy history of philosophy metaphysics philosophy of mind political philosophy epistemology philosophy of science ethics philosophy of language legal philosophy and philosophy of religion As such The Platonic Mind is essential reading for all students and researchers in philosophy It will also be of interest to those studying Plato in related disciplines such as politics law ancient history literature and religious studies
