others were some of the most passionate players in National Hockey League history. These skillful and often colorful athletes played exhilarating hockey and were national heroes in a time when only six teams and fewer than 150 players battled for the Stanley Cup. Hockey's Original 6 celebrates the most dynamic players and exciting moments of the era in more than 120 photographs from the legendary Harold Barkley Archives, including a number of never or rarely seen images. From 1942 until the early 70s, Barkley was the Toronto Star's leading sports photographer. He pioneered the use of electronic flash to capture stop action hockey, and his dramatic work, both black and white and vibrant color, defines the pre-expansion period. Two informative essays by Mike Leonetti, hockey historian, archivist, and prolific sportswriter, set Barkley and the photos in context, and short image captions illuminate the players and their feats. The late hockey legend Jean Beliveau provides a personal and insightful foreword. Will take your breath away: a collection that captures players grimacing, suturing tracks, missing teeth, and Brylcreem-lacquered hair; their primitive equipment, joy, and considerable pain; even the depth of snow beneath their tubular steel blades, the individual planks of lumber that were the arena boards, and the octagonal orange crests on the Teyler Rubber Co. pucks whose impact has smudged the fire engine red goalposts. *The Montreal Gazette* *Advances in Sport Psychology*

Kathleen Armour, 2014-01-21. *Pedagogical Cases in Physical Education and Youth Sport* is a completely new kind of resource for students and practitioners working in physical education or youth sport. The book consists of 20 richly described cases of individual young learners, each written by a team of authors with diverse expertise from across the sport, exercise, and movement sciences. These cases bring together knowledge from single sub-disciplines into new interdisciplinary knowledge to inform best practice in physical education, teaching, and coaching in youth sport settings. At the heart of each case is an individual young person of a specified age and gender with a range of physical, social, and psychological characteristics. Drawing on current research, theory, and empirical data from their own specialist discipline, each chapter author identifies the key factors they feel should be taken into account when attempting to teach or coach the young person described. These strands are then drawn together at the end of each chapter and linked to current research from the sport pedagogy literature to highlight the implications for planning and evaluating teaching or coaching sessions. No other book offers such a rich, vivid, and thought-provoking set of pedagogical tools for understanding and working with children and young people in sport. This is an essential resource for any student or physical education coach.
