*Buddhist-Christian Dialogue as Theological Exchange* Ernest M. Valea,2015-04-14 This book is intended to encourage the use of comparative theology in contemporary Buddhist Christian dialogue as a new approach that would truly respect each religious tradition's uniqueness and make dialogue beneficial for all participants interested in a real

theological exchange As a result of the impasse reached by the current theologies of religions exclusivism inclusivism and pluralism in formulating a constructive approach in dialogue this volume assesses the thought of the founding fathers of an academic Buddhist Christian dialogue in search of clues that would encourage a comparativist approach These founding fathers are considered to be three important representatives of the Kyoto School Kitaro Nishida Keiji Nishitani and Masao Abe and John Cobb an American process theologian The guiding line for assessing their views of dialogue is the concept of human perfection as it is expressed by the original traditions in Mahayana Buddhism and Orthodox Christianity Following Abe s methodology in dialogue an Orthodox contribution to comparative theology proposes a reciprocal enrichment of traditions not by syncretistic means but by providing a better understanding and even correction of one s own tradition when considering it in the light of the other while using internal resources for making the necessary corrections

**Hegel versus 'Inter-Faith Dialogue'** Andrew Shanks,2015-02-26 The term inter faith is a recent innovation in English that has gained significant traction in the discussion of religious diversity This volume argues that the concept of faiths in the plural is deeply problematic for Christian theology and proposes a Hegelian alternative to the conventional bureaucratic notion of inter faith dialogue Hegel pioneered the systematic study of comparative religion In line with Hegelian principle Andrew Shanks identifies faith as an inflection of the will towards perfect truth as openness In relation to other religious traditions this must involve the practice of a maximum xenophilia or love for the unfamiliar understood as a core Christian virtue Shanks s neo Hegelian theory recognises the potential for God s work in all religious traditions which may be seen as divine experiments with human nature This timely book discusses a wide range of interreligious encounters and will be an essential resource for studies in comparative theology and philosophy of religion

**Perspective on Interfaith Dialogue** Daniel S. Brown Jr.,2013-01-30 Communication theory provides a compelling way to understand how people of faith can and should work together in today s tumultuous world In A Communication Perspective on Interfaith Dialogue fifteen authors present their experiences and analyses of interfaith dialogue and contextualize interfaith work within the frame of rhetorical and communication studies While the focus is on the Abrahamic faiths these essays also include discussion of Hinduism and interracial faith efforts Each chapter incorporates communication theories that bring clarity to the practices and problems of interfaith communication Where other interfaith books provide theological political or sociological insights this volume is committed to the perspectives contained in communication scholarship Interfaith dialogue is best imagined as an organic process and it does not require theological heavyweights gathered for academic banter As such this volume focuses on the processes and means by which interfaith meaning is produced

*Standing in the Breach* Michael Widmer,2015-09-09 At the heart of this study is a biblical theological approach to central passages on intercessory prayers in the OT After examining these largely prophetic prayer dialogues Widmer argues that they provide an important key to biblical theology and spirituality Furthermore a close reading of prayers by Abraham Moses Samuel David Solomon Isaiah Jeremiah Joel and Amos reveals fascinating insights into the portrayals of these characters and confirms strong conceptual associations with Moses Israel s archetypal mediator Widmer reads these prayers in both their immediate literary and wider canonical contexts The ultimate aim of this study is to gain a deeper understanding of the God whom the church worships and confesses to be the Father of Jesus Christ Particularly pertinent is the finding that many OT prayers interact with God s nature as revealed to Moses in Exod 34 6 7 Yhwh s fullest revelation is also given in the context of an intercessory prayer Widmer argues that intercessory prayer and theology have a hermeneutical spiral relationship mutually informing and correcting each other It is in engaging with a loving and holy God that the phenomenon of divine mutability must be understood Overall *Standing in the Breach* suggests that fundamental biblical themes such as God s mercy and judgment divine retribution and forgiveness covenant mediation substitutionary suffering and atonement and eventually the dynamics of the cross are all intrinsically related to and illuminated by prophetic OT intercessory prayers
