Prehistoric Women:

Lady Sapiens Thomas Ciotteau, Jennifer Kerner, Eric Pincas, 2022-09-12 45 000 years ago rare and precious statues of faceless women with hourglass figures sturdy hips and generous breasts surfaced across Europe **Women in Archaeology** Sandra L. López Varela, 2023-07-12 This book tells the story of women in archaeology worldwide and their dedication to advancing knowledge and human understanding In their own voices they present themselves as archaeologists working in academia or the private and public sector across 33 countries The chapters in this volume reconstruct the history of archaeology while honoring those female scholars and their pivotal research who are no longer with us Many scholars in this volume fiercely explore non traditional research areas in archaeology The chapters bear witness to their valuable and unique contributions to reconstructing the past through innovative theoretical and methodological approaches In doing so they share the inherent difficulties of practicing archaeology not only because they too are mothers sisters and wives but also because of the context in which they are writing This volume may interest researchers in archaeology history of science gender studies and feminist theory Chapter 11 is available open access under a Creative Commons Attribution 4.0 International License via link [springer.com](https://www.springer.com) **Encyclopedia of Women in World Religions** Susan de-Gaia, 2018-11-16 This reference offers reliable knowledge about women's diverse faith practices throughout history and prehistory and across cultures Across the span of human history women have participated in world building and life sustaining cultural creativity making enormous contributions to religion and spirituality In the contemporary period women have achieved greater equality with more educational opportunities female role models in public life and opportunities for religious expression than ever before Contemporaneously with this increased visibility women are actively and energetically engaging with religion for themselves and for their communities Drawing on the expertise of a range of scholars this reference chronicles the religious experiences of women across time and cultures The book includes sections on major religions as well as on spirituality African religions prehistoric religions and other broad topics Each section begins with an introduction followed by reference entries on specialized subjects along with excerpts from primary source documents The entries provide numerous suggestions for further reading and the book closes with a detailed bibliography *Evaluating Evidence in Biological Anthropology* Catherine M. Willermet, Cathy Willermet, Sang-Hee Lee, Sang-hui Yi (Professor of anthropology), 2020 A critical assessment of how evidence in biological anthropology is discovered collected and interpreted **Uncredited** Allison Tyra, 2025-05-06 Containing the histories of over 600 overlooked or disregarded women **Uncredited** is a testament to women's perseverance and the recognition they deserve for their accomplishments Women's accomplishments across history are showcased as aberrations or surprising facts Little thought is often given to the reasons why most of our lauded scientists reporters sports stars politicians and businesspeople all seem to be men **Uncredited** proves that not only have there been hundreds of ground breaking women in all professions but that their accomplishments have been overlooked denigrated or

downright repressed by their male colleagues or historians Uncredited explores why women have not been properly acknowledged for their accomplishments both historically and today This book combines research and statistics with the stories of more than 600 women and is both an academic source and a fascinating read Prepare to be frustrated with the history you've been denied but also inspired by these hidden trailblazers **Library of Congress Subject Headings**

Library of Congress. Cataloging Policy and Support Office, 2009 **Library of Congress Subject Headings** Library of Congress, 1994 *Factory Girls* Paul Chrystal, 2022-12-01 Ever since there have been factories women and children have more often than not worked in those factories What is perhaps less well known is that women also worked underground in coal mines and overground scaling the inside of chimneys Young children were also put to work in factories and coalmines they were deployed inside chimneys often half starved so that they could shin up ever narrower flues This book charts the unhappy but aspirational story of women and children at work through the Industrial Revolution to the beginning of the 20th century Without women there would have been no pre industrial cottage industries without women the Industrial Revolution would not have been nearly as industrial and nowhere near as revolutionary Many women and children were obliged to take up work in the mills and factories long hours dangerous often toxic conditions monotony bullying abuse and miserly pay were the usual hallmarks of a day's work before they headed homeward to their other job keeping home and family together This long overdue and much needed book also covers the social reformers the role of feminism and activism and the various Factory Acts and trade unionism We examine how women and children suffered chronic occupational diseases and disabling industrial injuries life changing and life shortening and often a one way ticket to the workhouse The book concludes with a survey of the art literature and the music which formed the soundtrack for the factory girl and the climbing boys **Epic**

Films Gary Allen Smith, 2009-02-05 Epic films those concerned with monumental events and larger than life characters cover the period from the Creation to the A D 1200s and have been churned out by Hollywood and overseas studios since the dawn of filmmaking Cecil B DeMille a master of the genre hit upon the perfect mixture of sex splendor and the sacred to lure audiences to his epic productions The 355 film entries include casts and credits plot synopsis and narratives on the making of the films There are 190 photographs in this edition **Female Agency in Manuscript Cultures** Eike

Grossmann, 2024-06-17 Manuscript cultures have frequently forgotten neglected or even erased women's contributions from memory Women's agency has also been a glaring blind spot in the scholarly pursuit of gender perspectives on the production of written artefacts This volume addresses these lacunae by highlighting manuscripts and inscriptions by and for women their active participation and enabling sponsorship and their role in the circulation and dissemination of written artefacts Seven papers present case studies from East Asian inscriptions to ancient cuneiform epigraphic Egyptian graffiti from late antiquity to individual specimen and large scale collections in medieval Europe focusing on how women participated in and contributed to those How did they assert their involvement their claims and their aspirations By what rationales and

mechanisms were they excluded or their contribution marginalised How did they react to structures that discriminated against them eventually circumventing subverting and transforming them The present volume sheds light on new findings gives unique insights and discusses methodological considerations in the budding field of women s manuscript studies
