the Glorious Revolution and Whig Providential discourse Part one interprets eighteenth century Gothic novels in terms of this Whig debate about the true heir culminating in Ann Radcliffe's melancholic theology which uses distance and loss to enable a new mediation Part two traces the origins of the doppelgänger in Calvinist anthropology and establishes that its employment by a range of Scottish writers offers a productive mode of subjectivity necessary in a culture equally concerned with historical continuity In part three Irish Gothic is shown to be seeking ways to mediate between Catholic and Protestant identities through models of sacrifice and ecumenism while in part four nineteenth century Gothic is read as increasingly theological responding to materialism by a project of re-enchantment Ghost story writers assert the metaphysical priority of the supernatural to establish the material world Arthur Machen and other Order of the Golden Dawn members explore the double and other Gothic tropes as modes of mystical ascent while raising the physical to the spiritual through magical control and the M R James circle restore the sacramental and psychical efficacy of objects

Zeno's Paradox Joseph Mazur, 2008-03-25 The fascinating story of an ancient riddle and what it reveals about the nature of time and space Three millennia ago the Greek philosopher Zeno constructed a series of logical paradoxes to prove that motion is impossible Today these paradoxes remain on the cutting edge of our investigations into the fabric of space and time Zeno's Paradox uses the motion paradox as a jumping off point for an exploration of the twenty five hundred year quest to uncover the true nature of the universe From Galileo to Einstein to Stephen Hawking some of the greatest minds in history have tackled the problem and made spectacular breakthroughs but through it all the paradox of motion remains

The Literary Bent James D. Bloom, 1997-02 What is literature in these postmodern postcanonical times And if a small number of works being written today are literary what distinguishes them from those many others that are not

The store managers who shelve books in separate literature and fiction sections clearly have something in mind but they are not talking James Bloom has his own ideas and he is With zest and conviction Bloom argues that traditional aspirations to literariness persist in the poetry and fiction of writers such as Robert Stone Jane Smiley Salman Rushdie Toni Morrison Adrienne Rich and Robert Pinsky All in their various ways exhibit a critical and playful awareness of their literary antecedents display and resist the seductions of eloquence arouse and discipline their readers curiosity Bloom deftly shows how their writings negotiate with the nonliterary media that dominate our culture even as the cultural capital of canonical authors like Shakespeare and Keats is put to work on the pages of mail order catalogs and the New York Times on network television and in the products of the Disney conglomerate

A Passion for Nature Donald Worster, 2008 Donald Worster's *A Passion for Nature* is the most complete account of the great conservationist and founder of the Sierra Club ever written It is the first to be based on Muir's full private correspondence and to meet modern scholarly standards yet it is also full of rich detail and personal anecdote uncovering the complex inner life behind the legend of the solitary mountain man It traces Muir from his boyhood in Scotland and frontier Wisconsin to his adult life in California right after the Civil War up to his death on the eve of World War I It explores his marriage and family life his relationship with his abusive father his many friendships with the humble and famous including Theodore Roosevelt and Ralph Waldo Emerson and his role in founding the modern American conservation movement Inspired by Muir's passion for the wilderness Americans created a long and

stunning list of national parks and wilderness areas Yosemite most prominent among them Yet the book also describes a Muir who was a successful fruit grower a talented scientist and world traveler a doting father and husband and a self made man of wealth and political influence The winner of numerous book awards A Passion for Nature was also named a Best Book of 2008 by Washington Post Book World It is the first comprehensive biography of Muir to appear in six decades [Am I a Snob?](#) Sean Latham,2018-08-06 Is there a great divide between highbrow and mass cultures Are modernist novels for by and about snobs What might Lord Peter Wimsey Mrs Dalloway and Stephen Dedalus have to say to one another Sean Latham s appealingly written book Am I a Snob traces the evolution of the figure of the snob through the works of William Makepeace Thackeray Oscar Wilde Virginia Woolf James Joyce and Dorothy Sayers Each of these writers played a distinctive role in the transformation of the literary snob from a vulgar social climber into a master of taste In the process some novelists and their works became emblems of sophistication treated as if they were somehow apart from or above the fiction of the popular marketplace while others found a popular audience Latham argues that both coterie writers like Joyce and popular novelists like Sayers struggled desperately to combat their own pretensions By portraying snobs in their novels they attempted to critique and even transform the cultural and economic institutions that they felt isolated them from the broad readership they desired Latham regards the snobbery that emerged from and still clings to modernism not as an unfortunate by product of aesthetic innovation but as an ongoing problem of cultural production Drawing on the tools and insights of literary sociology and cultural studies he traces the nineteenth century origins of the snob then explores the ways in which modernist authors developed their own snobbery as a means of coming to critical consciousness regarding the connections among social economic and cultural capital The result Latham asserts is a modernism directly engaged with the cultural marketplace yet deeply conflicted about the terms of its success **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office,1977 **Samson Agonistes** John Milton,1925 [Romancing Rhetorics](#) Sherrie L. Gradin,1995 Romancing Rhetorics shows how expressivism is historically related to romanticism and interprets this connection in a positive light
